Kuniholm, 2014-07-10 What difference am I making with my life Niebhur, 1968 Whitney Kuniholm president of Scripture Union USA addresses this fundamental question through the lens of fifty brief reflections from the book of Acts The experiences of the first Christians show us that God has an essential mission for all of his people The Future of Christian Realism Dallas Gingles, Joshua Mauldin, Rebekah L. Miles, 2023-04-15 In the world s most developed democracies anxiety about the future of democracy is palpable. The tension between moral aspiration and moral despair has reached a point of crisis Christian realism arose during a similar time of crisis when Reinhold Niebuhr used the insights of the Christian tradition to interpret the clash between democracy and totalitarianism Beginning with Robin Lovin's account of Christian realism as a nuanced blend of theological moral and political realisms. The Future of Christian Realism addresses fundamental topics in theology ethics and politics The contributors come from different traditions span five continents and together present a case for the continuing relevance of Christian realism By paying close attention to many of the most pressing moral challenges facing societies today the authors illustrate and evaluate the enduring relevance of Christian realism The ^AGood Kill Marc LiVecche, 2021-06-01 The Good Kill addresses the crisis of moral injury among warfighters from the perspective of the just war tradition By providing a moral framework for enduring the heavy business of killing in combat Marc LiVecche offers potential remedies to help warfighters manage the effects of killing without becoming irreparably morally injured Liberalism in Dark Times Joshua L. Cherniss, 2023-02-21 Today liberals face a predicament how to defend liberal principles when adherence to them seems to constitute a fatal disadvantage

against unprincipled opponents The challenge is not new In the early years of the twentieth century liberalism was attacked by critics on both the right and especially the left for being hypocritical na ve irresponsible and impotent It couldn t for example anti liberalists thought address the acute inequality of imperial rule racial segregation and socio economic poverty These issues of social justice it was claimed by critics required a politics marked by an uncompromising commitment to ultimate ends and an unrelenting use of power Faced with such sentiments and the practical successes of anti liberal ideologies i e Fascism Nazism and Communism liberals felt pressure to silence their scruples and doubts and embrace the confidence ruthlessness and intransigence exhibited by their opponents But doing so seemed tantamount to abandoning liberal hopes for and commitments to human freedom and all they valued in the first place In Liberalism for Dark Times Cherniss tells the story of the liberal response to this challenge in the twentieth century Through a close study of five leading intellectuals engaged in these debates Max Weber Raymond Aron Albert Camus Reinhold Niebuhr and Isaiah Berlin Cherniss reconstructs a distinctive neglected strand of liberal thought This strand defines and defends liberalism as a political ethos a complex of dispositions temperament and sensibility and style which include skepticism openness to experience and careful discriminating judgment that shape how individuals make choices meet challenges understand and pursue possibilities and conduct themselves toward others in the course of political struggle In reconstructing the history of what he calls a tempered liberalism and formulating it as a distinctive political perspective Cherniss offers an alternative to the prevalent ways of thinking about both liberalism s history and the intellectual resources available to it today Martin Luther Kina Ir. and the Morality of Legal Practice Robert K. Vischer, 2013 Explores how Martin Luther King Jr built his advocacy on moral claims of love justice and human nature Christianity and Western Thought Alan G. Padgett, Steve Wilkens, 2009-08-28 Colin Brown s Christianity Western Thought Volume 1 From the Ancient World to the Age of Enlightenment was widely embraced as a text in philosophy and theology courses around the world His project was continued with the same spirit energy and design by Steve Wilkens and Alan Padgett in volume 2 which explores the main intellectual streams of the nineteenth century This the third and final volume also by Wilkens and Padgett examines philosophers ideas and movements in the twentieth century and how they have influenced Christian thought Making the Best of It John G. Stackhouse, 2011-10 What should be the Christian's attitude toward society When so much of our contemporary culture is at odds with Christian beliefs and mores it may seem that serious Christians now have only two choices transform society completely according to Christian values or retreat into the cloister of sectarian fellowship In Making the Best of It John Stackhouse offers a more balanced and fruitful alternative to these extremes He argues that rather than trying to root up the weeds in the cultural field or trying to shun them Christians should practice persistence in gardening God s world and building toward the New Jerusalem Religion and the Realist Tradition Jodok Troy, 2013-09-11 This volume picks up a rather uninvested field of international relations theory the influence of religion on Realism as well as the power of Realism to address religious issues in world politics

Although classical scholars of Realism rarely mention religion explicitly in their well known work this volume suggests that Realism offers serious ground for taking religion and faith into account as well as evaluating the impact of religion on its theoretical framework how religion and religious worldviews influence and affect the theoretical framework of Realism and how Realism approach religious issues in international relations as a relatively new field of international studies Although international relations scholars now widely deal with issues of religion large portions of the theoretical underpinning are missing In addressing this lack the volume illustrates the possibility of reform and change in Realism Furthermore the chapters reach out to normative statements The contributors offer a theoretical view on religion in international relations in the context of Realism but always connect this with actual real world related political problems The volume takes into account not only classical thinkers and approaches of Realism but also present day authors dealing with ethical and normative questions of international relations in the aftermath of 9 11 Offering a fresh perspective on the influence of religion on international relations theory this work will be of great interest to scholars of religion and international relations international relations theory and political philosophy Civil Religion, Human Rights and International Relations Helle Porsdam.2012-01-01 This ground breaking book discusses whether human rights can be forged into a common set of transcendent principles against which actions of every nation can be judged and whether such a common understanding or civil religion could one day become a vehicle for global peace Eminent international scholars of history political science international relations human rights and civil religion argue both sides of this debate In Part One the theoretical issues relating to why human rights have come about and whether they should be fought for are discussed Part Two focuses on the reality of actions brought about by human rights ideas with illuminating case studies showing that human rights ideas and practice are generated from both the bottom up and top down by individual actors and institutions The unique book will be of great interest to scholars in the field of history human rights international relations and political science in general The **Poetics of Grace: Christian Ethics as Theodicy** Jeph Holloway, 2013-04-09 What is God doing about a world marked by conflict and division What about a world in which our technologies promise great good but also threaten our existence What is God doing in a world where the demands for accumulation and acquisition create division and despair Can Christians hope to be of positive influence in a world that does not always support reflect or even understand Christian commitments Christian ethics often raises such questions as these and the possible answers vary widely Paul's Letter to the Ephesians is a tremendous resource for exploring a faithful response to perhaps the toughest question of all what is God doing about evil The role of Christian ethics is to take seriously the challenge that whatever God is doing God calls us to participate in a distinctive task that embraces our own commitments and labors within the divine purpose Ephesians says that God has taken the initiative to pursue that purpose and remarkably offers that we ourselves are part of the answer to the question what is God doing about evil **Practices, Politics, and Performance** Michael G. Cartwright, 2006-06-01 Drawing on the

hermeneutical reflections of John Howard Yoder Stanley Hauerwas and Mikhail Bakhtin Cartwright challenges the way twentieth century American Protestants have engaged the problem of the use of scripture in Christian ethics and issues a summons for a new debate oriented by a communal approach to hermeneutics By analyzing particular ecclesial practices that stand within living traditions of Christianity the politics of scriptural interpretation can be identified along with the criteria for what a good performance of scripture should be This approach to the use of scripture in Christian ethics is displayed in historical discussions of two Christian practices through which scripture is read ecclesiologically the Eastern Orthodox liturgical celebration of the Eucharist and the Anabaptist practice of binding and loosing or the rule of Christ When American Protestants consider performances of scripture such as these alongside one another within more ecumenical contexts they begin to confront the ecclesiological problem with their attempts to use the Bible in Christian ethics the relative absence of constitutive ecclesial practices in American Protestant congregations that can provide moral orientation for their interpretations of Christian scripture **Religious Violence Today** Michael Jerryson, 2020-07-15 Through sections containing overview essays and reference entries related to particular religions this resource explores the rise of religious violence hate crime and persecution around the world Religious violence and persecution have been growing steadily both within the United States and around the world Drawing on the expertise of a wide range of scholars this current and comprehensive reference helps readers understand the persecution of members of particular faiths as well as violence committed by members of those faiths In doing so it promotes a greater understanding of the role of religion in global politics domestic and international terrorism and religious bigotry. The book contains sections on particular religious traditions from around the world Each section begins with an overview essay surveying violence related to that particular religion whether committed by or against members of that faith Reference entries in each section then provide objective fundamental information about particular topics related to violence and the religion discussed The entries provide cross references and suggestions for further reading and the work closes with a bibliography of resources for further study The Goodness of God D. Stephen Long, 2008-01-01 Stephen Long opens his erudite discussion of theology and ethics with the insistence that moral critique must emerge from a particular location rather than from the fluid values of any neutral observer Long sets out to put theology and ethics as well as the church in proper relation to one another Ethics must be based in theology not the other way around Our finite participation in the infinite make possible participation in a goodness beyond us That goodness comes to us in the flesh of Jesus Christ and the church is indispensable in drawing all people toward God's goodness The church a social ethic in itself gives purpose and order to other social institutions including family government and the market The goodness of God such a simple phrase such a profound and maybe even distruptive concept if we dare explore its implications Not only does Steve Long lead us skilfully and smoothly through potentially difficult matters of theology and philosophy he also brings home how our lives might be different if we really took the goodness of God to heart From matters

of violence and economics to sexuality and family Long takes his readers through a thicket of competing ideas and leads them out the other side into greater clarity of vision unity of purpose and passion for God's good kingdom Seminaries and Sunday schools alike will benefit from this scholarly but accessible volume Michael Budde DePaul University D Stephen Long is assistant professor of theology at Garrett Evangelical Theological Seminary and codirector of the Center for Ethics and Values He is the author of Divine Economy a volume in Routledge's Radical Orthodoxy series **Hopeful Realism in Urban Ministry** Barry K. Morris, 2016-05-20 What pray tell does a faithful urban ministry require if not a triadic relationship of prayer justice and hope Could such a theologically conjunctive relationship of prayer justice and hope fortify urban ministry and challenge students and practitioners to ponder and practice beyond the box Frequently justice is collapsed to charity hope into wishful thinking or temporarily arrested despair and prayer a grasp at quick fix interventions An urban ministry's steadfast public and prophetic witness longs for the depth and width of this triad Via three countries decades of endeavors one chapter brainstorms urban ministry practices while another s literature survey signals crucial convictions Amid many seminal theologians are summoned to ground urban ministry intimations and implications Niebuhr on justice Moltmann on hope and Merton on contemplative prayer Evident is passion that fuels compassion in the service of justice hope that engages despair and prayer that draws from the contemplative center of it all thankful resources for long haul ministry. The triad presses to illumine a concrete ministry s engagement of relentless forced option issues yet with significant networks resourcing Contrast awareness animates endurance The summary exegetes the original grace based serenity prayer Hence hope vitally balances realism s temptation to cynicism Realism saves hope from irrelevancy Moral Theology, Volume 14, Issue 2 M.
