The Equilibrist:

The Equilibrist Robert Buffington, 1967 **Collected Poems** Donald Davie, 1991-05-28 Donald Davie's poems are here arranged chronologically from the 1950s to the beginning of the 1990s. Taken together, the poems display that reverence for the distinctive qualities of the English language which has earned him a name as one of Britain's finest living poets. Davie's voice judgemental, ironic, epigrammatic, humorous, self-lacerating, speaks always with reference to an unhuman perpendicular standard that itself goes unquestioned. It is not a standard of Beauty or Truth. Davie is a poet of the third member of the Platonic triad. Justice. Helen Vendler, *The New Yorker*. Davie's poems are on the quiet side, often casual and musing in mood and tone, determined to resist large gestures of assent or denial. Donald Davie may just be the best English poet-critic of our time. William Pritchard, *The New Republic*. Donald Davie's *Collected Poems* does more than mark the culmination of one of the most distinguished careers in post-war British poetry; it is the autobiographical journey of a living poet at the height of his creative powers and the mastery of his craft. Davie is considered the most important and valuable contemporary link between poetry in England and America. Sarah E. McNeil, *Little Rock Free Press*. *360° Circus* Franziska Trapp, 2023-06-01 This collection aims to map a diversity of approaches to the artform by creating a 360° view on the circus. The three sections of the book: Aesthetics, Practice, Culture, approach aesthetic developments, issues of artistic practice, and the circus role within society. This book consists of a collection of articles from renowned circus researchers, junior researchers, and artists. It also provides the core statements and discussions of the conference UpSideDown Circus and Space in a graphic recording format. Hence, it allows a clear entry into the field of circus research and emphasizes the diversity of approaches that are well balanced between theoretical and artistic points of view. This book will be of great interest to students and scholars of circus studies, emerging disciples of circus and performance. **The Popular Encyclopedia**, 1841 *The Myth of 1648* Benno Teschke, 2020-05-05 Winner of the 2003 Isaac and Tamara Deutscher Memorial Prize. This book rejects a commonplace of European history: that the treaties of Westphalia not only closed the Thirty Years War but also inaugurated a new international order driven by the interaction of territorial sovereign states. Benno Teschke, through this thorough and incisive critique, argues that this is not the case. Domestic social property relations shaped international relations in continental Europe down to 1789 and even beyond. The dynastic monarchies that ruled during this time differed from their medieval predecessors in degree and form of personalization but not in underlying dynamic. 1648, therefore, is a false caesura in the history of international relations. For real change, we must wait until relatively recent times and the development of modern states and true capitalism. In effect, it is not until governments are run impersonally with no function other than the exercise of its monopoly on violence that modern international relations are born. **Routledge Library Editions: The History of Social Welfare** Various, 2021-08-05 This set of 25 volumes, originally published between 1805 and 1992, amalgamates original nineteenth-century material and more recent research and analysis on the development of social welfare in Britain.

of the Philosophy of the Human Mind Dugald Stewart,1818 **Belgravia** ,1887 **The Personal and the Political (RLE Social Theory)** Paul Halmos,2014-08-21 Are human misery poverty and despair a result of personal inadequacy or social injustice Therefore is the solution to these problems psychotherapy or political action In one of the most important books on social work for a decade Paul Halmos tries to resolve a dilemma which many social workers experience acutely the conflict

between a desire to help those in need and a fear that by doing so they merely support a political system which should itself be changed Such a dilemma was highlighted during the sixties when casework and personal counselling became discredited by the rediscovery of widespread poverty and inequality in western society To many the only solution seemed to be urgent and radical political action For Professor Halmos the realities are more complex an exclusive preoccupation with either personal or political solutions is unlikely to prove fruitful what is needed is a dual sensitivity and balance Yet for the author it is the political solution which carries within it the greater risk and he warns of the dangers inherent in the total politicization of social concerns He argues that social action can become political action and ultimately political control **Scientific**
