## **The Experience Of No-self A Contemplative Journey:**

*The Experience of No-Self* Bernadette Roberts, 1993-03-26 Explores the journey beyond union beyond self and God into the silent and still regions of the Unknown      **The Experience of No-self** Bernadette Roberts, 1982 The author describes the contemplative experiences which led her to reach a new level of spiritual enlightenment and discusses the nature of the self and its relation to Christian teaching      **What Is Self?** Bernadette Roberts, 2005-01-15 The renowned contemporary mystic and author of *The Experience of No Self* presents her philosophical treatise on the nature of Self and God As a Carmelite nun Bernadette Roberts pursued a life in union with God She wrote compellingly about her contemplative spiritual journey in her memoirs *The Experience of No Self* and *The Path of No Self* Now she builds on the wisdom she gained exploring the ultimate consciousness that transcends self and experience In *What Is Self* Ms Roberts explains her conceptions of the ego the self and the revelations of the contemplative life Deeply personal and profoundly spiritual this latest effort puts all of Bernadette's insights into clearer and sharper perspective as though her own journey has grown clearer with distance      Journeys Into Emptiness Robert Jingen Gunn, 2000 *Journeys into Emptiness* traces the lives of three famous religious seekers and their quests for personal transcendence Dogen a thirteenth century Japanese Zen master experienced emptiness in wordless meditation the practice of zazen that spread in time from the Eastern world to the West Thomas Merton was a twentieth century Catholic monk whose experience of personal homelessness brought him to explore the tension that lies between solitude and community Carl Jung raised by a pious father and a psychologically unbalanced mother was driven to understand the structure of the psyche including the male and female elements that exist in every human person Robert Jingen Guinn provides wise and compassionate portraits of these emblematic figures Each of them in his own way had to experience emptiness going beyond consciousness to discover his own personal truth whether that was rooted in Buddha nature God or the unconscious This going beyond became a path to encountering their own unique selves and a deeper sense of life BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

*The Path to No-Self* Bernadette Roberts, 1991-01-01 This book shows how once we have adjusted to the unitive state the spiritual journey moves on to yet another more final ending In our major religious traditions the outstanding milestone in the spiritual journey is the permanent irreversible transcendence of the self center or ego The fact that a great deal has been written about the journey to this point means that many people have come this far But what we might ask comes next Looking ahead we see no path even in the literature there seems to be nothing beyond an abiding awareness of oneness with God Had this path been mapped in the literature then at least we would have known that one existed but where no such account exists we assume there is no path and that union of self and God is the final goal to be achieved The main purpose of *The Path to No Self* is to correct this assumption It verifies that a path beyond union does indeed exist that the eventual falling away of the unitive state happens as the culmination of a long experiential journey beyond the state The author shows

that a path exists between the transcendence of the ego self center which begins the unitive state and the later falling away of all self the true self which ends the unitive state As a first hand account The Path to No Self will be of interest to those with similar experiences or those searching for a better understanding of their own spiritual journey Since the journey is concerned with the effects of grace on human consciousness the book will be of interest to those psychologists concerned with the transformational process

**Quantum Physics and God** Manfred Bauer,2023-01-19 Quantum physics and the theory of relativity have shaken our conception of reality They have made us realize that the universe is not as we perceive it Religion and philosophy have so far failed to adapt our view of the world on the basis of these findings Thus together with the reader the author sets out to clarify the fundamental questions of life He skillfully juxtaposes convincing answers from different fields of knowledge Scientific chapters about the world of quantum objects space and time or the origin and evolution of the universe stand in stark contrast to chapters about scientifically unexplainable events such as miracles spiritualistic phenomena findings about life after death and reincarnation In addition the author discusses the atheistic worldview The scientific sections are easily understandable especially since they are to a large extent free of technical terms and formulas In the religious chapters the author draws parallels between ideas from all religions especially Hinduism Buddhism and Taoism and scientific findings Descriptions of the God experiences of spiritual masters from all times cultures and religions as well as personal anecdotes and stories imagined by the author provide manifold paradigm shifts in the detailed consideration of one and the same thing the ultimate reason of our existence and the meaning of life

**Pneumatology and the Christian-Buddhist Dialogue** Amos Yong,2012-07-26 This project at the interface of Buddhist Christian studies comparative theology and Christian systematic theology proceeds by way of exploring questions related to the presence and activity of the Holy Spirit in a 21st century world of many faiths

*Mystical Encounters with the Natural World* Paul Marshall,2005-07-07 Some experiences of the natural world bring a sense of unity knowledge self transcendence eternity light and love This is the first detailed study of these intriguing phenomena Paul Marshall explores the circumstances characteristics and after effects of this important but relatively neglected type of mystical experience and critiques explanations that range from the spiritual and metaphysical to the psychoanalytic contextual and neuropsychological The theorists discussed include R M Bucke Edward Carpenter W R Inge Evelyn Underhill Rudolf Otto Sigmund Freud Aldous Huxley R C Zaehner W T Stace Steven Katz and Robert Forman as well as contemporary neuroscientists The book makes a significant contribution to current debates about the nature of mystical experience

*Thomas Keating* Cynthia Bourgeault,2024-11-26 The first portrait of spiritual luminary Thomas Keating s remarkable evolution in the last decades of his life into a fully realized modern day Christian mystic In the first four decades of his life as a Trappist monk Thomas Keating created a comprehensive unified psychospiritual pathway leading from healing to holiness and from contemporary psychological wellness to classic mystical sanctity and beatitude As one of the key innovators of the

meditative practice of Centering Prayer he fashioned a powerful on ramp to the Christian contemplative tradition Yet as beloved author and Keating disciple Cynthia Bourgeault shows that was not the end of Keating s story his evolution as a spiritual thinker and mystic continued in ways few have explored in depth In this unique blend of biography personal experience and close reading of his late works Bourgeault illuminates Keating s remarkable spiritual development from the late 1980s until his death in 2018 She explores Keating s increasing engagement with nondual spiritual practice His contributions to interspiritual dialogue The evolution of his early teaching on the movement from false self to true self to that from true self to no self His final dark night of the spirit and passage through death New evidence that he never left Christianity but carried it with him to new places These profound final stages of Keating s spiritual journey demonstrate how readers might find their own way as modern mystics fundamentally at home and at peace in the universe Time To Tell Ronald Green,2018-11-30 Time seems to flash by when we are enjoying ourselves and slows to a crawl when we are bored Why Does time exist or is it an illusion Does it flow Is it linear How real are our memories When is now These are just some of the questions that Time To Tell asks in its foray into what time is for us what it does to us and for us and how we live and react to it in our daily lives Digging down to the roots of our lived experience in the world Time To Tell takes us through a journey replete with twists and turns and aha moments Challenging the obvious the book asks us to look anew at our perspective of what we naturally take for granted Rattling the comfort of instant satisfaction of reality shows celebrity worship and the self glorification of the I generation Ronald Green with panache and authority takes us on a journey that allows us a new way of looking at ourselves in the world and to act upon what we discover **Being**

**Prayer---Transforming Consciousness** Mary Rees,2006 Being Prayer offers timeless guidance a clear simple yet personal and challenging path for living fully in harmony and integrity with things just as they are It also provides rich resources for further study based on individual needs and interests Theology as Autobiography Colby Dickinson,2020-03-17

Autobiographical writings on faith frequently come from the lives of ordinary persons whose struggles with faith are often lived at the margins of the church academy and society Yet these voices have the potential to reshape the ways in which each of these fields function To find out what it means to stand before God with all of one s humanity on display is to engage in not only the act of confession but to demonstrate a bold theological reflection that needs to be more explicitly understood By turning to spiritual autobiographies as theological source texts we learn to place our emphasis where it matters most on the people whose lives of faith move us deeply and cause us to re examine our own lives in light of their witness Moving through a range of ancient early modern and contemporary spiritual writers in order to demonstrate a profound connection that unites them all this book portrays how a critical self examination of one s most personal internal fractures our poverty as it were is the only way to develop a life of faith the dual meaning of the word confession which expresses both a revealing of one s sins or brokenness and the articulation of what one believes Eternal Life and A Course in Miracles Jon

Mundy,2016-10-04 You do not live here We are trying to reach your real home We are trying to reach the place where you are truly welcome We are trying to reach God A Course in Miracles W 49 4 5 There is no bigger mystery nothing more compelling than the desire to know about life after life Jon Mundy the respected longtime teacher and interpreter of A Course in Miracles now investigates that enigma using insights from the Course on mortality death and the afterlife Mundy discusses facing death and learning to let go the ephemeral nature of the physical body and the eternal reality of the mind and the reawakening of our Spirit as the one true home It s a book filled with hope and a way to alleviate our fear of death

**On the Way** John K. LandrÃ©,2012-08 Personal growth is a slow process so slow that most people are unaware of the fact that fundamentally we do change several times during our lives On the Way is about these personal transformations It describes how growth of consciousness happens and how we can measure where we are in

our individual growth what comes next for us and why It illustrates how at all levels of development we can learn to guide our own growth Individual consciousness grows through five distinct phases The first is the consciousness of young children and of primitive adults Here people trust their instincts more than their feelings or their rational objectivity In the second phase of consciousness typical of the teenager feelings take precedence over instincts and objectivity This changes in the third phase when instincts and emotions become less than trustworthy and objectivity and rationality take over as the most reliable sources of awareness Yet there is a fourth phase of consciousness where even objective rational thinking no longer appears trustworthy Then intuition becomes the most reliable form of information This is the consciousness of the spiritual seeker To very few a sudden flash of insight happens resulting in a final fifth phase of consciousness Enlightenment The book consists of three parts The first is about how consciousness grows through the first three phases The second deals with the various paths of spiritual seekers And the third focuses on which spiritual practice can be expected to be most effective for whom

**A Story of a Changed Life** Julie Sarah Powell, 2012-10 In this refreshingly candid portrayal of her life Julie Sarah Powell shows us that anyone who is determined to live their innate freedom is fully and completely capable to do so Julie shares a brief history of her childhood and explains how she met her teacher Elysha She then goes on to describe how she had a revelation that moved her from the oneness awakened state of self realization into the no self state Julie speaks of the impact these changes had on her life and the relationships with those around her She opens up to explain details of her relationship with Elysha and the group at True Nature Centre and how she became a teacher within the Centre setting Her story is blunt truthful and gives hope and inspiration to those who are intent on unifying with their true purpose to live as one with life

**Quest for Silence** Harry A. Wilmer, 2000 What ever happened to silence Actually nothing and Harry Wilmer takes great pains to show how we have submerged it under a toxic barrage of noise Using both clinical examples of the power of silence from his case histories and cultural values of silence he uncovers a astonishing theme in the Japanese idea of MA as silence Wilmer points out how silence gives meaning to words dreams thought action and music From his long experience as a Jungian analyst he weaves his ideas into an eminently practical treatise on the phenomenology of silence With many references to literature as well as his personal life experiences and crises he offers a readable and important new story of the universal and spiritual significance of silence in a world of jackhammer noise
