The Afrocentric Myth:

Not Out of Africa M. Lefkowitz, 1998 *Afrocentric Myth Or Islam* Abubakr Ben Ishmael Salahuddin, 1995 The fallacy of racist thinking including Black Nationalism as a solution for the problems of racial identity in America Race and colour are fundamentally myths or hang ups Malcolm X's vision How Islam has always transcended race *Black Cultural Mythology* Christel N. Temple, 2020-04-01 Offers a new conceptual framework rooted in mythological analysis to ground the field of Africana cultural memory studies Black Cultural Mythology retrieves the concept of mythology from its Black Arts Movement origins and broadens its scope to illuminate the relationship between legacies of heroic survival cultural memory and creative production in the African diaspora Christel N Temple comprehensively surveys more than two hundred years of figures moments ideas and canonical works by such visionaries as Maria Stewart Richard Wright Colson Whitehead and Edwidge Danticat to map an expansive yet broadly overlooked intellectual tradition of Black cultural mythology and to provide a new conceptual framework for analyzing this tradition In so doing she at once reorients and stabilizes the emergent field of Africana cultural memory studies while also staging a much broader intervention by challenging scholars across disciplines from literary and cultural studies history sociology and beyond to embrace a more organic vocabulary to articulate the vitality of the inheritance of survival This book not only offers a new and exciting theoretical concept it also applies that concept to texts in unique and different ways With this theoretical lens we can read and see texts memories and ideas in new ways The author examines an almost dizzying array of cultural and historical moments scholars artists and activists and provides new lenses through which to read them as well This is a brilliant and much needed addition to the academic and cultural conversation Georgene Bess Montgomery author of *The Spirit and the Word A Theory of Spirituality in Africana Literary Criticism*

Myth Performance in the African Diasporas Benita Brown, Dannabang Kuwabong, Christopher Olsen, 2013-12-24 Diaspora studies continue to expand in range and scope and remain fertile terrain for investigating multiple techniques of myth creation in dance performance history as performance dramatic narrative and staged rituals in the field Similarly research in postcoloniality gender sexuality intercultural and literary studies among others all engage and feature core components of performance and myth in articulating and understanding their fields This sharing of similar components also demonstrates the interrelatedness of these fields In *Myth Performance in the African Diasporas Ritual Theatre and Dance* the authors contend that performance traditions across artistic disciplines reveal a shared if sometimes varied journey among diasporic artists to reconnect with their African ancestors The volume begins with a historical and aesthetic overview of how dramatists choreographers and performance artists have approached the task of interpreting African myth The individual chapters reveal how specific artists dramatists and choreographers have interpreted African myth and what performative approaches and traditions they have used Focusing on theatre practitioners from the nineteenth century through the present the authors examine performative traditions from Canada the United States the Caribbean and

Latin America Drawing upon research in theatre dance and literary texts *Myth Performance in the African Diasporas* will be crucial to academics interested in African performance viewed through the prism of myth making and spiritual ritualistic stagings Besides those interested in diasporic studies this book will also be useful to scholars and students of history drama theatre and dance

Afrocentrism Stephen Howe, 1999-08-17 For centuries racist colonial and Eurocentric bias has blocked or distorted knowledge of Africans their histories and cultures resulting in a counter mythology claiming the innate superiority of African descended peoples In this provocative study historian Stephen Howe challenges this Afrocentric rewriting of African history 16 photos Copyright Libri GmbH All rights reserved

Muslims on the Americanization Path? Yvonne Yazbeck Haddad, John L. Esposito, 2000-05-11 Islam is the fastest growing religion in the United States There are more Muslims in America than in Kuwait Qatar and Libya together Leaving aside immigration and conversion birthrate alone ensures that in the first part of the twenty first century Islam will replace Judaism as the nation's second largest religion Like all religious minorities in America Muslims must confront a host of difficult questions concerning faith and national identity Can they become part of a pluralistic American society without sacrificing their identity Can Muslims be Muslims in a state that is not governed by Islamic law Will the American legal system protect Muslim religious and cultural differences Is there a contradiction between demanding equal rights and insisting on maintaining a distinctively separate identity Will the secular and or Judeo Christian values of American society inhibit the Muslim practice of religious faith While the Muslims of America are indeed on the path to Americanization what that means and what that will yield remains uncertain In this thoughtful and wide ranging volume fourteen distinguished scholars take an in depth look at these issues and examine the varied responses and opinions of the Muslim community

The Myth of Black Anti-Intellectualism Kevin O. Cokley, 2014-11-11 Why do students who belong to racial minority groups particularly black students fall short in school performance This book provides a comprehensive and critical examination of black identity and its implications for black academic achievement and intellectualism No other group of students has been more studied more misunderstood and more maligned than African American students The racial gap between White and African American students does exist a difference of roughly 20 percent in college graduation rates has persisted for more than the past two decades and since 1988 the racial gap on the reading and mathematics sections of the Scholastic Aptitude Test SAT has increased from 189 points to 201 points What are the true sources of these differences In this book psychology professor and editor in chief of the *Journal of Black Psychology* Kevin Cokley PhD delves into and challenges the dominant narrative regarding black student achievement by examining the themes of black identity the role of self esteem the hurdles that result in academic difficulties and the root sources of academic motivation He proposes a bold alternate narrative that uses black identity as the theoretical framework to examine factors in academic achievement and challenge the widely accepted notion of black anti intellectualism This book will be valuable to all educators especially those at the high school through undergraduate college
