The Great Mathematicians of Bharat emerges as a seminal work aligning perfectly with the vision of the National Education Policy NEP 2020 which emphasizes the integration and appreciation of Indian Knowledge Systems IKS in contemporary education. This book meticulously documents the rich legacy of India's mathematical geniuses serving as a crucial resource in rekindling interest and respect for Bharat's profound mathematical traditions. It underscores the symbiotic relationship between cultural ethos and scientific inquiry, highlighting how Indian mathematicians not only contributed to the field of mathematics but also how their work was deeply interwoven with Hindu spiritual and cultural practices. By chronicling the journey from ancient sages to modern masters, the book provides a comprehensive view of the evolution of mathematical thought in Bharat, thus fulfilling NEP 2020's objective of integrating indigenous knowledge with modern academic frameworks. In doing so, it not only educates but also inspires, setting a precedent for future academic endeavours to explore and celebrate India's rich intellectual heritage.

 Poonia, 2021-08-07 Casteless India is an idea dreamt by the framers of our constitution As far fetched a dream it may seem
 the necessity of making caste an irrelevant denominator in the social economic and political life of India cannot be overstated
 Despite a number of reforms initiated by successive governments nationally and across states the overall efforts seem half
 hearted rudderless and often working at cross purposes with one another This book is an effort to find the basis of the caste
 system tracing it from its origin and dissecting its various facets so as to chart out a practical approach to uproot this social
 vice from our society The objective of the book is to give a feasible solution understanding the ground realities of the issue
 based on a broad consensus that may be favourably acceptable to all sections of the society in order to build a truly
 egalitarian society **Land and Literature in a Cosmopolitan Age** Vincent P. Pecora, 2020 This volume focuses on the

 reflektiert die Bezeugung da Interkulturelle Philosophie kein in sich geschlossenes Lehrgebäude ist und ein solches auch
 nicht werden kann sondern interkulturelles Philosophieren eine bestimmte Einstellung und eine Haltung darbietet die auf
 der grundlegenden Annahme beruht da die letzte philosophische Einsicht die Wahrheit im Singular von niemandem allein
 erlangt worden ist und auch nicht erlangt werden kann *The History of Experience* Wolfgang Leidhold, 2022-10-14 In a

The Garden of Reality Roland Faber, 2018-06-20 The Garden of Reality contemplates the relativity of religious truth religious pluralism transreligious discourse postmodern cosmology and multireligious mysticism Its transreligious approach aims at a future multireligious peaceful society in an ecological and cosmic context It proposes that the future of humanity is bound to conviviality with itself and the Earth that the deepest religious motivations of existing together are relative to one another and that transreligious relativity is essential to the conviction of religions that their motivations experiences and conceptualities are meaningful real and true By engaging diverse voices from poststructuralism to Sufism Dzogchen and philosophical Daoism from conceptual frameworks of Christianity and Hinduism to mystical and postmodern cosmology current cosmopolitanism and interreligious and interspiritual discourses but especially understudied contributions of process thought and the Bah religion this book suggests that multireligious conviviality must listen to the universal relevance of a multiplicity of minority voices Its polyphilic pluralism affirms the mutual immanence and co creative nature of religions and spiritualities with the universal in sistance of divine or ultimate reality in the cosmos Embracing a relativistic and evolutionary paradigm in an infinite cosmos of creative becoming religions must cope with events of novelty that disturb and connect transcend and contrast the continuum of their truth claims but must avoid conflict as religious diversity is enveloped by an ever folding landscape of ultimate reality
