Parker,2014-06-23 First published in 1996 This book summarises the Seminar held in Edinburgh in 1994 in the five hundredth year since the publication of Luca Pacioli s Summa de Arithmetica Geometria Proportioni et Proportionalita Its purpose is simple but relevant to every accountant It revisits some fundamentals that lay behind Pacioli s decision to write his Summa and examines whether the accounting framework in which we work today has overlooked basic issues because of its continued focus on development of the existing financial accounting model It analyses Pacioli s legacy from several different perspectives deliberately choosing to do so in ways that addressed considerations that his work reflected examining the nature and characteristics of the bridge between academic analysis and insight on the one hand and practical application on the other It also looks at the dominant influences in the evolution of accountancy for managing stewardship and for reporting of that stewardship By doing so it attempts to identify influences that had been less pressing and so had been ignored or overlooked and also considers how changing technology has affected the way we manage the accountancy process

Willa Cather and Modern Cultures Melissa J. Homestead,Guy J. Reynolds,2011-10-01 Linking Willa Cather to the modern or modernism still seems an eccentric proposition to some people Born in 1873 Cather felt tied to the past when she witnessed the emergence of twentieth century modern culture and the clean classical sentences in her fiction contrast starkly with the radically experimental prose of prominent modernists Nevertheless her representations of place in the modern world reveal Cather as a writer able to imagine a startling range of different cultures Divided into two sections the essays in Cather Studies Volume 9 examine Willa Cather as an author with an innovative receptivity to modern cultures and a powerful affinity with the visual and musical arts From the interplay between modern and antimodern in her representations of native culture to the music and visual arts that animated her imagination the essays are unified by an understanding of Cather as a writer of transition whose fiction meditates on the cultural movement from Victorianism into the twentieth century
