Gale,2010 Many of the novels analyzed in this study enjoyed mitigated success in France when they were first published and are all but forgotten today Societal conditions gave female writers secondary status and repressed the expression of subversive ideas regarding young women These novels mark the birth of French interest in the documentation and shaping of young female experience through literature Literary portrayals of the unique space of female adolescence reveal hopes and fears concerning the future gender relations social institutions and a country s place in the world **Working With Adolescents** Dr John Head,John Head,2002-01-04 This

work examines the way in which personality and identity of the pupil is shaped by his or her experiences in school The text considers the way in which teachers in secondary schools are working and to some extent living with adolescent pupils for the majority of time in their weekday waking lives The book examines to what extent teachers provide both positive and negative role models for pupils to follow the factors restricting the ability of teachers to teach effectively and conversely what factors work to their advantage The text provides an overview of the debates and research into areas of teaching children about controversial subjects such as sex and drugs gender differences identities peer groups relations with adults and beliefs and values **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70
