June Z. Fullmer

Sir Humphry Davys Published Works

Raymond Lamont-Brown

Sir Humphry Davys Published Works:

Sir Humphry Davy's Published Works June Z. Fullmer, 1961 **The Collected Works of Sir Humphry Davy** Humphry Davy, Sir Humphry Davy, 1839 *Young Humphry Davy* June Z. Fullmer, 2000

Humphry Davy's contemporaries bestowed on him their highest honors. Since Davy's death in 1829, each scholarly generation has accrued info about him, his colleagues, his startling discoveries of the scientifically novel, his isolation/identification of 7 new elements, his association of electrical properties, chemical behavior, coupled with his fame as a lecturer, made him a popular cultural hero. Others saw him as the man who had made agriculture scientific. Davy's refusal to profit financially from his invention of the miners' safety lamp endeared him to those humanitarians who idealized scientists as members of an altruistic brotherhood. Here is a readable, thoroughly researched biography of Davy's early life. Illus **Humphry Davy: Life Beyond the Lamp** Raymond Lamont-Brown, 2004-05-13

Born in Penzance in 1778, Humphry Davy's scientific reputation grew with his pioneering discoveries of nitrous oxide, laughing gas, sodium, calcium, and the invention of the miners' Davy lamp. Yet as Lamont Brown shows, Davy was not just a scientific pioneer but a man with wide-ranging interests at the centre of London life. A founder member of the Geological Society and co-founder with Sir Stamford Raffles of London Zoo, Davy was also a poet of some ability, enjoying the respect and lively friendship of Southey, Coleridge, and Wordsworth among others. Eclectic and brilliant, one of his greatest contributions was, however, to communicate science to a wider public; he was a man for his own time and ours.

The Collected Works Of Sir Humphry Davy ... Charles Dickens, Sir Humphry Davy, 2019-04-11

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. Bibliography on the History of Chemistry and Chemical Technology. 17th to the 19th Century Valentin Wehefritz,2011-06-24 No detailed description available for Bibliography on the History of Chemistry and Chemical Technology 17th to the 19th Century The Collected Works of Sir Humphry Davy (etc.) Humphry Davy,1839

Romanticism and the Sciences Dr. Andrew Cunningham,Nicholas Jardine,1990-06-28 This book presents a series of essays which focus on the role of Romantic philosophy and ideology in the sciences *Routledge Library Editions: Romanticism* Various,2021-08-05 This set reissues 28 books on Romanticism originally published between 1940 and 2006 Routledge Library Editions Romanticism provides an outstanding collection of scholarship which explores not only Romantic literature but the Romantic Movement as a whole including art philosophy and science *Reader's Guide to the History of Science* Arne Hessenbruch,2013-12-16 The Reader s Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn **History of Shock Waves, Explosions and Impact** Peter O. K. Krehl,2008-09-24 This unique and encyclopedic reference work describes the evolution of the physics of modern shock wave and detonation from the earlier and classical percussion The history of this complex process is first reviewed in a general survey Subsequently the subject is treated in more detail and the book is richly illustrated in the form of a picture gallery This book is ideal for everyone professionally interested in shock wave phenomena

Science in the Romantic Era David Knight,2016-03-31 First published in 1998 The Romantic Era was a time when society religion and other beliefs and science were all in flux The idea that the universe was a great clock and that men were little clocks all built by a divine watchmaker was giving way to a more dynamic and pantheistic way of thinking A new language was invented for chemistry replacing metaphor with algebra and scientific illustration came to play the role of a visual language deeply involved with theory A scientific community came gradually into being as the 19th century wore on The papers which compose this book have appeared in a wide range of books and journals together with the new introduction they illuminate science and its context in the Romantic Era and follow its effects in the 19th century The Collected Works of Sir Humphry Davy Davy,1840 Public Understanding of Science David Knight,2006-10-16 Answering questions such as whether the interesting parts of science be conveyed in sermons poems pictures and journalism Knight explores the history of science to show how the successes and failures of our ancestors can help us understand the position science comes to

occupy now **Scientific and Medical Knowledge Production, 1796-1918** Rob Boddice, 2023-05-31 This volume showcases doubt from within the scientific community itself These sources dwell upon the moments at which ideas became challenged when facts were revealed to be fiction and when knowns reverted to unknowns But the focus is not the ideas and facts themselves but on the ways in which scientists adjusted themselves to new landscapes of uncertainty in their particular cultural and professional practices Science In The Making E. A. Davis, 1995-05-22 This text celebrates in four volumes the bicentenary of the Philosophical Magazine and chronicles the history of scientific development as chronicled in its pages Each volume previews a 50 year period and contains not only classical works but also papers of an amusing controversial nature Commentaries preceding each part set the pa **Makers of Nineteenth Century Culture** Justin Wintle Esq, Justin Wintle, 2021-12-24 This volume provides a critical examination of the lives and works of the leading novelists poets dramatists artists philosophers social thinkers mathematicians and scientists of the period The subjects are assessed in the light of their cultural importance and each entry is deliberately interpretative making this work both an essential reference tool and an engaging collection of essays Figures covered include Marx Wagner Darwin Malthus Balzac Jane Austen Nietzsche Babbage Edgar Allan Poe Ruskin Schleiermacher Herbert Spencer Harriet Martineau and Oscar Wilde **The Literary Gazette and Journal of Belles Lettres, Arts, Sciences, &c** , 1839 Science and Spirituality David Knight, 2023-04-14 Until the end of the eighteenth century almost everyone believed that the empirical world of science could produce evidence for a wise and loving God By the twenty first century this comforting certainty has almost vanished What caused such a cataclysmic change in attitudes to science and to the world Science and Spirituality offers a new history of the interaction between Western science and faith which explores their volatile connection and challenges the myth of their being locked in inevitable conflict Journeying from the French Revolution to the present day and taking in such figures as Francis Bacon Ren Descartes Charles Darwin Immanuel Kant Albert Einstein Mary Shelley and Stephen Hawking David Knight shows how science evolved from medieval and Renaissance forms of natural theology into the empirical discipline we know today Focusing on the overthrow of Church and State in revolutionary France and on the crucial nineteenth century period when a newly emerging scientific community rendered science culturally accessible Science and Spirituality shows how scientific disenchantment has provided some of our most flexible and powerful metaphors for God such as the hidden puppet master and the blind watchmaker and illustrates how questions of moral and spiritual value continue to intervene in scientific endeavour
