introduction Every person in the world lives in society and those who are aware and use their brains will observe the society they are in and reflect on life Social observation and reflections on life are two essential aspects of being a person and dealing with life By observing society we understand it and learn how to serve society and obtain resources from it Through reflections on life we learn how to navigate life appropriately and cherish it These two aspects are interconnected The results of social observation deepen our reflections on life and the contents of our reflections on life also include insights from social observation The content of this book consists of some observations I have made about our society in my later years of life as well as some reflections on my own life It serves as a record and a self examination The general environment in which everyone finds themselves in society is quite similar but the specific circumstances and daily lifestyles vary Therefore my observations and reflections may have similarities and differences with those of the readers I hope that the similarities can be understood and appreciated by each other and the differences can serve as inspiration and motivation *Read*
