The Fall Into Time:

Cioran - A Dionysiac with the voluptuousness of doubt Ion Dur, 2019-05-31 Since its inception philosophical thought has been fixated by death Death as much as life has been the unrelenting driving force behind some of history's greatest thinkers Yet for Emil Cioran a Romanian French philosopher even philosophy cannot attempt to understand nor contain the inevitable unknown Considered to be an anti philosopher Cioran approached and reflected on the human experience with a despairing pessimism His works are characterised by a brooding fatalistic temperament that reveals and defines itself in his irony black humour and inimitable style Although Cioran's later works have received much scholarly recognition little attention has been paid to the texts he wrote in his adolescent Grounded in the historical context of interwar Romania this book presents for the first time an analysis of the little known works of this pioneering Romanian thinker Deeply affected by his upbringing this book offers a glimpse into Cioran's first attempts to delve into philosophical enterprise before turning its attention to his later works *On the Heights of Despair* 1934 *The Transfiguration of Romania* 1936 and *Twilight of thoughts* 1940 written in France Using both the French and Romanian editions of these works but also their original manuscripts this volume seeks to provide a re-reading that takes language rather than a social or political critique as its focal point As an important and provocative contribution to the existing literature on Cioran this book will be an essential point of reference for students and researchers alike

Alchymy Hermann Beckh, 2019-10-23 As a practising Christian priest Hermann Beckh was profoundly aware that the mystery of substance its transmutation in the cosmos and the human being was a mystical fact to be approached with the greatest reverence requiring at once ever deepening scholarship and meditation He viewed chemistry as a worthy but materialistic science devoid of spirit while the fullness of spiritual physical nature could be approached by what he preferred to call chymistry or alchymy thereby taking in millennia of spiritual tradition In consequence Beckh's *Alchymy The Mystery of the Material World* is not limited to the conventional workings of Western alchemy nor to what can be found in the Bible from Genesis to Revelation although he does unveil hidden riches there Neither should Beckh be considered only as a learned Professor with impeccable academic qualifications and European wide recognition Beckh writes about such topics as Isis the Golden Fleece traditional fairy stories and Wagner's Parsifal in a way that enables the reader to catch glimpses of the Mystery of Substance to share the writer's authentic experience of the divine substantia the living reality of Christ in the world Beckh's *Alchymy* set an entirely new standard and went on to become his most popular publication This is the first time that it has been translated into English along with updated footnotes making his ideas and insights accessible to a wide readership In addition this edition features translations of Beckh's *The New Jerusalem* where theology could best be expressed in verse his exemplary essay on Snow White observations on Allerleirauh and a substantial excerpt from Gundhild Kaer Bock's biography of Beckh

The Best of Times Wyn Wachhorst, 2016-01-06 Old time radio the folk revival the golden age of science fiction steam railroads baseball the Western and other genres color our images of the

1950s But contrary to the countercultural myth that America during this period was a sterile soulless society culturally and intellectually empty it was an introspective era of innovation and creativity the seedtime of the sixties the harbinger of which was the urban folk revival The Best of Times presents a collection of essays each followed by a related memoir focusing on postwar popular culture exploring topics that mark the era but are also nostalgic in themselves the comforting continuity of long running radio shows train whistles that brought the sweet sorrow of distance to small town nights lazy summers of baseball endless stretches of unknown lands to the West that once compelled the imagination the heroes and vagabonds of folksong who roamed a simpler world and dreams of alien civilizations on neighboring planets deepened by the dawning reality of spaceflight These pieces balance personal cultural and mythic nostalgia recalling author Wyn Wachhorst's youth the postwar era and its dreams of a fabled West or Norman Rockwell's small town America Blending history memoir imagery and analysis this collection of essays offers poetic reflections on the nature of nostalgia and postwar America **Kant's Dog** David E. Johnson, 2012-05-01 Situates Borges at the limit of philosophy and literature Forever Pursuing Genesis Leonard Mustazza, 1990 The title of this book Forever Pursuing Genesis derives from a statement that Vonnegut once made about the nature of the universe and humankind's place in it This study applies that statement to the narrative themes that Vonnegut has treated in his career **The Visible Human Project** Catherine Waldby, 2003-09-02 The Visible Human Project examines how the VHP provides visual access to every organ of the body viewable from every angle and capable of being manipulated to simulate living processes like respiration **The Fall into Ruin** Bronwyn Stuart, 2021-02-22 When her double life catches up with her she must use all of her wits to survive Craving freedom and adventure Rose Clairmont is far more interested in operating her secret smuggling activities at her father's estate than looking for a respectable husband So when a handsome man with ties to piracy stumbles over her during her debutante ball Rose congratulates herself on being ruined and expects to be sent home in disgrace until he agrees to marry her Forever besmirched by his father's pirate reputation Anthony Germaine wishes to uphold the law as a Bow Street Runner When he sneaks into a ball hoping to join he's tossed out and falls on a woman hiding in the garden Society is abuzz and Anthony despite his roots is a gentleman But when he visits her estate to court his bride to be he realizes there's more to Rose than meets the eye And she's in danger Suddenly playing it safe no longer appeals and Anthony contemplates an adventure that will prove as dangerous to his life as it is to his heart **The Genesis of Genesis** Shlomo Giora Shoham, 2011-01-18 The Genesis of Genesis is about the mytho empiricism of creation cosmogony In its attempt to compare the mythologies of the ancient Eastern Mediterranean cultures Egyptian Greek Judaic and Mesopotamian the Judaic cosmogony of genesis which is unique in its reliance on the word as creative agent is contrasted with the Egyptian Greek and Mesopotamian mythologies which are more deterministic **Fichte: The System of Ethics** Johann Gottlieb Fichte, 2005-11-17 Fichte's System of Ethics published in 1798 is at once the most accessible presentation of its author's comprehensive philosophical project The Science of Knowledge or Wissenschaftslehre

and the most important work in moral philosophy written between Kant and Hegel Fichte's ethics integrates the discussion of our moral duties into the systematic framework of a transcendental theory of the human subject Its major philosophical themes include the practical nature of self consciousness the relation between reason and volition the essential role of the drives in human willing the possibility of changing the natural world the reality of one's own body the reality of other human beings and the practical necessity of social relations between human beings This volume offers a translation of the work together with an introduction that sets it in its philosophical and historical contexts

Platonic Mysticism Arthur Versluis, 2017-08-16 Restores the Platonic history and context of mysticism and shows how it helps us understand more deeply the humanities as a whole from philosophy and literature to art In *Platonic Mysticism* Arthur Versluis clearly and tautly argues that mysticism must be properly understood as belonging to the great tradition of Platonism He demonstrates how mysticism was historically understood in Western philosophical and religious traditions and emphatically rejects externalist approaches to esoteric religion Instead he develops a new theoretical critical model for understanding mystical literature and the humanities as a whole from philosophy and literature to art A sequel to his *Restoring Paradise* this is an audacious book that places Platonic mysticism in the context of contemporary cognitive and other approaches to the study of religion and presents an emerging model for the new field of contemplative science An important work on the mystical experience delving deep into its history particularly from the Platonic perspective An essential text for anyone interested in mysticism and its relationship to philosophy and creative expression Andrew Newberg author of *How Enlightenment Changes Your Brain* *The New Science of Transformation* The present work the latest from the pen of Arthur Versluis provides a trenchant learned and illuminating analysis of the origins of Western mysticism in the Platonist tradition relayed through such figures as Plotinus and Dionysius the Areopagite down through Meister Eckhart and others while suitably excoriating the attempts of certain modern philosophers and sociologists of religion to deconstruct it from a materialist perspective I found it a rattling good read John Dillon author of *The Heirs of Plato A Study of the Old Academy 347-274 BC*

Literary Translation, Reception, and Transfer Norbert Bachleitner, 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena they are based on similarities that are related to a form of travelling and imitation or adaptation of entire texts genres forms or contents Transfer comprises all sorts of travelling with translation as a major instrument of transferring literature across linguistic and cultural barriers Transfer aims at the process of communication starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture Reception lays its focus on the receiving culture especially on criticism reading and interpretation Translation therefore forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers Moreover translations are the prime instrument in the distribution of literature across linguistic and cultural borders thus they pave the way for gaining prestige in the world

of literature The thirty eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna They are ample proof that the field remains at the center of interest in Comparative Literature **The Literary Garland** ,1846 *The Sapient Cosmos* James Glattfelder,2025-03-25 Novel paradigms in physics and philosophy are uncovering radical new visions for the ultimate nature of reality and consciousness *Design Your Million-Dollar Business Formula: The Strategic Path to Wealth and Impact* Simon Schroth,2025-04-05 Creating a million dollar business doesn't happen by accident it requires strategy planning and consistent execution *Design Your Million Dollar Business Formula* is your roadmap to turning your business dreams into reality This book takes you through the entire process of building a business that not only generates significant revenue but also makes a meaningful impact You'll learn how to create a business model that scales develop a strategic plan that sets you on the path to seven figures and master the art of aligning your business goals with your personal vision With actionable steps expert insights and case studies from successful entrepreneurs this book provides a clear path to building a sustainable business that supports your financial freedom Whether you're just starting out or looking to take your existing business to the next level *Design Your Million Dollar Business Formula* provides the essential tools and strategies to achieve wealth success and lasting impact This is the blueprint for entrepreneurs who want to build a business that not only thrives financially but also makes a difference

About The Biggest, The Smallest, And Everything Else: Travelling Through The Universe With A Physicist Guide Serge L Parnovsky,2022-12-06 This is a popular science book on physics astronomy and related sciences designed for a wider audience It is written as a guide for a tour along the ladder of scales from the Universe as a whole to the microcosm The main scales are the Universe Solar System the Earth normal human size atoms and elementary particles Exotic objects such as black holes and neutron stars are also considered as well as the foundations of the scientific method its connection with philosophy and a story about how modern science arose This book contains many useful illustrations The basic concepts of physics are discussed forces fields quantum phenomena structure of matter phase transitions atoms molecules dark matter and dark energy And also galaxies supernova explosions the Sun planets exoplanets black holes neutron stars white dwarfs the possibility of space expansion of mankind The book also discusses phenomena like rainbow mirages lightning climate on Earth as well as practical applications like nuclear and thermonuclear reactors superconductivity and helium 3 mining on the Moon This book has included the latest results **Searching for Cioran** Ilinca Zarifopol-Johnston,2009-01-07 Ilinca Zarifopol-Johnston's critical biography of the Romanian born French philosopher E M Cioran focuses on his crucial formative years as a mystical revolutionary attracted to right wing nationalist politics in interwar Romania his writings of this period and his self imposed exile to France in 1937 This move led to his transformation into one of the most famous French moralists of the 20th century As an enthusiast of the anti rationalist philosophies widely popular in Europe during the first decades of the 20th century Cioran became an advocate of the fascistic Iron Guard In her quest to understand how Cioran

and other brilliant young intellectuals could have been attracted to such passionate national revival movements Zarifopol Johnston herself a Romanian emigr sought out the aging philosopher in Paris in the early 1990s and retraced his steps from his home village of Rasinari and youthful years in Sibiu through his student years in Bucharest and Berlin to his early residence in France Her portrait of Cioran is complemented by an engaging autobiographical account of her rediscovery of her own Romanian past The System of Antichrist Charles Upton,2005 The System of Antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little known traditionalist thinkers The book presents lore relating to the latter days of the present cycle from the vantage point of comparative religion drawing upon relevant doctrines from Buddhism Hinduism Judaism Christianity Islam Zoroastrianism and the Native American traditions It also speculates upon the social psychic and spiritual nature of that being known to Christianity Judaism and Islam as the Antichrist presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents and against the regime which will be and is the social expression of that seduction and that terror Finally in tracing the roots of Antichrist in the fallen nature of man the author sketches the particular quality of spirituality proper to apocalyptic times the dangers it faces the unique opportunities open to it And along the way he describes his own course from the spiritual revolution of the 1960s through the world of New Age spiritualities to the threshold of traditional esoterism and metaphysics As he says speaking of the angst that characterizes the modern world The specific medicine for the shock of despair is the deeper shock of meaning Nothing but the weight of eternity breaking through the thin brittle shell of the postmodern sky can set us on our feet **Assyria from the Earliest Times to the Fall of Nineveh** George Smith,2024-06-06 Reprint of the original first published in 1876
