The Failure To Rescue:

Christopher Marlowe and the Failure to Unify Andrew Duxfield, 2016-03-03 In this sustained full length study of Marlowe's plays Andrew Duxfield argues that Marlovian drama exhibits a marked interest in unity and unification and that in doing so it engages with a discourse of anxiety over social discord that was prominent in the 1580s and 1590s In combination with the ambiguity of the plays he suggests this focus produces a tension that both heightens dramatic effect and facilitates a cynical response to contemporary evocations of and pleas for unity This book has three main aims Firstly it establishes that Marlowe's tragedies exhibit a profound interest in the process of reduction and the ideal of unity Duxfield shows this interest to manifest itself in different ways in each of the plays Secondly it identifies this interest in unity and unification as an engagement in a cultural discourse that was particularly prevalent in England during Marlowe's writing career during the late 1580s and early 1590s heightened inter confessional tension the threat and reality of foreign invasion and public puritan dissent in the form of the Marprelate controversy provoked considerable public anxiety about social discord Thirdly the book considers the plays focus on unity in relation to their marked ambiguity throughout all of the plays unifying ideals and reductive processes are consistently subject to renegotiation with or undercut entirely by the complexity and ambiguity of the dramas in which they feature Duxfield's focus on unity as a theme throughout the plays provides a new lens through which to examine the place of Marlowe's work in its cultural moment

Achieving Justice in the U.S. Healthcare System Arthur J. Dyck, 2019-07-05 This book focuses on justice and its demands in the way of providing people with medical care Building on recent insights on the nature of moral perceptions and motivations from the neurosciences it makes a case for the traditional medical ethic and examines its financial feasibility The book starts out by giving an account of the concept of justice and tracing it back to the practices and tenets of Hippocrates and his followers while taking into account findings from the neurosciences Next it considers whether the claim that it is just to limit medical care for everyone to some basic minimum is justifiable The book then addresses finances and expenditures of the US health care system and shows that the growth of expenditures and the percentage of the gross national product spent on health care make for an unsustainable trajectory In light of the question what should be changed the book suggests that overdiagnosis and medicalizing normal behavior lead to harmful costly and unnecessary interventions and are the result of unethical behavior on the part of the pharmaceutical industry and extensive ethical failures of the FDA The book ends with suggestions about what can be done to put the U S health care system on the path to sustainability better medical care and compliance with the demands of justice

Acute Management of Surgical Disease Martin D. Zielinski,Oscar Guillaumondegui,2022-09-15 Emergency General Surgery has become a cornerstone of Acute Care Surgery over the past decade Once the scope of community general

surgeons the growing complexity of patients with acute surgical diseases has increasingly driven their care to tertiary referral centers The aging population confounds this problem further as these patients present with more complex comorbidities life threatening physiology and progressively severe anatomic disease severity To ensure better outcomes the practice has evolved to focus on evidence based practice management guidelines in order to standardize care and optimize outcomes The purpose of this text is to be a comprehensive volume for patients with acute surgical diseases There will be three sections each comprised of multiple chapters The first section will be a comprehensive analysis of the background of Emergency General Surgery The goal of this section will be to provide the reader background into the acute surgical practice and to introduce the reader to the important concepts discussed in the remainder of the textbook The second section will be the largest and will discuss specific acute surgical diseases Individual chapters will outline the diagnostic approach current treatment standards operative approaches and expected outcomes with an emphasis on practice management guideline implementation into practice As acute surgical diseases and surgical critical care are integral to each other the last section will be Critical Care for the Acute Care Surgeon These topics will focus on the critical care concepts essential to surgeons who care for acute diseases This comprehensive text is targeted to any surgeon who takes emergency call for any of the listed diseases including community and referral general and vascular surgeons In addition this would be an excellent resource for all general surgery residents Lastly this would also serve as a resource to intensivists who care for acute surgical patients

Great Debates in Criminal Law Jonathan Herring, 2020-06-01 This textbook is an introduction to more advanced writings on criminal law primarily designed to allow students to think critically and analyse specific topics Each chapter is structured around key questions and debates that provoke deeper thought It asks questions such as Why do we have the laws that we have Could the criminal law look differently How should the law be applied to novel situations Does the law in fact reflect prejudices The aim of the book is not to present a complete overview of theoretical issues in criminal law but rather to illustrate the current debates among those working in shaping the area The text features summaries of the views of notable experts on key topics and each chapter ends with a list of guided further reading New to this Edition A new debate on the law on body modification Fresh discussion of the law on dishonesty Important new case law on causation Detailed discussion of developments on the law on accessory Significant developments on the law on sexual offences The Problem of Harm in World Politics Andrew Linklater, 2011-02-10 The need to control violent and non violent harm has been central to human existence since societies first emerged This book analyses the problem of harm in world politics which stems from the fact that societies require the power to harm in order to defend themselves from internal and external threats but must also control the capacity to harm so that people cannot kill injure humiliate or exploit others as they please Andrew Linklater analyses writings in moral and legal philosophy that define and classify forms of harm and discusses the ways in which different theories of international relations suggest the power to harm can be controlled so that societies can co exist

with the minimum of violent and non violent harm Linklater argues for new connections between the English School study of international society and Norbert Elias analysis of civilizing processes in order to advance the study of harm in world politics

Margin over Mission James Kelly, 2025-03-18 An ICU nurse reveals how private equity ownership leads to preventable deaths and negligence in hospitals In a country where health care is increasingly driven by profit Margin over Mission exposes the dire consequences of corporate ownership in hospitals James Kelly an ICU nurse with over two decades of experience narrates a gripping account of his final year at Lovelace Women s Hospital in Albuquerque New Mexico a year marred by preventable deaths administrative changes and the heartbreaking loss of a once mission driven institution to the clutches of Wall Street Kelly s poignant narrative takes readers on an emotional journey through the corridors of a hospital that once stood for community and care but became overshadowed by the relentless pursuit of profit Through detailed anecdotes and critical analysis Kelly reveals the stark reality of a health care system compromised by private equity where decisions prioritize profit margins over the mission of saving lives Kelly s unique perspective as an ICU nurse provides an insider s look into how private equity is wreaking havoc in hospitals around the country His story is also a powerful tribute to the countless health care workers who struggle to maintain their integrity and compassion in an increasingly inhumane system that prioritizes money over people

Political Obligations George Klosko, 2005-03-10 Providing a full defence of the theory of political obligation George Klosko presents arguments based on a number of key principles as well as commenting on popular attitudes and how the state views them

Terrorism and the State Tal Becker, 2006-03-23 Winner of the 2007 Paul Guggenheim Prize Today s terrorists possess unprecedented power but the State still plays a crucial role in the success or failure of their plans Terrorists count on governmental inaction toleration or support And citizens look to the State to protect them from the dangers that these terrorists pose But the rules of international law that regulate State responsibility for preventing terrorism were crafted for a different age They are open to abuse and poorly suited to hold States accountable for sponsoring or tolerating contemporary terrorist activity It is time that these rules were reconceived Tal Becker s incisive and ground breaking book analyses the law of State responsibility for non State violence and examines its relevance in a world coming to terms with the threat of catastrophic terrorism The book sets out the legal duties of States to prevent and

abstain from supporting terrorist activity and explores how to maximise State compliance with these obligations Drawing on a wealth of precedents and legal sources the book offers an innovative approach to regulating State responsibility for terrorism inspired by the principles and philosophy of causation In so doing it presents a new conceptual and legal framework for dealing with the complex interactions between State and non State actors that make terrorism possible and offers a way to harness international law to enhance human security in a post 9 11 world

Management of Peritoneal Metastases- Cytoreductive Surgery, HIPEC and Beyond Aditi Bhatt,2018-04-02 The widespread acceptance among the oncology community at large of cytoreductive surgery and HIPEC as a potentially curative treatment for peritoneal metastases has paved the way for innovative new therapies that could benefit a larger proportion of patients Much has been and continues to be published on this subject This book provides comprehensive reviews on the various aspects of managing peritoneal metastases The authors highlight essential practical issues that surgical oncologists encounter in their day to day practice and try to before provide evidence based answers to address them All chapters were written and or reviewed by leading experts in this field

Rediscovering the Law of Negligence Allan Beever,2007-05-30 Rediscovering the Law of Negligence offers a systematic and theoretical exploration of the law of negligence Its aim is to re establish the notion that thinking about the law ought to and can proceed on the basis of principle As such it is opposed to the prevalent modern view that the various aspects of the law are and must be based on individual policy decisions and that the task of the judge or commentator is to shape the law in terms of the relevant policies as she sees them The book then is an attempt to re establish the law of negligence as a body of law rather than as a branch of politics The book argues that the law of negligence is best understood in terms of a relatively small set of principles enunciated in a small number of leading cases It further argues that these principles are themselves best seen in terms of an aspect of morality called corrective justice which when applied to the most important aspects of the law of negligence reveals that the law even as it now exists possesses a far greater degree of conceptual unity than is commonly thought Using this method the author is able to examine familiar aspects of the law of negligence such as the standard of care the duty of care remoteness misfeasance economic loss negligent misrepresentation the liability of public bodies wrongful conception nervous shock the defences of contributory negligence voluntary assumption of risk and illegality causation and issues concerning proof to show that when the principles are applied and the idea of corrective justice is properly understood then the law appears both systematic and conceptually satisfactory The upshot is a rediscovery of the law of negligence
