Paul Cartledge, Fiona Rose Greenland

The Achilles Stone:

Stone by Stone Robert Thorson, 2009-05-26 There once may have been 250 000 miles of stone walls in America's Northeast stretching farther than the distance to the moon They took three billion man hours to build And even though most are crumbling today they contain a magnificent scientific and cultural story about the geothermal forces that formed their stones the tectonic movements that brought them to the surface the glacial tide that broke them apart the earth that held them for so long and about the humans who built them Stone walls layer time like Russian dolls their smallest elements reflecting the longest spans and Thorson urges us to study them for each stone has its own story Linking geological history to the early American experience Stone by Stone presents a fascinating picture of the land the Pilgrims settled allowing us to see and understand it with new eyes In the Company of Stone Dan Snow, 2007-01-01 Finding stone choosing it and letting go of it are the three things a waller does I'd miss any one of them too much if I asked someone else to do them for me I may work by myself but I'm not alone I'm in the company of stone Daniel Snow is a waller an artisan who builds walls terraces caverns and the occasional sphere or pool out of dry stone It's an ancient skill building with only what the earth provides No mortar no nails nothing to hold his creations together except gravity an invisible glue he can sense in the stones conversations of squeaks and rumbles A hollow sound means a void needs to be filled a solid fit is secured with the sound of a bolt being thrown Snow's evocative prose and Peter Mauss's richly textured photographs of Snow's work reveal the nuance and beauty of walling and of one man's relationship with nature The result is by turns poetic and practical *Stone's Plastic Surgery Facts: A Revision Guide, Fourth Edition* Tor Wo Chiu, 2018-10-26 Stone's Plastic Surgery Facts 4e provides a complete revision tool for the FRCS exit examination in plastic surgery Written in the form of notes and lists the full range of plastic surgery topics is covered as follows wound care burns head neck cleft lip and palate and craniofacial anomalies breast hand and upper limb lower limb skin and soft tissue tumours genitourinary and trunk aesthetic and general plastic surgery Updated article summaries and a review section in each chapter highlight important points and explain common misconceptions A vital resource for the surgical trainee **The Geology of the Whatatutu Subdivision, Raukumara Division, Poverty Bay** James Henry Adams, James Mackintosh Bell, James Park, Edward de Courcy Clarke, 1909 **The Geology of the Cromwell Subdivision, Western Otago Division** James Park, 1908 Bulletin, 1908 Conservation of Building and Decorative Stone John Ashurst, Francis G. Dimes, 1998 One of the problems which beset the conservation of stone buildings is the fragmentation of the disciplines involved This book brings these disciplines together by the involvement of contributors with different experiences approaches **Conservation of Building and Decorative Stone** F G Dimes, J. Ashurst, 2007-11-02 One of the problems which beset the practical conservation of stone buildings is the fragmentation of the disciplines involved This book with both volumes now available as one invaluable paperback brings these disciplines together by the involvement of contributors with different experiences and approaches to the same material Part one is an

introduction to the complexities and background history of stone conservation followed by the most comprehensive description yet produced of the building and decorative stones used in the British Isles In part two practitioners involved in stone conservation describe ways in which major structural masonry problems secondary building problems and different stone surface conditions may be treated A variety of building types and environments has been used to ensure that the broad scope of common problems is covered This second part of the book will be of practical value to art historians archaeologists architects surveyors and engineers masonry contractors and sculpture conservators in solving problems and in learning to use each other's skills and experience

Responses to Oliver

Stone's Alexander Paul Cartledge, Fiona Rose Greenland, 2010-01-20 The charismatic Alexander the Great of Macedon 356 323 B C E was one of the most successful military commanders in history conquering Asia Minor Egypt Persia central Asia and the lands beyond as far as Pakistan and India Alexander has been over the course of two millennia since his death at the age of thirty two the central figure in histories legends songs novels biographies and most recently films In 2004 director Oliver Stone's epic film Alexander generated a renewed interest in Alexander the Great and his companions surroundings and accomplishments but the critical response to the film offers a fascinating lesson in the contentious dialogue between historiography and modern entertainment This volume brings together an intriguing mix of leading scholars in Macedonian and Greek history Persian culture film studies classical literature and archaeology including some who were advisors for the film and includes an afterword by Oliver Stone discussing the challenges he faced in putting Alexander's life on the big screen The contributors scrutinize Stone's project from its inception and design to its production and reception considering such questions as Can a film about Alexander and similar figures from history be both entertaining and historically sound How do the goals of screenwriters and directors differ from those of historians How do Alexander's personal relationships with his mother Olympias his wife Roxane his lover Hephaistion and others affect modern perceptions of Alexander Several of the contributors also explore reasons behind the film's tepid response at the box office and subsequent controversies
