## **The English The Countryside And Its People:**

**The English** Michael Watkins, 1981      **The English Rural Poor, 1850-1914 Vol 1** Mark Freeman, 2021-12-16

Drawing on the difficult to access pamphlets reports periodical literature and political tracts this five volume set reproduces in facsimile a large number of neglected sources relating to rural life in the latter half of the nineteenth century It is of interest to scholars in nineteenth century studies and to all social historians      Humphrey Jennings and British Documentary Film: A Re-assessment Philip C. Logan, 2016-05-13 Humphrey Jennings ranks amongst the greatest film makers of twentieth century Britain Although a relatively unknown figure to the wider public his war time documentaries are regarded by many including Lord Puttnam Lindsay Anderson and Mike Leigh as amongst the finest films of their time Groundbreaking both in terms of their technique and their interest in and respect for the everyday experiences of ordinary people these films are much more than mere government propaganda Instead Jennings work offers an unparalleled window into the British home front and the hopes fears and expectations of a nation fighting for its survival Yet until now Jennings has remained a shadowy figure with his life and work lacking the sustained scholarly investigation and reassessment they deserve As such film and social historians will welcome this new book which provides an up to date and thorough exploration of the relationships between Jennings life ideas and films Arguing that Jennings s film output can be viewed as part of a coherent intellectual exercise rather than just one aspect of the artistic interests of a wide ranging intellectual Philip Logan paints a much fuller and more convincing picture of the man than has previously been possible He shows for the first time exactly how Jennings s artistic expression was influenced by the fundamental intellectual social and cultural changes that shook British society during the first decades of the twentieth century Combining biography social history and international artistic thought the book offers a fascinating insight into Jennings his work the wider British documentary film movement and the interaction between art and propaganda Bringing together assessments of his tragically short life and his films this book is essential reading for anyone with an interest in British cinema or the social history of Britain in the 1930s and 40s

Books of Travel Urban T. Holmes (Jr.), 1927      **The character of English rural society** Henry French, Richard

Hoyle, 2013-07-19 This is a major study of the transformation of early modern English rural society It begins by assessing the three major debates about the character of English society the Brenner Debate the debate over English Individualism and the long running debate over the disappearance of the small landowner It then turns to the history of Earls Colne in Essex which has never before been the subject of a full length study despite it being one of the most discussed villages in England French and Hoyle s rounded account describes the arrival of a new landlord family the Harlakendens the tensions created by this change and the gradual atrophy of their power This account of change is backed up by a new and original analysis of landholding in the village which depicts the land market in unprecedented detail and explores the changing significance of landownership for ordinary people It is a key work for all those interested in how English rural society changed between the
