Philip R. Yannella

The Epic Of Alexandra:

The Epic of Alexandra Dorothy Dayton, Virginia Ingram, 1979-01-01 Not content with the conventional role of a princess Alexandra is determined to see the world and have adventures **Lykophron: Alexandra** Lykophron, 2022-10-06 Traditionally ascribed to the early third century BCE tragedian Lykophron the Alexandra is a powerful Greek poem by an unknown author probably written c 190 when Rome had defeated Hannibal and the Carthaginians and was poised to humble the Seleukid king Antiochos III The poem is an ingeniously constructed masterpiece a generic mix with elements of tragedy epic and history Priam's beautiful daughter the prophetic Cassandra foresees her rape in Athena's temple by the hateful Greek warrior Ajax after Troy's fall and warns of disastrous returns nostoi for all the Greek heroes But Troy will rise again as Rome founded by Trojan refugees Alexandra another name for Cassandra narrates these Mediterranean foundation myths adopting a bitterly disillusioned female perspective but culminating in prophecies of Roman rule over land and sea

Alexandra Lycophron, 2022 The Alexandra attributed to Lykophron is a minor poetic masterpiece At 1474 lines it is one of the most important and notoriously difficult Greek poems dating from the Hellenistic period The Alexandra of Lycophron Charles McNelis, Alexander Sens, 2016-04-21 This monograph is a literary study of Lycophron's Alexandra whose obscurity a quality notorious already in antiquity has long hampered holistic approaches Through a series of distinct but closely integrated literary studies of major aspects of the poem including its style its engagement with the traditions of epic and tragedy and its treatment of heroism and of the gods the book explores the way the Alexandra reconfigures Greek mythology In particular as it is presented in Homeric epic and Athenian tragedy in order to cast the Romans and their restoration of Trojan glory as the ultimate telos of history In this sense the poem emerges as an important intermediary between Homeric epic and Latin poetry particularly Vergil's Aeneid By rewriting specific features of the epic and tragic traditions the Alexandra denies to Greek heroes the glory that was the traditional compensation for their suffering while at the same time attributing to Cassandra's Trojan family honours framed in the traditional language of Greek heroism In this sense the figure of Cassandra a prophetess traditionally gifted with the power of foresight but denied credibility self reflexively serves as a vehicle for exploring the potentials and limitations of poetry **Lykophron's Alexandra, Rome, and the Hellenistic World** Simon Hornblower, 2018 This volume takes as its subject one of the most important Greek poems of the Hellenistic period the Alexandra attributed to Lykophron probably written in about 190 BC At 1474 lines and with a riddling narrative and a preponderance of unusual vocabulary it is a notoriously challenging prospect for scholars but it also sheds crucial light on Greek religion in particular the role of women and on foundation myths and myths of colonial identity Most of the poem purports to be a prophecy by the Trojan princess Cassandra who foretells the conflicts between Europe and Asia from the Trojan Wars to the establishment of Roman ascendancy over the Greek world in the poet's own time The central section narrates in the future tense the dispersal of returning Greek heroes throughout the Mediterranean zone and

their founding of new cities This section culminates in the Italian wanderings and foundational activity of the Trojan refugee Aeneas
 Cassandra's own kinsman Following Simon Hornblower's detailed full length commentary on the *Alexandra* OUP 2015 paperback 2017 this monograph asserts the poem's importance as not only a strongly political work but also as a historical document of interest to cultural and religious historians and students of myths of identity Divided into two Parts the first explores Lykophron's geopolitical world paying special attention to south Italy perhaps the bilingual poet's own area of origin Sicily and Rhodes it suggests that the recent hostile presence of Hannibal in south Italy surfaces as a frequent yet indirectly expressed concern of the poem The thematic second Part investigates the *Alexandra*'s relation to the Sibylline Oracles and to other apocalyptic literature of the period and argues for its cultural and religious topicality The Conclusion puts the case for the 190s BC as a turning point in Roman history and contends that Lykophron demonstrates a veiled awareness of this especially of certain peculiar features of Roman colonizing policy in that decade

Euripides, "Alexandros" Ioanna Karamanou, 2017-12-18 This is the first full scale commentary on Euripides Alexandros which is one of the best preserved fragmentary tragedies It yields insight into aspects of Euripidean style ideology and dramatic technique e g rhetoric stagecraft and imagery and addresses textual and philological matters on the basis of a re inspection of the papyrus fragments This book offers a reconstruction of the play and an investigation of issues of characterization staging textual transmission and reception not least because Alexandros has enjoyed a fascinating Nachleben in literary dramaturgical and performative terms It also contributes to the readers understanding of the trends of later Euripidean drama especially the dramatist s innovation and experimentation with plot patterns and staging conventions Furthermore the analysis of Alexandros could stimulate a more comprehensive reading of the extant Trojan Women coming from the same production which bears the features of a connected trilogy Thus the information retrieved through the interrogation of the rich fragmentary material serves to supplement and contextualize the extant tragic corpus showcasing the vitality and multiformity of Euripidean drama as a whole

The Cinema of Alexander Sokurov Jeremi Szaniawski, 2014-02-04 One of the last representatives of a brand of serious high art cinema Alexander Sokurov has produced a massive oeuvre exploring issues such as history power memory kinship death the human soul and the responsibility of the artist Through contextualization and close readings of each of his feature fiction films broaching many of his documentaries in the process this volume unearths a vision of Sokurov s films as equally mournful and passionate intellectual and sensual and also identifies in them a powerful if discursively repressed queer sensitivity alongside a pattern of tensions and paradoxes This book thus offers new keys to understand the lasting and ever renewed appeal of the Russian director s Janus like and surprisingly dynamic cinema a deeply original and complex body of work in dialogue with the past the present and the future

in Hellenistic Poetry Marco Fantuzzi, Richard Hunter, 2005-01-13 Hellenistic poets of the third and second centuries BC were concerned with the need both to mark their continuity with the classical past and to demonstrate their independence from it In this revised and expanded translation of *Muse e modelli la poesia ellenistica da Alessandro Magno ad Augusto* Greek poetry of the third and second centuries BC and its reception and influence at Rome are explored allowing both sides of this literary practice to be appreciated Genres as diverse as epic and epigram are considered from a historical perspective in the full range of their deep level structures providing a different perspective on the poetry and its influence at Rome Some of the most famous poetry of the age such as Callimachus *Aitia* and Apollonius *Argonautica* is examined In addition full attention is paid to the poetry of encomium in particular the newly published epigrams of Posidippus and Hellenistic poetics notably Philodemus Tragic Failures Evina Sistakou, 2016-07-11 This is the first study considering the reception of Greek tragedy and the transformation of the tragic idea in Hellenistic poetry The focus is on third century Alexandria where the Ptolemies fostered tragedy as a theatrical form for public entertainment and as an official genre cultivated by the Pleiad whereas the scholars of the Museum were commissioned to edit and comment on the classical tragic texts More importantly the notion of the tragic was adapted to the literary trends of the era Released from the strict rules established by Aristotle about what makes a good tragedy the major poets of the Alexandrian avant garde struggled to transform the tragic idea and integrate it into non dramatic genres *Tragic Failures* traces the incorporation of the tragic idea in the poetry of Callimachus and Theocritus in Apollonius epic *Argonautica* in the iambic *Alexandra* in late Hellenistic poetry and in Parthenius *Erotika Pathemata* It offers a fascinating insight into the new conception of the tragic dilemmas in the context of Alexandrian aesthetics How the Girl got the Earl Amanda Mariel, 2025-12-16 Spring is in full bloom and so is scandal Lady Alexandra Peregrine has always been more interested in adventure than marriage But when she finds herself unexpectedly drawn into a flirtation with the roguishly charming Magnus Berkshire Earl of Langley she is tempted to indulge in a harmless springtime dalliance After all what harm could a fleeting romance bring Magnus has spent years dodging matchmakers and meddlesome

mothers but Alexandra is unlike any lady he s ever met quick witted bold and entirely too tempting What begins as playful banter and stolen kisses soon turns into something far more dangerous genuine affection As society whispers and hearts become entangled what started as a spring fling threatens to blossom into something far deeper But can Magnus convince Alexandra that love isn t just a passing season but a promise worth keeping forever A witty romantic and utterly enchanting Regency novella where flirtation turns to forever and love blooms when it s least expected *American Literature in Context from 1865 to 1929* Philip R. Yannella,2010-08-02 This book places major literary works within the context of the topics that engaged a great number of American writers in the period from the end of the Civil War to the beginning of the Great Depression Topics include Civil War memory the virtual re enslavement of African Americans after Reconstruction and radical social movements Draws on a range of documents from magazine and newspaper accounts to government reports and important non fiction Presents a contemporary history as writers might have understood it as they were writing not as historians have interpreted it Designed to be compatible with the major anthologies of literature from the period Equips students and general readers with the necessary historical context needed to understand the writings from this period and provides original and useful readings that demonstrate how context contributes to meaning Includes a historical timeline featuring key literary works American presidents and historical events **The Green Breast of the New World** Louise H. Westling,1996 In searching American literary landscapes for what they can reveal about our attitudes toward nature and gender The Green Breast of the New World considers symbolic landscapes in twentieth century American fiction the characters who inhabit those landscapes and the gendered traditions that can influence the figuration of both of these fictional elements In this century says Louise H Westling American literary responses to landscape and nature have been characterized by a puzzling mix of eroticism and misogyny celebration and mourning and reverence and disregard Focusing on problems of gender conflict and imperialist nostalgia The Green Breast of the New World addresses this ambivalence Westling begins with a deep history of literary landscapes looking back to the archaic Mediterranean Mesopotamian traditions that frame European and American symbolic figurations of humans in the land Drawing on sources as ancient as the Sumerian Hymns to Innana and the Epic of Gilgamesh she reveals a tradition of male heroic identity grounded in an antagonistic attitude toward the feminized earth and nature This identity recently has been used to mask a violent destruction of wilderness and indigenous peoples in the fictions of progress that have shaped our culture Examining the midwestern landscapes of Willa Cather s Jim Burden and Ernest Hemingway s Nick Adams and the Mississippi Delta of William Faulkner s Thomas Sutpen and Isaac McCaslin and Eudora Welty s plantation families and small town dwellers Westling shows that these characters all participate in a cultural habit of gendering the landscape as female and then excusing their mistreatment of it by retreating into a nostalgia that erases their real motives displaces responsibility and takes refuge in attitudes of self pitying adoration *The Empire of Alexander the Great* John Mahaffy,2018-04-11 Most of

the great changes in the world's history come about gradually and wise men can see them coming for it is very hard to run counter to the nature of average men and all great advances and degradations of society are the result of persistent causes but a few times since our records have been kept there has arisen a single genius who has done what no number of lesser men could accomplish who has upset theories as well as dominions preached a new faith discovered some new application of Force which has given a fresh start to the world in its weary and perplexed struggle for a higher life These few great men have so changed the current of affairs that we may safely say they have modified the future of the whole human race At any rate they have taught us what might and dignity is attainable by man and has so given us ideals by which the commonest of us can estimate his worth and exalt his aspirations So too there have been gigantic criminals and imperial fools who have wrecked the peace of the world and caused the ape and tiger elements which were repressed by long and anxious struggles to break out afresh in their savagery **Chambers's Encyclopaedia**, 1912
