The European Court of Justice on the European Convention on Human Rights Elspeth Guild, Guillaume Lesieur, 2024-01-22 The place of the European Convention on Human Rights within the legal order of the European Union has been the subject of much controversy over the past twenty years It is now almost 25 years since the European Court of Justice in Luxembourg first referred specifically to the Human Rights Convention in one of its judgments Since then it has considered and commented on almost all of the substantive articles of the Human Rights

Convention in the context of European Community law For the first time these references to the European Convention on Human Rights by the European Court of Justice the Court of First Instance and the Advocates General of the two Courts have been brought together and published by reference to the substantive right under consideration This book presents extensive extracts from these cases permitting the reader to follow the development of the Court's thinking on each article of the European Convention on Human Rights It is an invaluable reference work for any practitioner academic lawyer or student working in the field either of human rights or European Community law who needs to look at the actual source material on the Court of Justice's handling of its Member States human rights obligations

The European Convention for the Protection of Human Rights Mireille Delmas-Marty, 1992 Court of Human Rights

The European Convention on Human Rights and General International Law Anne van Aaken, Iulia Motoc, 2018-10-03 The European Court of Human Rights is one of the main players in interpreting international human rights law where issues of general international law arise While developing its own jurisprudence for the protection of human rights in the European context it remains embedded in the developments of general international law However because the Court does not always follow general international law closely and develops its own doctrines which are in turn influential for national courts as well as other international courts and tribunals a feedback loop of influence occurs This book explores the interaction including the problems arising in the context of human rights between the European Convention on Human Rights and general international law It contributes to ongoing debates on the fragmentation and convergence of international law from the perspective of international judges as well as academics Some of the chapters suggest reconciling methods and convergence while others stress the danger of fragmentation The focus is on specific topics which have posed special problems namely sources interpretation jurisdiction state responsibility and immunity

Theory

and Practice of the European Convention on Human Rights Pieter van Dijk, Godefridus J. H. Hoof, G. J. H. Van Hoof, 1998-06-03 This is the third edition of Van Dijk and Van Hoof's classic work *Theory and Practice of the European Convention*. The developments which have taken place under the Convention since the second edition was published have been numerous and comprehensive and the Convention has gained a central position in the legal systems of many European countries. Three Protocols have been added to the Convention; the number of Parties to the Convention has grown from twenty-two to no less than thirty-six and the case law concerning the Convention has increased significantly. Like its predecessors, this third edition offers a full description of the present procedural practice and case law of both the European Commission and the European Court of Human Rights and is an indispensable guide. Protocol No 11 to the Convention which will enter into force by the end of 1998 will drastically change the supervisory system under the Convention, establishing one Court. This new Court will also perform the present functions of the Commission's procedures and working methods and by its case law concerning admissibility. This new edition will therefore remain relevant for the practice and case law of the new Court for many years to come.

Short Guide to the European Convention on Human Rights Donna Gomien, 2005-01-01 This third edition of the *Short Guide* which covers developments to the end of 2003 provides a concise overview of the basic rights guaranteed by the Council of Europe's Convention on Human Rights and the case law relating to these rights. The publication also details the procedures followed by the European Court of Human Rights when handling applications under the Convention and the role of the Committee of Ministers as a supervisory organ in giving force to the judgments of the Court.

Human Rights in Europe Arthur Henry Robertson, J. G. Merrills, 1993 Labour [A People's History of the European Court of Human Rights](#) Michael Goldhaber, 2007-04-10 The exceptionality of America's Supreme Court has long been conventional wisdom. But the United States Supreme Court is no longer the only one changing the landscape of public rights and values. Over the past thirty years the European Court of Human Rights has developed an ambitious American style body of law. Unheralded by the mass press, this obscure tribunal in Strasbourg, France, has become in many ways the Supreme Court of Europe. Michael Goldhaber introduces American audiences to the judicial arm of the Council of Europe, a group distinct from the European Union and much larger, whose mission is centered on interpreting the European Convention on Human Rights. The Council routinely confronts nations over their most culturally sensitive hot button issues. It has stared down France on the issue of Muslim immigration, Ireland on abortion, Greece on Greek Orthodoxy, Turkey on Kurdish separatism, Austria on Nazism, and Britain on gay rights and corporal punishment. And what is most extraordinary is that nations commonly comply. In the battle for the world's conscience, Goldhaber shows how the court in Strasbourg may be pulling ahead.
