evidence and illustrating how its social organisation developed in the period before we have extensive documentary evidence for the use of space within the house Nat Alcock and Dan Miles work on Medieval Peasant Houses in Midland England has been nominated for the 2014 Current Archaeology Research Project of the Year **Life in the English Country House** Mark Girouard, 1978-01-01 Based on the author's Slade lectures given at Oxford University in 1975-76 **The Late Medieval Interlude** Fiona S. Dunlop, 2007 Sensitive study of the 15-16 century interlude focussing on one of its major concerns the depiction of male aristocracy and the development to maturity The commercial theatre of the late sixteenth century is often credited with introducing its audiences to new modes of thought about the self society and the nation making them conscious that the self is performed as an actor performs a role Yet the earlier interlude drama originally performed in households and other institutions of the late fifteenth and sixteenth centuries indicates that the late medieval period was fully aware of the theatricality of identity This book argues that ideas of performance inform the concepts of aristocratic masculinity developed in the plays *Nature Fulgens* and *Lucretia* *The Worlde* and the *Chylde* *The Interlude of Youth* and *Calisto and Melebea* It examines how the depiction of young male aristocrats in these texts is shaped by ideas of male youth constituted in the middle ages and shows them as failing or succeeding to perform an adult noble masculinity in the aristocratic body and in aristocratic household The book also suggests ways in which the plays offer discreet praise and censure of the manner in which their noble patrons performed as aristocrats Throughout it brings out the subtle qualities of the interludes which the author shows have been unjustly neglected Dr FIONA S DUNLOP is Research Associate of the Centre for Medieval Studies University of York **Politics and the English Country House, 1688-1800** Joan Coutu, Jon Stobart, Peter N. Lindfield, 2023-02-15 Politics has always been at the heart of the English country house in its design and construction as well as in the activities and experiences of those who lived in and visited these places As Britain moved from an agrarian to an imperial economy over the course of the eighteenth century the home mirrored the social change experienced in the public sphere This collection focuses on the relationship between the country house and the mutable nature of British politics in the eighteenth century Essays explore the country house as a stage for politicking a vehicle for political advancement a symbol of party allegiance or political values and a setting for appropriate lifestyles Initially the exclusive purview of the landed aristocracy politics increasingly came to be played out in the open augmented by the emergence of career politicians usually untitled members of the patriciate and men of new money much of it created on Caribbean plantations or in the employ of the East India Company *Politics and the English Country House 1688-1800* reveals how during this period of profound change the country house remained a constant The country house was the definitive tangible manifestation of social standing and for the political class owning one became almost an imperative In its consideration of the country house as lived and spatial experience as an aesthetic and symbolic object and as an economic engine this book offers a new perspective on the complexity of political meaning embedded in the eighteenth century country

house and on ourselves as active recipients and interpreters of its various narratives more than two centuries later **A Medieval Manor House Rediscovered** Simon Flaherty, Phil Andrews, Matt Leivers, 2016-12-31 Excavations in advance of housing development at Longforth Farm Wellington revealed limited evidence for late prehistoric settlement but the principal discovery was the remains of a previously unknown high status medieval building complex This is thought to have been a manor house and though heavily robbed key elements identified include a hall solar with garderobe and service wing A forecourt lay to the north and a service yard with at least one ancillary building and a possible detached kitchen to the south To the east was a complex of pits enclosure and field ditches and a pond ere was a restricted range and number of medieval finds but together these suggest that occupation spanned the late 11th or 12th century to probably the 14th century There was a notable group of medieval floor tiles and roof furniture but documentary research has failed to identify the owners and any records relating specifically to this important building One possibility is that it belonged to the Provost of Wells cathedral and was perhaps abandoned in the 14th century when the Bishops may have established their court within the nearby and then relatively new market town of Wellington **Greater Medieval Houses of England and Wales, 1300-1500: Volume 1, Northern England** Anthony Emery, 1996-11-13 The first of a three volume survey of greater houses in England and Wales of the 14th and 15th centuries first published in 1996 **English Noblewomen in the Later Middle Ages** Jennifer Ward, 2014-01-14 This vivid and pioneering study illuminates the different roles played in late medieval society by noblewomen the most substantial group of women to survive as individuals in medieval documents They emerge despite limited political opportunities as figures of consequence themselves in a landowning society through estate management in their husbands frequent absences and through hospitality patronage and affinity *The Oxford Handbook of Later Medieval Archaeology in Britain* Christopher Gerrard, Alejandra Gutiérrez, 2018-01-11 The Middle Ages are all around us in Britain The Tower of London and the castles of Scotland and Wales are mainstays of cultural tourism and an inspiring cross section of later medieval finds can now be seen on display in museums across England Scotland and Wales Medieval institutions from Parliament and monarchy to universities are familiar to us and we come into contact with the later Middle Ages every day when we drive through a village or town look up at the castle on the hill visit a local church or wonder about the earthworks in the fields we see from the window of a train The Oxford Handbook of Later Medieval Archaeology in Britain provides an overview of the archaeology of the later Middle Ages in Britain between AD 1066 and 1550 61 entries divided into 10 thematic sections cover topics ranging from later medieval objects human remains archaeological science standing buildings and sites such as castles and monasteries to the well preserved relict landscapes which still survive This is a rich and exciting period of the past and most of what we have learnt about the material culture of our medieval past has been discovered in the past two generations This volume provides comprehensive coverage of the latest research and describes the major projects and concepts that are changing our understanding of our medieval heritage *Decoding Homes and Houses*

Julienne Hanson,2003-10-16 Exploration of the relationship between the design of housing and domestic routine *The Medieval English Landscape, 1000-1540* Graeme J. White,2012-11-08 A scholarly up to date and readable survey of the shaping of the medieval English landscape
