Desegregating Dixie Mark Newman, 2018-10-04 Winner of the 2020 American Studies Network Book Prize from the European Association for American Studies Mark Newman draws on a vast range of archives and many interviews to uncover for the first time the complex response of African American and white Catholics across the South to desegregation In the late nineteenth and first half of the twentieth century the southern Catholic Church contributed to segregation by confining African Americans to the back of white churches and to black only schools and churches However in the twentieth century papal adoption and dissemination of the doctrine of the Mystical

Body of Christ pressure from some black and white Catholics and secular change brought by the civil rights movement increasingly led the Church to address racial discrimination both inside and outside its walls Far from monolithic white Catholics in the South split between a moderate segregationist majority and minorities of hard line segregationists and progressive racial egalitarians While some bishops felt no discomfort with segregation prelates appointed from the late 1940s onward tended to be more supportive of religious and secular change Some bishops in the peripheral South began desegregation before or in anticipation of secular change while elsewhere especially in the Deep South they often tied changes in the Catholic churches to secular desegregation African American Catholics were diverse and more active in the civil rights movement than has often been assumed While some black Catholics challenged racism in the Church many were conflicted about the manner of Catholic desegregation generally imposed by closing valued black institutions Tracing its impact through the early 1990s Newman reveals how desegregation shook congregations but seldom brought about genuine integration

The Episcopal Church in Crisis Frank G. Kirkpatrick, 2008-06-30 The current debate in the Episcopal Church in the United States ECUSA over its relationship with the worldwide Anglican Communion has been building for some time Some Episcopalians including priests bishops and dioceses have broken or are considering breaking their historic affiliation with the current authoritative bodies of ECUSA because they believe they have betrayed the historic teachings and morality of the Anglican tradition The author places this emerging crisis in context historical moral theological cultural and ecclesiological He explores how the rift between Episcopalians in the United States originated how it is being played out now in the rift between the official representatives of ECUSA and the Anglican Communion what the arguments are for and against all sides and what are the prospects for either reconciliation at some level between the opposing parties or deepening schism in the future Kirkpatrick explores the variety of contentious issues rather than focusing just on the one that gets the most media attention homosexuality The crisis in the Church goes much deeper than that however and involves issues of church tradition and biblical authority The author provides necessary background but focuses primarily on the events that have occurred since 2003 when ECUSA approved the election and consecration of an openly gay bishop While the situation continues to evolve and change the book provides readers with an up to date account of the history of the crisis an analysis of the conflicting arguments and a contextual guide for understanding what might come next in this unfolding story
