Teaching Science with Hispanic ELLs in K-16 Classrooms Dennis W. Sunal, Cynthia S Sunal, Emmett L. Wright, 2010-04-01 The goal of this fourth volume of RISE was to provide a research foundation that demonstrates an agenda to strengthen the preparation and enhancement of teachers of science for regions and states experiencing extensive initial growth of Hispanic ELLs in schools The goal was carried out through a series of events that led to the planning and subsequent dissemination of research being conducted by various stakeholders throughout the United States Researchers were first invited from regions of the country that have had a long history of with Hispanic ELLs in classrooms as well as those regions where initial and now extensive growth has occurred only in the past few years A national conference Science Teacher Education for Hispanic English Language Learners in the

Southeast SHELLS funded through the National Science Foundation was used as one of the dissemination methods to establish and secure commitments from researchers to conduct and report research to strengthen teacher preparation for science. The national call for manuscripts requested the inclusion of major priorities and critical research areas, methodological concerns and concerns and results of implementation of teacher preparation and development programs.

Teaching and Learning Chinese as a Second or Foreign Language Ko-Yin Sung, 2019-10-23. *Teaching and Learning Chinese as a Second or Foreign Language* edited by Ko Yin Sung addresses three emerging themes in the field of Chinese language teaching and learning: 1. Increasingly ubiquitous in all language learning and teaching and for the learning of Chinese as a second language in particular, information and communication technology (ICT) can serve as an important and effective tool. Several chapters focus on how certain emerging ICT tools are applied in teaching and learning Chinese as a second language. 2. Due to China's economic and political influence, the number of students of all ages studying Chinese as a second language but especially young learners has increased in many parts of the world. Despite this, the research into teaching Chinese to young learners has lagged behind. Several chapters investigate young learners' motivations and effective methods for assisting them to master the Chinese language. 3. The writing system of the Chinese language poses many challenges for learners, especially those more familiar with alphabetical languages. In light of this difficulty in learning Chinese characters, some of the chapters identify effective teaching and learning strategies to master the Chinese language.

A Life in Linguistics Gabriela Alboiu, Daniela Isac, Alexandru Nicolae, 2022-01-01. Alexandra Cornilescu is an internationally renowned linguist whose pioneering ideas have been influential in developing generative grammar in Romania, Europe, and beyond. The weightiness of her contributions to the field is matched only by her talent for disseminating them. Ever since 1970, when she started teaching at the University of Bucharest, she has continuously played a tireless and inspirational role in the creation of several generations of linguists which the academic world has come to admiringly refer to as The Bucharest School. As the initiator of the AICED conference held annually in the English Department at the University of Bucharest, she has turned it into one of the leading platforms of generative linguistics in Europe. She has published extensively on Romanian and English linguistics and is also the founder and past editor of the journal *Bucharest Working Papers in Linguistics*. On the occasion of her 75th birthday, her friends, students, and colleagues celebrate Alexandra Cornilescu's work with this collection of essays on various topics of current theoretical interest.
