Mess Night Traditions

Charles J. Gibowicz, 2007-09 This book is about the military Sea Service Mess Night the Sea Services consisting of the Navy Marines and Coast Guard Mess Nights are traditional time honored events going back to at least the 18th Century Formal military dining has historically been a way to communicate to celebrate special events and a way to promote unity and camaraderie The Mess Night although a military formation and a formal event is also a great deal of fun Some of today s protocol and script is not exactly matching the past Today s Mess Night is a bit more regimented and programmed but basically reflects all that was included in the old days and also reflects some of procedures used during the days of sail This book is written because there are no books on Mess Nights this is a first Like many Sea Service customs and traditions this custom has been handed down from generation to generation unwritten Scripts and instructions were not necessary as Mess dinners were common The British Navy can claim a continuous unbroken tradition and they are basically the providers of the American tradition They host Mess dinners much more frequently than the Americans do and the entire Navy traditionally celebrates the anniversary of the Battle of Trafalgar Americans have no set celebration and also have fewer Mess Nights Many officers are not even aware of Mess Nights This is because of several factors covered in the book Hopefully this book will stimulate greater interest in this important event As the alcohol rule for ships rule has been loosened it is particularly hopeful that shipboard Mess Nights can again become an event It would be most appropriate to celebrate the event for which the ship is named or to begin the tradition of celebrating Navy Day or other famous event such as those listed in this book

Industrial & Mining Standard, 1925 The Anglo-Portuguese Alliance and the English Merchants in Portugal 1654-1810 L.M.E. Shaw, 2017-07-05 The alliance made between Cromwell and John IV in 1654 cemented by the Articles of Marriage between Charles II and Catherine of Braganza in 1661 lasted for 156 years Together they provided a guarantee of Portugal's independence and formed a framework for an expansion of trade between England Portugal and its overseas possessions The Inquisition had ruined the New Christians Sephardic Jews who had been Portugal's principal middlemen enabling the English merchants to play a dominant role in that expansion once they had overcome their French and Dutch rivals They held that position until Pombal succeeded by 1770 in breaking the hold which foreigners had established over Portuguese commerce This book is the result of many years of research into

Elites João de Pina-Cabral, Antónia Pedroso de Lima, 2020-08-28 Wealth and power characterize elites yet despite the strong cultural influences they exert their study remains underdeveloped Partly because of complications resulting from

access scholars have tended to focus on groups affected by elite governance rather than on elites themselves It is often overlooked that in order to continue through time elites have to empower new members Choice has to be exercised over who achieves leadership both by reference to the elite group itself and to the wider group over which it holds power This book fills a gap in the current literature by providing the first rigorous interrogation of the choice and succession strategies of elites in various cultural contexts from the transmission and preservation of financial power in urban contexts to the complex relation between subjectivity and the transmission of leadership positions in places as varied as the United States Northern Italy and Lisbon Various elite succession types are discussed from self avowedly traditional leaders to the aristocracy where choice is practically non existent to situations where leaders are elected from among a group of peers The relationship between familial property and choice of successor in landholding families small business enterprises and peasant communities is also examined as are ethnic monopolies **Portuguese Architecture** Walter Crum Watson,1908

Religious Interactions in Europe and the Mediterranean World Katsumi Fukasawa,Benjamin J. Kaplan,Pierre-Yves Beaurepaire,2017-07-14 The religious histories of Christian and Muslim countries in Europe and Western Asia are often treated in isolation from one another This can lead to a limited and simplistic understanding of the international and interreligious interactions currently taking place This edited collection brings these national and religious narratives into conversation with each other helping readers to formulate a more sophisticated comprehension of the social and cultural factors involved in the tolerance and intolerance that has taken place in these areas and continues today Part One of this volume examines the history of relations between people of different Christian confessions in western and central Europe Part Two then looks at the relations between Western and Eastern Orthodox Christianity Islam and Judaism in the vast area that extends around the Mediterranean from the Iberian Peninsula to western Asia Each Part ends with a Conclusion that considers the wider implications of the preceding essays and points the way toward future research Bringing together scholars from Asia the Middle East Europe and America this volume embodies an international collaboration of unusual range Its comparative approach will be of interest to scholars of Religion and History particularly those with an emphasis on interreligious relations and religious tolerance
