The Face Behind the Veil Donna Gehrke-White, 2007-02 Muslim American women in all their diversity are given the chance to tell their stories in their own voice by award winning journalist Donna Gehrke White The only book of its kind it tells in extraordinarily moving detail the lives of New Traditionalists who wear the veil though their forebears did not Blenders who do not wear the veil but consider themselves spiritual and Converts women from other religious backgrounds who have converted to Islam A rare revealing look into the hearts minds and lives of a misunderstood people Law and the Rule of God S. Ilesanmi, W. Lee, J. Parker, 2014-10-09 This book examines the competing regimes of law and religion an offers a multidisciplinary approach to demonstrate the global scope of their influence It argues that the tension between these two institutions results from their disagreements about the kinds of rule that should govern human life and society and from where they should be derived **Encyclopedia of Women in Today's World** Mary Zeiss Stange, Carol K. Oyster, Jane E. Sloan, 2011-02-23 This work includes 1000 entries covering the spectrum of defining women in the American Muslim Women, Religious Authority, and Activism Juliane Hammer, 2012-08-24 contemporary world Following the events of September 11 2001 American Muslims found themselves under unprecedented scrutiny Muslim communities in the United States suffered from negative representations of their religion but they also experienced increased interest in aspects of their faith and cultures They seized the opportunity to shape the intellectual contribution of American Muslims to contemporary Muslim thought as never before Muslim women in particular often assumed to be silenced oppressed members of their own communities challenged stereotypes through their writing seeking to express what it means to be a Muslim woman in America and carrying out intra Muslim debates about gender roles and women's participation in society Hammer looks at the work of significant female American Muslim writers scholars and activists using their writings as a lens for a larger discussion of Muslim intellectual production in America and beyond Centered on the controversial women led Friday prayer in March 2005 Hammer uses this event and its aftermath to address themes of faith community and public opinion Tracing the writings of American Muslim women since 1990 the author covers an extensive list of authors including Amina Wadud Leila Ahmed Asma Barlas Riffat Hassan Mohja Kahf Azizah al Hibri Asra Normani and Asma Gull Hasan Hammer deftly examines each author's writings demonstrating that the debates that concern American Muslim women are at the heart of modern Muslim debates worldwide While gender is the catalyst for Hammer's study her examination of these women s intellectual output touches on themes central to contemporary Islam authority tradition Islamic law justice and authenticity A History of Islam in America Kambiz GhaneaBassiri, 2010-04-19 Muslims began arriving in the New World long before the rise of the Atlantic slave trade Kambiz GhaneaBassiri's fascinating book traces the history of Muslims in the United States and their different waves of immigration and conversion across five centuries through colonial and antebellum America through world wars and civil rights struggles to the contemporary era The book tells the

often deeply moving stories of individual Muslims and their lives as immigrants and citizens within the broad context of the American religious experience showing how that experience has been integral to the evolution of American Muslim institutions and practices This is a unique and intelligent portrayal of a diverse religious community and its relationship with America It will serve as a strong antidote to the current politicized dichotomy between Islam and the West which has come to dominate the study of Muslims in America and further afield Between Islam and the American Dream Yuting Wang, 2013-11-26 Based on a three year ethnographic study of a steadily growing suburban Muslim immigrant congregation in Midwest America this book examines the micro processes through which a group of Muslim immigrants from diverse backgrounds negotiate multiple identities while seeking to become part of American society in the years following 9 11 The author looks into frictions conflicts and schisms within the community to debunk myths and provide a close up look at the experiences of ordinary immigrant Muslims in the United States Instead of treating Muslim immigrants as fundamentally different from others this book views Muslims as multidimensional individuals whose identities are defined by a number of basic social attributes including gender race social class and religiosity Each person portrayed in this ethnography is a complex individual whose hierarchy of identities is shaped by particular events and the larger social environment By focusing on a single congregation this study controls variables related to the particularity of place and presents a thick description of interactions within small groups This book argues that the frictions conflicts and schisms are necessary as much as inevitable in cultivating a composite culture within the American Muslim community marked by diversity leading it onto the path of **Unpopular Privacy** Anita Allen, 2011-11 Can the government stick us with privacy we don t want It can Americanization it does and according to this author may need to do more of it Privacy is a foundational good she argues a necessary tool in the liberty lover s kit for a successful life A nation committed to personal freedom must be prepared to mandate inalienable liberty promoting privacies for its people whether they eagerly embrace them or not The eight chapters of this book are reflections on public regulation of privacy at home isolation and confinement for punitive and health reasons religious modesty attire erotic nudity workplace and professional confidentiality racial privacy online transactions social networking and the collection use and storage of electronic data Most books about privacy law focus on rules designed to protect popular forms of privacy Popular privacy is the kind that people tend to want believe they have a right to and expect governments to secure Typical North Americans and Europeans embrace privacy for home life telephone calls e mail health records and financial transactions This unique book draws attention to unpopular privacy privacies disvalued or disliked by their intended beneficiaries and targets and the best reasons for imposing them Examples of unwanted physical and informational privacies with which contemporary Americans have already lived Start with laws designed to keep website operators from collecting personal information from children under 13 without parental consent the anti nudity laws that force strippers to wear pasties and thongs the Don t Ask Don t Tell rules that kept gays out of the US military and the myriad employee and

professional confidentiality rules including insider trading laws that require strict silence about matters whose disclosure could earn us small fortunes Conservative and progressive liberals agree that coercion and paternalism should be the exceptions rather than the rule Better to educate incentivize and nudge than to force But what if people continue to make self defeating bad choices What are the exceptional circumstances that warrant coercion and in particular coercing privacy When can government turn privacies into duties especially duties of self care Early modern societies went wrong imposing unequal conditions of forced modesty and confinement on women and others groups giving privacy and imposed privacies a bad rap But now may be a time for imposed privacies of another sort imposed privacies that are liberating rather than dominating A role for coercive and paternalistic regulation may be called for in view of the Great Privacy Give Away The public turns over vast amounts of personal information in exchange for the ease of online shopping browsing and social networking protected in some instances by little more than a pro forma privacy policy pasted on a home page The public uploads and stores information in the cloud and have become more and more dependent upon electronic telecommunications and personal archiving exposed to public and private surveillance Have they lost the taste for privacy Do they fail to understand the implications of what is happening This book offers insight into the ethical and political underpinnings of public policies mandating privacies that people may be indifferent to or despise Privacy institutions and practices play a role in sustaining the capable free agents presupposed by liberal democracy Physical sanctuaries and data protection by law confers and preserve opportunities for making and acting on choices Imposing privacy recognizes the extraordinary importance of dignity reputation confidential relationships and preserving social economic and political options throughout a lifetime Islam and Postcolonial Discourse Esra Mirze Santesso, James McClung, 2017-01-27 Largely though not exclusively as a legacy of the 2001 attack on the World Trade Center Islamic faith has become synonymous in many corners of the media and academia with violence which many believe to be its primary mode of expression The absence of a sophisticated recognition of the wide range of Islamic subjectivities within contemporary culture has created a void in which misinterpretations and hostilities thrive Responding to the growing importance of religion specifically Islam as a cultural signifier in the formation of a postcolonial self this multidisciplinary collection is organized around contested terms such as secularism Islamopolitics female identity and Islamophobia The overarching goal of the contributors is to facilitate a deeper understanding of the full range of experiences within Islam as well as the figure of the Muslim thus enabling a new set of questions about religion s role in shaping postcolonial identity **Religion and Sexuality** Pamela Dickey Young, Heather Shipley, Tracy J. Trothen, 2015-01-31 The relationship between religion and sexuality is often framed as inherently conflictual Religious groups and ideologies have long influenced the public regulation of sexuality and recent controversies include religious opposition to same sex marriage sex education in schools and non traditional expressions of sexual identity But what actually happens when religion and sexuality converge in contemporary contexts Religion and Sexuality challenges the

commonly held assumption that religion s relationship to sexuality is solely bound up with regulation In this provocative examination of both sexual and religious diversity chapters go beyond the familiar debates over tolerance and accommodation to explore the ways in which various forms of religious affiliation and sexual identity do in fact co exist Drawing on interviews and analyzing media representations legislation and public discourse on topics such as education economics and same sex marriage in North America and the United Kingdom this volume foregrounds the complexity and multiplicity of religious and sexual identities and practices Islamic Beliefs and Practices Matt Stefon Assistant Editor, Religion, 2009-12-20 Discusses various aspects of Islam covering topics such as the importance of the Prophet in the Muslim community the Qur an the Five Pillars holy days attitudes toward life and death law the various branches of Islam and other Cultural Competence Ronnie Linda Leavitt, 2010 Cultural Competence A Lifelong Journey to Cultural Proficiency provides a comprehensive theoretical and practical approach to increasing knowledge and awareness improving attitudes and providing the necessary skills for practicing cultural competence each day Dr Ronnie Leavitt along with a group of contributors with a range of backgrounds both in physical therapy and the social sciences provides an evidencebased text looking to explore practical applications in a wide array of settings Cultural Competence addresses cultural competence by discussing the special considerations one needs to learn about rather than specific population groups Also discussed is how different theorists describe cultural competence as well as methods of measuring cultural competence and government policies regarding cultural competence BOOK JACKET The Poetry of Darren Bresale Darren Bresale, 2013-05-06 This book is a tentative effort for Darren to come out of the shadows to share his feelings beliefs and ideas through his art and poetry with a much larger audience Much of the poetry in this collection was composed while incarcerated and while somewhat autobiographical it is reflective of not only some of his personal struggles but with the struggles of the downtrodden as well specifically the descendants of Africans and Native Americans Identifying with the underdog his poetry is both politically motivated and spiritually grounded in self improvement and while sometimes angrily provocative and controversial his poetry expresses love and hope towards a better future Gender Roles Linda L. Lindsey, 2015-10-14 Offers a sociological perspective of gender that can be applied to our lives Focusing on the most recent research and theory both in the U S and globally Gender Roles 6e provides an in depth survey and analysis of modern gender roles and issues from a sociological perspective The text integrates insights and research from other disciplines such as biology psychology anthropology and history to help build more robust theories of gender roles The Publishers Weekly ,2006 Choice .2007-03 Library Journal ,2006-04 U.S. News & World Report ,2007 New Books on Women and Feminism .2007 Soft Weapons Gillian Whitlock, 2010-02-15 Azar Nafisi's Reading Lolita in Tehran Marjane Satrapi's comics and Baghdad Blogger Salam Pax's Internet diary are just a few examples of the new face of autobiography in an age of migration globalization and terror But while autobiography and other genres of life writing can help us attend to people whose

experiences are frequently unseen and unheard life narratives can also be easily co opted into propaganda In Soft Weapons Gillian Whitlock explores the dynamism and ubiquity of contemporary life writing about the Middle East and shows how these works have been packaged promoted and enlisted in Western controversies Considering recent autoethnographies of Afghan women refugee testimony from Middle Eastern war zones Jean Sasson's bestsellers about the lives of Arab women Norma Khouri's fraudulent memoir Honor Lost personal accounts by journalists reporting the war in Iraq Satrapi's Persepolis Nafisi's book and Pax's blog Whitlock explores the contradictions and ambiguities in the rapid commodification of life memoirs Drawing from the fields of literary and cultural studies Soft Weapons will be essential reading for scholars of life writing and those interested in the exchange of literary culture between Islam and the West
