American Television News: The Media Marketplace and the Public Interest Steve M. That's the Way It Is Charles L. Ponce de Leon, 2015-05-04 This engaging and important study examines the evolution of TV news and its long history of blending journalism and entertainment American Historical Review Today s media critics often decry the state of television news saying that it s too dumbed down becoming more entertainment than information But this familiar narrative fails to acknowledge real changes in media and Americans news consuming habits It also harkens back to a golden age that on closer examination is revealed to be not so golden As Charles L Ponce de Leon explains in That s the Way It Is TV news has always walked a fine line between hard news and fluff Ponce de Leon traces the entire history of televised news from the household names of the late 1940s and early 50s like Eric Sevareid Edward R Murrow and Walter Cronkite through the rise of cable the political power of Fox News

and the satirical punch of Colbert and Stewart He describes an industry forever in transition where newsmagazines and celebrity profiles vie with political news and serious investigations The need for ratings success and the lighter human interest stories that can help bring it Ponce de Leon makes clear has always sat uneasily alongside a real desire to report hard news Highlighting the paradoxes at the heart of TV news and telling a story rich in familiar figures and fascinating anecdotes That s the Way It Is offers an insightful and engaging account of how television has presented our history as it happens

Public Discourse in America Judith Rodin,Stephen P. Steinberg,2011-04-07 A distinguished group of scholars and prominent figures here offers thoughtful new perspectives on the tenor and conduct of public life in contemporary America Originating in a shared concern that our civic culture was becoming coarser and more polarized Public Discourse in America provides a critical corrective to this widespread misperception about declining civility in public culture and the ways we as citizens negotiate our differences Together these essays explore the current condition and centrality of public discourse in our democracy investigating how it has changed through our history and whether it fails to approach our widely held but often unarticulated ideal of reasoned and reasonable public deliberation Contributors consider whether rationality is really the best standard for public discussion and argument and isolate the features and principles that would characterize a truly exemplary more productive public discourse at the beginning of the twenty first

century They investigate why public conversations work when they work well and why they often fail when we need them the most as in our nation s so often aborted national conversation on race Taking a comprehensive look at institutional and leadership practices in recent public debates over a variety of hot button public policy issues Public Discourse in America outlines how such conversations can be used to reintegrate our fragmented communities and bridge barriers of difference and hostility among communities and individuals These essays speak to urgent and perennial questions about the nature of American society the responsibilities of leaders the rules of democracy and the role of public culture in times of crisis conflict and rapid change Public Discourse in America originated in the work of the Penn National Commission on Society Culture and Community convened in 1996 by Judith Rodin President of the University of Pennsylvania Distinguished members of the Commission leading experts commissioned researchers and leaders in America s nascent public discourse movement offer unexpected insights and an optimistic vision of the health of our politics and culture Readers of all political persuasions from the halls of political power to the streets of urban neighborhoods from newsrooms and studios to think tanks and universities will find these essays opening up new paths to robust public discussion more engaged citizenship and stronger communities Contributors include Joyce Appleby Thomas Bender Derek Bok Alex Boraine Graham G Dodds Christopher Edley Jr Drew Gilpin Faust Neal Gabler Richard Lapchick Don M Randel Richard Rodriguez Jay Rosen David M Ryfe Michael Schudson Neil Smelser and Robert H Wiebe
