Armstrong, 2018-03-15 *The Challenge of Bewilderment* treats the epistemology of representation in major works by Henry

James Joseph Conrad and Ford Madox Ford attempting to explain how the novel turned away from its traditional concern with realistic representation and toward self consciousness about the relation between knowing and narration Paul B Armstrong here addresses the pivotal thematic experience of bewilderment an experience that challenges the reader s very sense of reality and that shows it to have no more certainty or stability than an interpretative construct Through readings of *The Sacred Fount* and *The Ambassadors* by James Lord Jim and *Nostromo* by Conrad and *The Good Soldier* and *Parade s End* by Ford Armstrong examines how each writer dramatizes his understanding of the act of knowing Armstrong demonstrates how the novelists attitudes toward the process of knowing inform experiments with representation through which they thematize the relation between the understanding of a fictional world and everyday habits of perception Finally he considers how these experiments with the strategies of narration produce a heightened awareness of the process of interpretation

Conrad, Language, and Narrative Michael Greaney,2001-11-15 In this re evaluation of the writings of Joseph Conrad Michael Greaney places language and narrative at the heart of his literary achievement A trilingual Polish expatriate Conrad brought a formidable linguistic self consciousness to the English novel tensions between speech and writing are the defining obsessions of his career He sought very early on to develop a writing of the voice based on oral or communal modes of

storytelling Greaney argues that the yarns of his nautical raconteur Marlow are the most challenging expression of this voice centred aesthetic But Conrad s suspicion that words are fundamentally untrustworthy is present in everything he wrote The political novels of his middle period represent a breakthrough from traditional storytelling into the writerly aesthetic of high modernism Greaney offers an examination of a wide range of Conrad s work which combines recent critical approaches to language in post structuralism with an impressive command of linguistic theory
