totem Rosalyn Greene's ability to shift both mentally and astrally combined with her extensive study of the secret shapeshifting folklore has resulted in this fascinating examination of all aspects and forms of shifting. This unique book helps you realize your potential for being a shapeshifter giving detailed explanations about how the various forms of shifting occur. She shows you how to distinguish powerful visions, anxiety attacks and imagination from real shifting as well as how to recognize the warning signs of an imminent shift. Since there can be dangers and risks on both the mundane and psychic levels when you pursue the path of a shifter, many of the potential dangers associated with specific practices are carefully outlined. Shapeshifting is a spiritual journey, a very tough one but very rewarding, linking us with both the fundamental power of animals and with the higher self. It has a purpose and reality far beyond simply using shifter abilities for earthly benefits; it can lead us through the unseen veil that separates us from our Selves. *The Essential Guide to Werewolf Literature* Brian J. Frost, 2003. In this fascinating book, Brian J. Frost presents the first full-scale survey of werewolf literature covering both fiction and nonfiction works. He identifies principal elements in the werewolf myth, considers various theories of the phenomenon of shapeshifting, surveys nonfiction books and traces the myth from its origins in ancient superstitions to its modern representations in fantasy and horror fiction. Frost's analysis encompasses fanciful medieval beliefs, popular works by Victorian authors, scholarly treatises and medical papers, and short stories from pulp magazines of the 1930s and 1940s. Revealing the complex nature of the werewolf phenomenon and its tremendous and continuing influence, *The Essential Guide to Werewolf Literature* is destined to become a standard reference on the subject. **The Mammoth Book of Best New**
