The Evolution Of Love:

The Evolution of Love Ada Lampert, 1997-09-16 Lampert presents the story of love when why and how love became a central experience of humans Assuming that our world is built of matter she states that evolution is the change of this matter according to the supreme criterion of success in offspring reproduction Love evolved because of its contribution to reproduction It first appeared in the mothers of mammals who used the body's proximity as a main adaptation Human love expands its borders to include the relationships between women and men friends and even nonhuman subjects Lampert describes motherhood as the source of the genetic hormonal brain and behavioral changes that we call love In the sexual stage love enters both as a way to select a partner and as a bonding force Sexuality is built upon ancient layers of early forms of life before humanity and includes strong elements of aggression which interrupt our ability to experience a peaceful sexual life Maternal love and sexual love combine in the evolution of the family Lampert also examines homosexual love as a way to look at the fascinating process of growing sexual identity and behavior in an individual Written in a style suited to any educated person Lampert uses current scientific knowledge on the brain hormones the nervous system ethology psychology and even modern physics to make her case This book will be of interest to students and scholars alike

The Evolution of Love Emil Lucka, 2020-11-17 Love is a theme which at all times and in all countries has been of primary interest to men and women and therefore this book which throws an illuminating ray of light in many a dark place still wrapped in mystery and silence not only impresses the psychologist but also fascinates the general reader with its wealth of interesting detail and charm of expression Ellie Schleussner In *The Evolution of Love* 1922 the Austrian Poet Philosopher Emil Lucka reveals his conception of the development of love and sex In his revolutionary presentation of ideas the author blends history psychology and philosophy to speculate that love is not a fundamental predisposition but evolved through historical changes There are three distinct stages of the development of love that Lucka explores in this important work Metaphysical Eroticism the first is the exploration of emotional climaxes and the sexual instinct Moving from prehistoric man through the ideals of Greek love and to the spread of Christianity he lays his foundation through the lens of history The second stage is Love which he again demonstrates its development through history specifically the birth of European civilization The third stage is the unity of sexual impulse and love the evolution of the spiritual love of man for woman based on personality Finally Lucka delves into erotic aberrations exploring perversities of sex and love through the progress of history In Lucka's conclusion he looks at the realm of the spirit in the context of Ernst Haeckel's biogenetic law With an eye catching new cover and professionally typeset manuscript this edition of *The Evolution of Love* is both modern and readable

Love-life in Nature Wilhelm Bölsche,1931 The Evolution of Love Douglas A. McWilliams,2016-10-31 The Evolution of Love makes the argument that we ve been mislead about what it means to love which has lead to heartbreak confusion and ultimately to fear love By incorporating science philosophy and psychology Mr McWilliams has upended the entire paradigm that love is about marriage and commitment The New Psychology of Love Robert J. Sternberg,Karin Sternberg,2018-11-08 This is a much needed development from the first edition that provides an update on the theory and research on love by world renowned scientific experts It explores love from a diverse range of standpoints social psychological evolutionary neuropsychological clinical cultural and even political It considers questions such as how men and women differ in their love what makes us susceptible to jealousy and envy in relationships how love differs across various cultures As the neuropsychological basis of love is examined this study showcases what attracts people to one another why love has developed the way it has over time and what evolutionary purpose it serves It also analyses why and when love relationships both succeed and fail which means readers will be rewarded with a better understanding of their own relationships and those of others as well as what can be done to build a lasting loving relationship *The Psychology of Romantic Love* Nathaniel Branden,2008-01-31 What love is why love is born why it sometimes grows and why it sometimes dies Have you ever wondered how romantic love evolves What the difference is between mature and immature love What role sex plays in romantic love and whether love necessarily implies sexual exclusivity And most important how can we make love last Originally published in 1980 this updated edition of The Psychology of Romantic Love explores the nature of romantic love on many levels the philosophical the historical the sociological and the physiological Nathaniel Branden explains why so many people say that romantic love is just not possible in today s world and drawing on his experience with thousands of couples finds that such love is still a possibility for anyone who understands its essence and is willing to accept its challenges

Branden sees it as a pathway not only to extraordinary joy but also to profound self discovery His vision of love is thoroughly appropriate to our time and grounded in our humanness
