The Fall of the Towers Samuel R. Delany, 1976

After the Fall Richard Gray, 2011-05-06 After the Fall A common refrain heard since the collapse of the World Trade Center towers on September 11 2001 is that everything has changed After the Fall presents a timely and provocative examination of the impact and implications of 9 11 and the war on terror on American culture and literature Author Richard Gray widely regarded as the leading European scholar in American literature reveals the widespread belief among novelists dramatists and poets as well as the American public at large that in the post 9 11 world they are all somehow living after the fall He carefully considers how many writers faced with what they see as the end of their world have retreated into the seductive pieties of home hearth and family and how their works are informed by the equally seductive myth of American exceptionalism As a counterbalance Gray also discusses in depth the many writings that get it right transnational and genuinely crossbred works that resist the oppositional and simplistic us and them Christian and Muslim language that has dominated mainstream commentary These imaginative works Gray believes choose instead to respond to the heterogeneous character of the United States as well as its necessary positioning in a transnational context After the Fall offers illuminating insights into the relationships of such issues as nationalism trauma culture and literature during a time of profound crisis

City in the Sky James Glanz, Eric Lipton, 2003-11-12 Like David McCullough's The Great Bridge City in the Sky is a riveting story of New York City itself of architectural daring human frailty and a lost American icon

The Mystery of the Shemitah Jonathan Cahn, 2018 The Shemitah or Sabbath year is the seventh year of the seven year agricultural cycle mandated by the Torah for the land of Israel Understanding this pattern is essential for understanding the prophecy and mysteries of the Bible that are still applicable today

American Popular Culture in the Era of Terror Jesse Kavadlo, 2015-09-15 Bringing together the most popular genres of the 21st century this book argues that Americans have entered a new era of narrative dominated by the fear and wish fulfillment of the breakdown of authority and terror itself Bringing together disparate and popular genres of the 21st century American Popular Culture in the Era of Terror Falling Skies Dark Knights Rising and Collapsing Cultures argues that popular culture has been preoccupied by fantasies and narratives dominated by the anxiety and strangely the wish fulfillment that comes from the breakdowns of morality family law and order and storytelling itself From aging superheroes to young adult dystopias heroic killers to lustrous vampires the figures of our fiction film and television again and again reveal and revel in the imagery of terror Kavadlo's single author thesis driven book makes the case that many of the novels and films about September 11 2001 have been about much more than terrorism alone while popular stories that

may not seem related to September 11 are deeply connected to it The book examines New York novels written in response to September 11 along with the anti heroes of television and the resurgence of zombies and vampires in film and fiction to draw a correlation between Kavadlo s Era of Terror and the events of September 11 2001 Geared toward college students graduate students and academics interested in popular culture the book connects multiple topics to appeal to a wide audience

09/11 Catherine Morley,2016-08-25 The terrorist attacks on the twin towers of the World Trade Center on September 11th 2001 have had a profound impact on contemporary American literature and culture With chapters written by leading scholars 9 11 Topics in Contemporary North American Literature is a wide ranging guide to literary responses to the attacks and its aftermath The book covers the most widely studied texts from Don DeLillo s Falling Man Jonathan Safran Foer s Extremely Loud and Incredibly Close and Jonathan Franzen s Freedom to responses in contemporary American poetry and graphic narratives such as Art Spiegelman s In the Shadow of No Towers Including annotated guides to further reading this is an essential guide for students and readers of contemporary American literature

The Siege and the Fall of Constantinople in 1453 Marios Philippides,Walter K. Hanak,2017-05-02 This major study is a comprehensive scholarly work on a key moment in the history of Europe the fall of Constantinople to the Ottoman Turks in 1453 The result of years of research it presents all available sources along with critical evaluations of these narratives The authors have consulted texts in all relevant languages both those that remain only in manuscript and others that have been printed often in careless and inferior editions Attention is also given to folk history as it evolved over centuries producing prominent myths and folktales in Greek medieval Russian Italian and Turkish folklore Part I The Pen addresses the complex questions introduced by this myriad of original literature and secondary sources

Time and the Technosphere José Argüelles,2002-08-03 A groundbreaking study that distinguishes the natural time of the cosmos from artificial mechanistic time Reveals September 11 as the signal of the end of artificial time according to the Law of Time Long awaited sequel to the author s bestselling book The Mayan Factor Explains the Great Calendar Change of 2004 and its enormous potential for the future of humanity In Time and the Technosphere Jos Arg elles presents a groundbreaking study that distinguishes the natural time of the cosmos from the artificial mechanistic time under which we currently live Arg elles defines the actual nature of time as the frequency of synchronization Applying this Law of Time to an understanding of the entire system of life on Earth he shows that in order to not destroy Earth s ability to sustain life we must change our definition of time and adopt a natural harmonic calendar based on the 13 moon 28 day cycle Until the creation of the Gregorian calendar and the 60 minute hour most of humanity lived by the 28 day cycle of natural time The adoption of artificial time has subjected us to a 12 60 time frequency that governs the entire global industrialized civilization the technosphere With the collapse of the Twin Towers on September 11 a fissure was created in this artificial technosphere opening up the noosphere Earth s mental envelope Humanity has a golden opportunity to leave the strife of the past and enter a time of peace by adopting a harmonious natural calendar that

will repair the damages caused by the irregular tempo of technospheric time Our last best chance to adopt this natural time and step into the bright new future promised by the galactic shift of 2012 is the Great Calendar Change of 2004 a new discovery based on the author s mathematical research into the Mayan calendar first begun in his landmark work *The Mayan Factor In Time and the Technosphere* Arg elles reveals the clear distinction between third dimensional astronomical time and the fourth dimensional synchronic order of the Law of Time which holds enormous potential for the future of humanity
