contained in The Jesuit Relations and in the writings of Samuel de Champlain and Gabriel Sagard. This study of the Hurons who lived in the present province of Ontario, Canada, spans the period from 1615 to 1649 when they were defeated and dispersed by the Iroquois. Topics covered include dress, modes of travel, trade, war, sociopolitical organization, subsistence activities, and religious beliefs and practices. The book is invaluable for indicating the cultural similarities and differences between the Hurons and the neighboring Northern Iroquoian cultures and for documenting evidence of cultural change. This first paperback edition also includes a new introduction by the author in which she brings her work up to date by surveying developments in the study of the Huron ethnography between 1964 and the present.

The Language Encounter in the Americas, 1492-1800 Edward G. Gray, Norman Fiering, 2001-01-01

When Columbus arrived in the Americas there were it is believed as many as 2 000 distinct mutually unintelligible tongues spoken in the western hemisphere encompassing the entire area from the Arctic Circle to Tierra del Fuego. This astonishing fact has generally escaped the attention of historians in part because many of these indigenous languages have since become extinct. And yet the burden of overcoming America's language barriers was perhaps the one problem faced by all peoples of the New World in the early modern era. African slaves and Native Americans in the Lower Mississippi Valley, Jesuit missionaries and Huron speaking peoples in New France, Spanish conquistadors and the Aztec rulers. All of these groups confronted America's complex linguistic environment and all of them had to devise ways of transcending that environment, a problem that arose often with life or death implications. For the first time, historians, anthropologists, literature specialists, and linguists have come together to reflect in the fifteen original essays presented in this volume on the various modes of contact and communication that took place between the Europeans and the Natives. A particularly important aspect of this fascinating collection is the way it demonstrates the interactive nature of the encounter and how Native peoples found ways to shape and adapt imported systems of spoken and written communication to their own spiritual and material needs.
