Purinton, Jennifer Skaggs, 2017-10-20 Across the globe American style and liberal arts universities are being established From the first the American University of Beirut established in 1866 to the liberal arts institutions being established in Saudi Arabia Ghana and elsewhere in the twenty first century there is a clear sense of the global desire for the American approach to higher education as a way of counteracting traditional more narrowly defined university educations However these

universities operate in a distinctive dynamic that must learn to bridge one culture with another and leadership of such institutions must by its nature focus on such complexities and tensions Throughout the chapters of this book this unique element of these universities will be better understood through the stories and experiences as presented by their presidents provosts and other academic leaders **The Software Encyclopedia 2000** Bowker Editorial Staff,2000-05
