The European Security and Defense Policy ,2002 *The European Security and Defense Policy* Robert E.

Hunter,2002-04-29 The emergence of the European Security and Defense Policy ESDP in the last two thirds of the 1990s and continuing into the new century has been a complex process intertwining politics economics national cultures and numerous institutions This book provides an essential background for understanding how security issues as between NATO and the European Union are being posed for the early part of the 21st century including the new circumstances following the terrorist attacks in New York and Washington on September 11 2001 This study should be of interest to those interested in the evolution of U S European relations especially in but not limited to the security field the development of institutional relationships and key choices that lie ahead in regard to these critical arrangements *Security, Defense Discourse and Identity in NATO and Europe* Falk Ostermann,2018-08-06 Analyzing changes in the role and place of NATO European integration and Franco American relations in foreign policy discourse under Presidents Jacques Chirac and Nicolas Sarkozy this book provides an original perspective on French foreign policy and its identity construction The book employs a novel research design for the analysis of foreign policies which can be used beyond the case of France by combining the discourse theory of the Essex School with Interpretive Policy Analysis to examine political ideas and how they are organized into a foreign policy identity On these grounds the volume undertakes a comparative analysis of parliamentary and executive discourse of President Chirac s failed attempt at NATO reintegration in the 1990s Sarkozy s successful attempt in the 2000s and the Libyan War Ostermann depicts French foreign policy and identity as turning away from the European Union atlanticizing and losing its American nemesis As a result France uses a much more pragmatic de unionized and pro American strategy to implement foreign policy objectives than before Offering a new and innovative explanation for a major change in French foreign policy and grand strategy this book will be of great interest to scholars of NATO European defense cooperation and foreign policy

The European Union in the Security of Europe Steve Marsh, Wyn Rees, 2012-03-12 This book examines the European Union's contribution to providing security in Europe amidst an increasingly complex and challenging environment In this new and comprehensive guide to the EU's role in security since the end of the Cold War the authors offer an explanation of EU internal and external security regimes and argue that the Union has become an important exporter of security within its region However the Union's rhetorical ambitions and commitments continue to outstrip its capabilities and it lacks both a common conceptualisation of security and a meaningful shared strategic culture Drawing extensively on primary sources the book examines the Union's relations with the US and Russia in a time of shifting geostrategic calculations and priorities With the EU capacity for enlargement slowing this text presents a detailed assessment of EU security policies towards Central Europe the Mediterranean the Western Balkans Eastern Europe and South Caucasus European Union Security will be of interest to students and scholars of the EU security studies and international relations

European Security Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and

the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it

Neoclassical realism in European politics Asle Toje, Barbara Kunz, 2024-07-30 Realism is making a comeback in Europe This book brings together a new generation of realist scholars It provides a rigorous survey for specialists seeking to understand the dynamics of international relations in a time of change The volume thus seeks to explore the European dimension to neoclassical realism The hope with this book is that it will spark a debate that in time might lead to the re emergence of a distinctly European realist school which draws on the roots of the historical non American realist tradition benefiting from insights in the liberal constructivist paradigm Through detailed case studies the book illustrates that power and influence remain fruitful even indispensable variables through which to understand the formation of foreign policy

Where is Nato Going? Martin Smith, 2013-09-13 Since the end of the Cold War and especially since September 11 2001 the future of NATO has been the subject of intense debate This book brings together a group of international relations specialists in order to offer fresh perspectives on the Alliance s current and future purposes and roles Rather than revisiting long standing debates in areas such as NATO enlargement the contributors focus instead on relevant contemporary issues These include the prospects for NATO going global NATO s role in the US led war on terror and the challenges posed by the transatlantic capabilities gap and the emergence of a military dimension to the European Union The paradox facing NATO today is that whilst it is busier than it has ever been before it still does not appear to many observers to have found a viable core role or roles in the contemporary international security arena By exploring key issues and debates on NATO s current agenda this book helps us to better understand the prospects for its long term survival and viability This book was previously published as a special issue of the leading journal Contemporary Security Policy

International Relations Dynamics in the 21st Century: Security, Conflicts, and Wars Özel Özcan, Merve Suna, 2024-12-02 The study of international relations

Europe's Role in Nation-Building James Dobbins, Seth G. Jones, Keith Crane, Christopher S. Chivvis, Andrew Radin, 2008-06-30 Two previous RAND volumes addressed the roles of the United States and the United Nations in nation building defined as the use of armed force in the aftermath of a conflict to promote a durable peace and representative government This volume presents six case studies of recent European led nation building missions Albania Sierra Leone Macedonia Côte d'Ivoire the Democratic Republic of the Congo and Bosnia It also reviews the Australian assistance mission to the Solomon Islands Using quantitative and qualitative measures to compare inputs such military levels economic assistance and duration and outcomes such as levels of security economic growth refugee return and democracy the analysis concludes that these European led missions have been competently managed and within their sometimes quite limited scope generally successful Most helped achieve sustained peace gross domestic product growth and representative government The EU has a wide array of civil competencies for nation building but it is sometimes slow to deploy them in support of its military operations particularly when these are conducted far from Europe The UN offers the most cost effective means to address most postconflict stabilization requirements and NATO the better framework for large scale force projection in cases in which the United States is ready to participate But the EU now offers European governments a viable alternative to both these organizations in cases in which European interests are high U S interests are low and the UN is for some reason unsuitable or unavailable

The Counterterror Coalitions Nora Bensahel, 2003-10-09 The long term success of the counterterror campaign will depend on concerted cooperation from European states but a key question is the extent to which that cooperation should be pursued through European multilateral institutions This study argues that the United States should pursue military and

intelligence cooperation on a bilateral basis and it should increasingly pursue financial and law enforcement cooperation on a multilateral basis The United States should adopt a nuanced strategy in its counterterror relations with Europe

Transaction Costs and Security Institutions M. Weiss, 2011-04-12 Examines international cooperation in European security from a transaction cost economics perspective This book addresses the puzzle of how to approach differing institutional preferences It argues that the reduction and limitation of transaction costs was the primary determinant of security preferences

The 'Community Method' R. Dehousse, 2011-04-28 Sixty years after its invention the operational system of the European Union remains little understood The Community Method provides a comprehensive empirical analysis of the functioning and achievements of the EU

The Path to European Defence Karl von Wogau, 2004 After the Internal Market and the Introduction of the Euro the European Union is making the decisive steps towards the next large project on the way to European unification which is European Defence The recent Iraqi crisis has shown that a common European foreign policy is more necessary than ever In spite of this shortfall there has been important progress The European crisis intervention force such as it was defined in Helsinki in 1999 has already been deployed successfully in two operations Still creating a European Defence is an ongoing process where Europe has to continue to improve its capabilities The direction that the European Union will have to take in the coming years is indicated by the European Convention which has proposed to create a European Minister of Foreign Affairs and a European Armaments Research and Military Capabilities Agency Within the European Parliament there is a large majority for the necessity of a European Defence This is demonstrated by the contributions of representatives of the four major political groups in this book It also corresponds with the preferences of public opinion The draft of a European Security Strategy presented by Javier Solana in June 2003 is a good step towards a European Foreign and Security Policy which will be able to guarantee the security of the European citizens and to defend the interests of the European Union in the world High ranking European personalities such as Javier Solana Guy Verhofstadt Erkki Liikanen and Philippe Busquin have made valuable contributions to this book The authors set out to identify where we stand on defence and what remains to be done to help Europe evolve in the changing global context of the 21st century

NATO 2.0 Sarwar A. Kashmeri, 2011 On September 5 2009 the commanding officer of NATO's German troops in Afghanistan ordered a U S Air Force fighter to destroy two fuel trucks hijacked by the Taliban Within hours he was being investigated by German prosecutors for the murder of innocent civilians collateral damage Under German law its forces can only be deployed for peacekeeping America might be at war in Afghanistan but Germany is not Germany is not the only country that sets strict conditions on its NATO troops Half of the allied forces in Afghanistan operate under restricted battlefield conditions Gen Dwight Eisenhower stormed the beaches of Normandy with an Allied army that followed his every command in Afghanistan military commanders must consult a checklist to figure out which allied soldiers can be sent into battle NATO today is a shadow of what it used to be the world's most formidable military alliance Its original reason for

existence the Soviet Union disintegrated years ago and its dreams of being a world cop are withering in the mountains of Afghanistan But eliminating NATO is not the answer argues Sarwar Kashmeri It is for Americans and Europeans still the safety net of last resort Kashmeri believes NATO s future usefulness depends on its ability to partner with CSDP Europe s increasingly successful security and defense establishment It is time for NATO 2 0 a new version of NATO to fit the realities of the twenty first century *Peace, Security and Defence Cooperation in Post-Brexit Europe* Cornelia-Adriana Baciuc, John Doyle, 2019-03-20 Highlighting the challenges and prospects of European security cooperation this volume examines the impact of Brexit on strategic aspects of security peace defence and foreign policy for both the European Union and the UK It applies theoretical and methodological approaches from international relations and security studies to analyse the causal mechanisms of security cooperation and covers topics including innovative security technologies defence procurement EU NATO relations new capabilities frameworks such as PESCO EDF and EII the role of French German military cooperation and the implications of Brexit for European deterrence or the Northern Ireland peace process The findings contribute to a better understanding and management of anticipated challenges and sources of instability in post Brexit Europe *Parameters*, 2002

The Handbook of European Defence Policies and Armed Forces Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe
