*Defiled Trades and Social Outcasts* Kathy Stuart, 2000-05-04 This book presents a social and cultural history of dishonourable people *unehrliche Leute* an outcast group in early modern Germany Executioners skinners grave diggers shepherds barber surgeons millers linen weavers *sow gelders* latrine cleaners and bailiffs were among the dishonourable by virtue of their trades This dishonour was either hereditary often through several generations or it arose from ritual pollution whereby honourable citizens could become dishonourable by coming into casual contact with members of the outcast group The dishonourable milieu of the city of Augsburg from the sixteenth to the eighteenth centuries is reconstructed to show the extent to which dishonour determined the life chances and self identity of dishonourable people The book then investigates how honourable estates interacted with dishonourable people and how the pollution anxieties of early modern Germans structured social and political relations within honourable society

**The Art of Law** Stefan Huygebaert, Georges Martyn, Vanessa Paumen, Eric Bousmar, Xavier Rousseaux, 2018-09-27 The contributions to this volume were written by historians legal historians and art historians each using his or her own methods and sources but all concentrating on topics from the broad subject of historical legal iconography How have the concepts of law and justice been represented in public art from the Late Middle Ages onwards Justices and rulers had their courtrooms but also churches decorated with inspiring images At first the religious influence was enormous but starting with the Early Modern Era new symbols and allegories began appearing Throughout history art has been used to legitimise the act of judging but artists have also satirised the law and the lawyers architects and artisans have engaged in juridical and judicial projects and in some criminal cases convicts have even been sentenced to

produce works of art The book illustrates and contextualises the various interactions between law and justice on the one hand and their artistic representations in paintings statues drawings tapestries prints and books on the other **Witchcraft Persecutions in Bavaria** Wolfgang Behringer,2003-11-13 A groundbreaking study of witchcraft in modern day Bavaria between 1300 and 1800 Reynolds's Miscellany of Romance, General Literature, Science, and Art George William MacArthur Reynolds,1851 *A Cultural History of the Medieval Sword* Robert W. Jones,2023 This study takes the sword beyond its functional role as a tool for killing considering it as a cultural artifact and the broader meaning and significance it had to its bearer *The Memoirs of a Prague Executioner* Josef Svátek,2008 A young man is about to graduate from medical school when a sudden shift of fate changes his life forever He becomes stuck in the most detested profession for the rest of his life and he is on his way to becoming the most well known executioner in the history of Bohemia Master Jan finds himself in the center of the historical events of the time The religious and political turmoil of Bohemia culminates in the 1621 White Mountain Battle Czech Protestant rebels are defeated by Catholic forces and Master Jan is to execute 27 men who are his fellow Protestants The Old Town Executioner gives the reader a first hand account about how justice was carried out by the medieval law While his memoirs offer an intriguing account of the manners and values of late medieval society his observations about human nature may come as a surprise The law and society have changed since the 17th century but people have changed very little **Catalogue of Paintings by Artists of the Düsseldorf Academy of Fine Arts** Düsseldorf Gallery (New York, N.Y.),1855 **Art and War** Laura Brandon,2012-11-25 This is a truly encyclopedic survey of artists responses both official and personal to the horrors of war Art and War reveals the sheer diversity of artists portrayals of this most devastating aspect of the human condition from the heroic paintings of Benjamin West and John Singer Sargent to brutal and iconic works by artists from Goya to Picasso and the equally oppositional work of Leon Golub Nancy Spero and others who reacted with fury to the Vietnam War Laura Brandon pays particular attention to work produced in response to World War I and World War II as well as to more recent art and memorial work by artists as diverse as Barbara Kruger Alfredo Jarr and Maya Lin She looks finally to the reactions of contemporary artists such as Langlands and Bell to the US invasion in 2001 of Afghanistan and the War on Terror **Manet and the Execution of Maximilian** John Elderfield,2006 Manet and the Execution of Emperor Maximilian ISBN 0 87070 423 0 978 0 87070 423 9 Paperback 7 5 x 9 25 in 120 pgs 35 color and 45 b w U S 29 95 CDN 36 00 November Nonfiction and Criticism Attachment of Assets Lawrence W. Newman,2014-03-01 Practitioners from leading firms in over 90 countries provide practical information about procedural and substantive issues regarding attachment of assets Because the availability of attachments in advance of judgments can make the difference between success and failure in a lawsuit for money damages and because attachments may often be obtained in places far removed from the venues of proceedings on the merits it is important for litigation counsel to be aware of the potential for multi jurisdictional assaults on the assets of their clients or of their clients adversaries Attachment of

Assets is designed to give practical information and guidance to lawyers and businessmen who are interested in securing expected future judgments and in making strategic decisions concerning the deployment of moveable assets in the face of possible attachments of them. The chapters each discussing the requirements of a separate country are written by lawyers with practical expertise in this field. The procedure by which attachments are obtained vary ranging from court orders authorizing a court official to take custody of a defendant's assets to orders restraining the defendant from transferring his assets. The effects of such orders differ as well some create a lien superior to those of other creditors and others do no more than immobilize the debtor's assets leaving them open to being levied upon by later arriving judgment creditors. Countries vary in the ways in which they permit attachments to be carried out whether for example all of the banks in a given city may be served with attachment notices or orders. They vary as well with respect to the information that is imparted to the attaching creditor after attachment orders have been served. Some rules make available to creditor information concerning the value of assets on which they have successfully levied while others leave creditors in the dark or dependent on informal hints from garnishees as to whether or not pay dirt has been struck. Most importantly jurisdictional requirements for the issuance of attachment orders are not similar. Some countries permit attachments only if the defendant is subject to the jurisdiction of their courts with respect to the merits of the case. Others are less demanding permitting attachments solely on the basis and to the extent of the presence of the assets successfully attached. It is probably fair to say that in many foreign jurisdictions the protection of creditors through fraudulent conveyance laws and the like is inadequate or even as a practical matter unavailable. The enforcement of judgments is therefore often dependent on a creditor's ability to obtain early even prior to the commencement of a lawsuit a prejudgment attachment or the equivalent of his debtor's assets. The extent to which attachments are obtainable in various countries of the world and the basis under which they may be obtained under local law are the focus of Attachment of Assets Format of Publication. Organized in a uniform question and answer format that addresses the receptiveness of each country toward the attachment of assets the procedural requirements for filing for attachment reciprocity treaty provisions and defenses. Every Chapter is organized with the same special three part arrangement allowing you to quickly and easily locate the information you need for each country. Part I contains a survey of the current attitude of each country's courts and government toward the attachment of assets including anticipated changes and recent cases. Part II discusses procedure the judgment creditor must follow to file for the attachment of assets in the other country including translation of the judgment currency conversion attorneys fees and recovery of interest. Part III summarizes the requirements the judgment creditor must meet for attachment and the defense the judgment and the defenses the judgment debtor must establish to prevent attachment.
