The Age Of Sinan Architectural Culture In The Ottoman Empire:

The Age of Sinan Gülru Necipoğlu, 2005 In this work Gulru Necipoglu convinces us that Sinan's rich variety of mosque designs sprang from a process of negotiation between the architect and his patrons rather than from the restless unrestrained formal experimentation previously attributed to him The author is the first to use a broad range of published and unpublished primary sources specifically in order to illuminate the cultural setting in which Sinan's monuments were produced and received She describes how Sinan created a layered system of mosque types reflecting social status and territorial rank shaped by ideas of identity memory and decorum Seen from this perspective Sinan's monuments with their highly standardized forms used in ingeniously varied combinations acquire dimensions of meaning that have not been recognized hitherto Illustrated with hundreds of specially commissioned photographs and architectural drawings *The Age of Sinan* is unlikely ever to be superseded **BOOK JACKET** *The Age of Sinan* Gülru Necipoğlu, 2011 *Ottoman Empire and Islam: Oxford Bibliographies Online Research Guide* Oxford University Press, 2010-06-01 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com [History and Ideology](#) Julia Bailey, Sibel Bozdoğan, Gülru Necipoğlu, 2007 Muqarnas is sponsored by The Aga Khan Program for Islamic Architecture at Harvard University and the Massachusetts Institute of Technology Cambridge Massachusetts In Muqarnas articles are being published on all aspects of Islamic visual culture historical and contemporary as well as articles dealing with unpublished textual primary sources *The Heritage of Edirne in Ottoman and Turkish Times* Birgit Krawietz, Florian Riedler, 2019-12-16 Modern scholarship has not given Edirne the attention it deserves regarding its significance as one of the capitals of the Ottoman Empire This edited volume offers a reinterpretation of Edirne's history from Early Ottoman times to recent periods of the Turkish Republic Presently disconnections and discontinuities introduced by the transition from empire to nation state still characterize the image of the city and the historiography about it In contrast this volume examines how the city engages in the forming deflecting and creative appropriation of its heritage a process that has turned Edirne into a UNESCO heritage hotspot A closer historical analysis demonstrates the dissonances and contradictions that these different interpretations and

uses of heritage produce From the beginning Edirne was shaped by its connectivity and relationality to other places above all to Istanbul This perspective is employed at many different levels e g with regard to its population institutions architecture infrastructures and popular culture but also regarding the imaginations Edirne triggered In sum this multi disciplinary volume boosts urban history beyond Istanbul and offers new insight into Ottoman and Turkish connectivities from the vantage point of certain key moments of Edirne s history
