The Africans:

The Africans David Lamb, 2011-08-24 During the four years he spent in black Africa as the bureau chief for the Los Angeles Times David Lamb traveled through almost every country south of the Sahara logging more than 300 000 miles He talked to presidents and guerrilla leaders university professors and witch doctors He bounced from wars to coups oceans apart catching midnight flights to little known countries where supposedly decent people were doing unspeakable things to one another In the tradition of John Gunther's *Inside Africa* *The Africans* is an extraordinary combination of analysis and adventure Part travelogue part contemporary history it is a portrait of a continent that sometimes seems hell bent on destroying itself and of people who are as courageous as they are long suffering

Queen Elizabeth II and the Africans Raphael Chijioke Njoku, 2024-09-05 The road to Queen Elizabeth II's implementation of African reforms was rough especially in the first two decades following her ascension to the throne In this book Raphael Chijioke Njoku examines Queen Elizabeth II's role in the African decolonization trajectories and the postcolonial state's quest for genuine political and economic liberation since 1947 By locating Elizabeth at the center of Anglophone Africa's independence agitations the account harnesses the African interests to tease out the monarch's dilemma of complying with Whitehall's decolonization schemes while building an inclusive and unified Commonwealth in which Africans could play a vital role Njoku argues that to gratify British lawmakers in her complex and marginal place within the British parliamentary system of conservative versus reformist Elizabeth's contribution fell short of African nationalists expectations on account of her silence and inaction during the African decolonization raptures Yet ultimately the author concludes she helped build an inclusive and unified organization in which Africans could assert and appropriate political and economic autarky

The African Diaspora in India Purnima Mehta Bhatt, 2017-09-05 This

book explores the understudied and often overlooked subject of African presence in India. It focuses on the so-called Sidis, Siddis or Habshis, who occupy a unique place in Indian history. The Sidis comprise scattered communities of people of African descent who travelled and settled along the western coast of India, mainly in Gujarat but also in Goa, Karnataka, Andhra Pradesh, Sri Lanka, and in Sindh, Pakistan, as a result of the Indian Ocean trade from the thirteenth to nineteenth centuries. The work draws from extant scholarly research and documentary sources to provide a comprehensive study of people of African descent in India and sheds new light on their experiences. By employing an interdisciplinary approach across fields of history, art, anthropology, religion, literature, and oral history, it provides an analysis of their negotiations with cultural resistance, survivals, and collective memory. The author examines how the Sidi communities strived to construct a distinct identity in a new homeland in a polyglot Indian society, their present status as well as their future prospects. The book will interest those working in the fields of history, sociology, and social anthropology, cultural studies, international relations, and migration and diaspora studies.

Encyclopedia of the African Diaspora Carole Boyce Davies, 2008-07-29. The authoritative source for information on the people, places, and events of the African Diaspora spanning five continents and five centuries. The field of African Diaspora studies is rapidly growing. Until now, there was no single authoritative source for information on this broad, complex discipline. Drawing on the work of over 300 scholars, this encyclopedia fills that void. Now, the researcher from high school level up can go to a single reference for information on the historical, political, economic, and cultural relations between people of African descent and the rest of the world community. Five hundred years of relocation and dislocation, of assimilation and separation, have produced a rich tapestry of history and culture into which are woven people, places, and events. This authoritative, accessible work picks out the strands of the tapestry, telling the story of diverse peoples separated by time and distance but retaining a commonality of origin and experience. Organized in A-Z sections covering global topics, country of origin, and destination country, the work is designed for easy use by all.
