Employee Well-being Support Andrew Kinder, Rick Hughes, Cary L. Cooper, 2008-04-30. Employees have a set of needs as part of the psychological contract of employment. However, organizations operate for a reason and they too have agendas and needs. The Past in the Present David Mann, 2008. *Love and Hate* David Mann, 2013-11-12. Love and hate seem to be the dominant emotions that make the world go round and are a central theme in psychotherapy. *Love and Hate* seeks to answer some important questions about these all-consuming passions. Many patients seeking psychotherapy feel unlovable or full of rage and hate. What is it that interferes with the capacity to experience love? This book explores the origins of love and hate from infancy and how they develop through the life cycle. It brings together contemporary views about clinical practice on how psychotherapists and analysts work with and think about love and hate in the transference and countertransference and explores how different schools of thought deal with the subject. David Mann together with an impressive array of international contributors represent a broad spectrum of psychoanalytic perspectives including Kleinian, Jungian, Independent Group and Lacanian psychotherapists, psychoanalysts and analytical psychologists. With emphasis on clinical illustration throughout, the writers show how different psychoanalytic schools think about and clinically work with the experience and passions of love and hate. It will be invaluable to practitioners and students of psychotherapy, psychoanalysis, analytical psychology and counselling.

Foundations of Psychotherapy Roger Horrocks, 2017-03-23. This book provides a comprehensive and clear survey of the major theoretical schools of psychotherapy including Freudian, Jungian, humanistic and cognitive. There is also some consideration of the impact of new discoveries in neuroscience upon psychotherapy and of the status of psychotherapy as a profession. The book also provides a concrete, detailed and hands-on introduction to working with clients with many vivid and helpful vignettes from actual sessions. Many practical issues are covered, including how the setting for therapy can become a safe and secure container, ways in which the therapist-client relationship can be used as an invaluable tool in therapy, how client negativity can be handled, methods for dealing with the difficult or disturbed client. The book also covers more controversial issues such as the authentic relationship, the role of the body in therapy and the therapist's own self-disclosure. This book is an essential
