The American Cigarette Industry Richard B. Tennant,1971 *The American Cigarette Industry* Tennant,1971

Cigarette Wars Cassandra Tate,2000-05 We live in an age when the cigarette industry is under almost constant attack Few weeks pass without yet another report on the hazards of smoking or news of another anti cigarette lawsuit or more restrictions on cigarette sales advertising or use It s somewhat surprising then that very little attention has been given to the fact that America has traveled down this road before Until now that is As Cassandra Tate reports in this fascinating work of historical scholarship between 1890 and 1930 fifteen states enacted laws to ban the sale manufacture possession and or use of cigarettes and no fewer than twenty two other states considered such legislation In presenting the history of America s first conflicts with Big Tobacco Tate draws on a wide range of newspapers magazines trade publications rare pamphlets and many other manuscripts culled from archives across the country Her thorough and meticulously researched volume is also attractively illustrated with numerous photographs posters and cartoons from this bygone era Readers will find in *Cigarette Wars* an engagingly written and well told tale of the first anti cigarette movement dating from the Victorian Age to the Great Depression when cigarettes were both legally restricted and socially stigmatized in America Progressive reformers and religious fundamentalists came together to curb smoking but their efforts collapsed during World War I when millions of soldiers took up the habit and cigarettes began to be associated with freedom modernity and sophistication Importantly Tate also illustrates how supporters of the early anti cigarette movement articulated virtually every issue that is still being debated about smoking today theirs was not a failure of determination she argues in these pages but of timing A compelling narrative about several clashing American traditions old vs young rural vs urban and the late nineteenth vs early twentieth centuries this work will appeal to all who are interested in America s love hate relationship with what Henry Ford once called the little white slaver *Handbook of Health Economics* A J. Culyer,J.P. Newhouse,2000-07-19 What new theories evidence and policies have shaped health economics in the 21st century Editors Mark Pauly Thomas McGuire and Pedro Pita Barros assemble the expertise of leading authorities in this survey of substantive issues In 16 chapters they cover recent developments in health economics from medical spending growth to the demand for health care the markets for pharmaceutical products the medical workforce and equity in health and health care Its global perspective including an emphasis on low and middle income countries will result in the same high citations that made Volume 1 2000 a foundational text Presents coherent summaries of major subjects and methodologies marking important advances and revisions Serves as a frequently used non journal reference Introduces non economists to the best research in health economics **Women's Work in the Unorganized Sector** Rekha Pande,2022-12-30 This book probes into the beedi industry a highly gendered and class divided unorganised sector in India It introduces an analysis of the lives health status and work of the Indian women and girl children in the industry and discusses the role of gender constructions global capitalism and global racism in shaping

the ideologies and conceptions about men and women at work The volume presents a gendered postcolonial perspective on women s employment in the context of social and economic processes that are critical to globalization It focuses on Telangana s Nizamabad district where a majority of the women population are employed in the beedi industry Through detailed surveys and case studies the author analyses different aspects of exploitation of these women such as poor working conditions income inequalities health risks and the realities of child labour in the process of beedi making Richly detailed this book will be of great interest to students researchers and teachers of geography particularly human geography and feminist geography women and gender studies feminism labour economics capitalism development studies political sociology and cultural studies It will also be of interest to gender and feminist geographers occupational health professionals NGOs and those interested in the issues of gender and development

Smoker beyond the Sea Juan José Baldrich,2022-10-21 In this groundbreaking volume Juan Jos Baldrich traces the deep changes affecting Puerto Rican tobacco growers and manufacturers and their export markets from the Spanish colonization of the island to the present Based on more than twenty years of research in the United States and Puerto Rico the book sheds light on the important history of tobacco in Puerto Rico while highlighting the people and practices that have indelibly shaped Puerto Rico and its culture Smoker beyond the Sea The Story of Puerto Rican Tobacco is a work of recovery that examines tobacco s transitions from medicinal use to rolls fit for chewing and pipe smoking followed by the appropriation of the Cuban paradigm for cigars and cigarettes and finally to the US models after the 1898 invasion This pioneering volume also offers the only history of the US tobacco monopoly in local agriculture and manufacture from its beginning in 1899 to the bankruptcy of its last successor company forty years later Baldrich s extensive research documents the organization of the cigar and cigarette manufacturing sectors and the resulting development of trade unions and socialist ideals This multidisciplinary investigation gives due attention to the modifications that farmers made to tobacco planting and harvesting techniques in fine tuning plants to the expected aromas and tastes of the manufactured commodities In addition Baldrich pays considerable attention to gender relations in the labor process not only in the manufacturing sector but also in tobacco agriculture The book also provides the only narrative of the rise and maturity of the Hermanos Cheos a powerful apocalyptical movement that began and spread in the tobacco growing regions Ultimately this encompassing volume fills a major gap in the histories of tobacco producing islands in the Caribbean

A Golden Weed Drew A. Swanson,2014-08-12 Drew A Swanson has written an environmental history about a crop of great historical and economic significance American tobacco A preferred agricultural product for much of the South the tobacco plant would ultimately degrade the land that nurtured it but as the author provocatively argues the choice of crop initially made perfect agrarian as well as financial sense for southern planters Swanson who brings to his narrative the experience of having grown up on a working Virginia tobacco

farm explores how one attempt at agricultural permanence went seriously awry He weaves together social agricultural and cultural history of the Piedmont region and illustrates how ideas about race and landscape management became entangled under slavery and afterward Challenging long held perceptions this innovative study examines not only the material relationships that connected crop land and people but also the justifications that encouraged tobacco farming in the region
