Separate But Equal? Tony Edwards, Carol Fitz-Gibbon, Frank Hardman, Roy Haywood, Nick Meagher, 2005-08-19 This book looks in detail at the strong contrasts in the provision traditionally made for academically and vocationally minded students and looks at differences and similarities in practice The chapters report evidence of how students on both sides think they have been taught They also report on how those students prefer to learn how their teachers define the kinds of learning appropriate for particular qualifications and how the organisation of learning for different but equal qualifications was observed in forty schools and colleges The book's main focus is on the objectives and processes of learning at a stage which is certainly being transformed but which is still powerfully shaped by myths about the sixth form and education of leaders

Case Studies In Educational Change David S.G Carter,2012-10-12 This text the second in a two volume set examining the process of educational reform describes case studies on the change process of education as it impacts on the individual at work The authors provide interesting comparisons of similar changes occurring within education in different national settings including Australia New Zealand

Israel the USA and the UK The case studies are based on three themes systematic change the transition from policy to practice and curriculum contexts The effects of governmental control over the curriculum and attempts to reform education by legislation are explained and the similarities are seen as marginalisation of professional educators corporatisation of education systems instrumentalisation of curriculum and the inability of those in power to draw from past knowledge on educational change Written to stand alone this book can also be read in conjunction with volume 1 International Perspectives on Educational Reform and Policy Implementation which examines the historical social and economic influences on education policy reform The authors argue that change takes a predictable format and once understood can be directed and managed The books are intended to be of interest to all involved in the planning and implementation of change together pointing the way to effective management of such change processes *Resources in Education* ,2000-10 *Excellence and Equality*
