The Exploration Of New Zealand:

Exploration New Zealand John Dobrée Pascoe, 1971 **Geology and Exploration of New Zealand Mineral Deposits** A. B. Christie, R. L. Brathwaite, 2006 **The New Zealand Official Year-book** New Zealand. Department of Statistics, 1963 New Zealand Journal of Geology and Geophysics, 1958-02 *New Zealand Investment Yearbook* Investment Research Group (IRG) Limited, 2015-03-12 The 40th Edition of the IRG Yearbook includes All New Zealand listed companies The top 76 Australian listed companies and 25 of the top world companies e g Louis Vuitton Apple Berkshire Hathaway and more The IRG Yearbook gives a summary of the companies their 5 year financials data and a 5 year graph of the performance with analyst consensus on High Median and Low prices **The Protection of the Underwater Cultural Heritage** Sarah Dromgoole, 2006-09-01 The legal protection of the underwater cultural heritage is a field in which there is growing international interest Shipwrecks and other underwater cultural remains in every maritime zone are threatened both by activities directed at them such as treasure hunting and by activities incidentally affecting them such as mineral exploration and exploitation pipeline and cable laying dredging and fishing Since the first edition of this collection published in 1999 the urgent need for an international legal framework to regulate these activities has been formally recognised by the adoption in 2001 of the UNESCO Convention on the Protection of the Underwater Cultural Heritage While the prospects for this Convention remain uncertain it will undoubtedly have a profound influence on national laws and practice in this field This second collection of essays examines the present state of law policy and practice in sixteen different jurisdictions around the world in light of the 2001 Convention Among other things the viewpoint of each jurisdiction in respect of the Convention is considered and the impact that the Convention is already having and is likely to have in the future is explored Eight of the essays are entirely new and several additional jurisdictions are covered Finland the Federated States of Micronesia the Netherlands New Zealand and Norway The other essays have been thoroughly updated and revised to take account of the Convention The contributors come from a variety of backgrounds but all have specialist knowledge and experience of their particular jurisdiction and a keen interest in the field **The Continental Shelf Beyond 200 Nautical Miles** Joanna Mossop, 2016-12-22 Under the United Nations Law of the Sea Convention States have sovereign rights over the resources of their continental shelf out to 200 nautical miles from the coast Where the physical shelf extends beyond 200 nautical miles States may exercise rights over those resources to the outer limits of the continental shelf More than 80 States may be entitled to claim sovereign rights over their continental shelf where it extends beyond 200 nautical miles from their coast and the Commission on the Limits of the Continental Shelf is currently examining many of these claims This book examines the nature of the rights and obligations of coastal States in this area with a particular focus on the options for regulating activities on the extended continental shelf Because the extended continental shelf lies below the high seas the area poses unique legal challenges for coastal States that are different from those faced in respect of the shelf within 200 nautical miles

In addition the United Nations Convention on the Law of the Sea imposes some specific obligations that coastal States must comply with in respect of the extended continental shelf The book discusses the development of the concept of the extended continental shelf It explores a range of issues facing the coastal State in regulating matters such as environmental protection fishing bioprospecting exploitation of non living resources and marine scientific research on the extended continental shelf The book proposes a framework for navigating the intersection between the high seas and the extended continental shelf and minimising the potential for conflict between flag and coastal States **Arawata Bill (4th edition)** Ian

Dougherty,2019-09-12 This is the story of a pioneering folk hero It is a colourful tale of adventure discovery and survival in the remotest areas of New Zealand s Southern Alps William James O Leary was a man of humble origins His lifetime 1865 1947 spanned a period of New Zealand history when the country was searching for homegrown heroes in whose lives the young nation could discover clues to the question of its identity The decades O Leary spent in the unforgiving mountain country of North West Otago and South Westland prospecting for gold and other minerals and making new tracks in unexplored areas was bound to be regarded with envy and admiration by townsfolk The myth making process was assisted when the nickname Arawata Bill stuck but it is the man s astonishing feats of endurance tenacity and charming eccentricity which capture the imagination Add in the mystery of a lost ruby mine a seaboot full of gold sovereigns and the aura of secrecy surrounding the quest for precious metal and you have the stuff of which legends are made Generations of New Zealand schoolchildren are familiar with Denis Glover s poem Arawata Bill yet the subject of that work was only loosely based on William O Leary The man himself in his solitary and self effacing way was both smaller and greater than the legend He emerged as one of those archetypal New Zealanders who helped to define a distinctive nationality In this fully revised and updated biography Ian Dougherty has separated the man from the myth with a warmly human portrait of an ordinary man who lived an extraordinary life *Travel & Exploration* ,1909 An illustrated monthly of travel exploration sport and
