Rowse,1966 **The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950** George Watson,I. R. Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *The English Catalogue of Books Published from January, 1835, to January, 1863 ,1864* **The Image of the English Gentleman in Twentieth-Century Literature** Dr Christine Berberich,2013-04-28 Studies of the English gentleman have tended to focus mainly on the nineteenth century encouraging the implicit assumption that this influential literary trope has less resonance for twentieth century literature and culture Christine Berberich challenges this notion by showing that the English gentleman has proven to be a remarkably adaptable and relevant ideal that continues to influence not only literature but other forms of representation including the media and advertising industries Focusing on Siegfried Sassoon Anthony Powell Evelyn Waugh and Kazuo Ishiguro whose presentations of the gentlemanly ideal are analysed in their specific cultural historical and sociological contexts Berberich pays particular attention to the role of nostalgia and its relationship to Englishness Though Englishness and by extension the English gentleman continue to be linked to depictions of England as the green and pleasant land of imagined bygone days Berberich counterbalances this perception by showing that the figure of the English gentleman is the medium through which these authors and many of their contemporaries critique the shifting mores of contemporary society Twentieth century depictions of the gentleman thus have much to tell us

about rapidly changing conceptions of national class and gender identity **The English National Character** Peter Mandler,2006-01-01 De geschiedenis van opvattingen over het nationale karakter van de Engelsen in de afgelopen twee eeuwen **Clarendon and the Rhetoric of Historical Form** Martine Watson Brownley,2016-11-11 Clarendon and the Rhetoric of Historical Form is the first major evaluation from a literary point of view of the writings of Edward Hyde the first Earl of Clarendon and the most important English historiographer of the seventeenth century As an early reformer in the Long Parliament as an adviser to Charles I and Charles II as the major architect of the Restoration on the Royalist side and as Lord Chancellor of England from 1660 to 1667 Clarendon played a crucial role in determining the course of English history during and after the tumultuous years of the civil wars As a historian and a literary stylist he produced the History of the Rebellion generally regarded as the greatest historical work written in England during the seventeenth century Martine Watson Brownley evaluates Clarendon s literary abilities and achievements focusing on his prose style narrative form and thematic structure on biographical influences on his writing and on his literary background and associations She also places Clarendon in the context of the development of English literary historiography during the seventeenth century Various political and literary changes for example the antiquarian movement the civil wars and alterations in English prose and narrative styles made the seventeenth century a particularly crucial era in the evolution of an English historiography that would lead to historical works which were also classics of literature Brownley demonstrates that through his experiments in style and structure in the History of the Rebellion and particularly through the imaginative overview which he evolved for and in his work Clarendon made the most significant advances in English literary historiography before the late eighteenth century triumvirate of Gibbon Robertson and Hume Clarendon and the Rhetoric of Historical Form will be valuable to scholars interested in historiography prose and narrative style and seventeenth century literature and history **British Historical Cinema** Claire Monk,Amy Sargeant,2015-01-28 Films recreating or addressing the past recent or distant actual or imagined have been a mainstay of British cinema since the silent era From Elizabeth to Carry On Up The Khyber and from the heritage film debate to issues of authenticity and questions of genre British Historical Cinema explores the ways in which British films have represented the past on screen the issues they raise and the debates they have provoked Discussing films from biopics to literary adaptations and from depictions of Britain s colonial past to the re imagining of recent decades in retro films such as Velvet Goldmine a range of contributors ask whose history is being represented from whose perspective and why Political Intellectuals and Public Identities in Britain Since 1850 Julia Stapleton,2001 Political intellectuals and public identities in Britain since 1850 will be of interest to scholars and advanced undergraduates in the fields of political thought and British intellectual and cultural history It will also be of interest to a wider community of writers and commentators on the politics of English and British national identity BOOK JACKET **A History of English Literature from Beowulf to 1926** William Vaughn Moody, Robert Morss Lovett,1926 Englishness M.
