The Evolution of the Nigerian State Tekena N. Tamuno,1972 **The Evolution of the Nigerian State** T. N. Tamuno,1978 *The Colonial Office and Nigeria, 1898-1914* John M. Carland,1985-04-01 A study in the relationship between one department of the Colonial Office and the colonies in which it had responsibility **Political Culture, Change, and Security Policy in Nigeria** Kalu Kalu,2018-03-15 Demonstrating how political culture facilitates or distorts political preferences and political outcomes this book explores how the historical development of social conditions and the current social structures shape understandings and constrain individual and collective actions within the Nigerian political system Political Culture Change and Security Policy examines the extent to which specific norms and socialization processes within the political and civic culture abet corruption or the proclivity to engage in corrupt practices and how they help reinforce political attitudes and civic norms that have the potential to undermine the effectiveness of government It also delineates specific doctrinal models and strategic framework essential to the development and implementation of Nigeria s national security policy as well as innovative approaches to national development planning Professor Kalu N Kalu offers an exhaustive study that integrates several quantitative models in addressing a series of theoretical and empirical questions that inform historical and contemporary issues of the Nigerian project The general premise is that it is not enough to simply highlight the problems of the state and address the what question we must also address the why and how questions that drive political change policy preferences and competing political outcomes **Missions, States, and European Expansion in Africa** Chima J. Korieh,Raphael Chijioke Njoku,2007-11-21 Missions States and European Expansion in Africa aims to explore the ways Christianity and colonialism acted as hegemonic or counter hegemonic forces in the making of African societies As Western interventionist forces Christianity and colonialism were crucial in establishing and maintaining political cultural and economic domination Indeed both elements of Africa s encounter with the West played pivotal roles in shaping African societies during the nineteenth and twentieth centuries This volume uses a wide range of perspectives to address the intersection between missions evangelism and colonial expansion across Africa The contributors address several issues including missionary collaboration with the colonizing effort of European powers disagreements between missionaries and colonizing agents the ways in which missionaries and colonial officials used language imagery and European epistemology to legitimize relations of inequality with Africans and the ways in which both groups collaborated to transform African societies Thus Missions States and European Expansion in Africa transcends the narrow boundaries that often separate the role of these two elements of European encounter to argue that missionary endeavours and official colonial actions could all be conceptualized as hegemonic institutions in which both pursued the same civilizing mission even if they adopted different strategies in their encounter with African societies **Perspectives on Nation-State Formation in Contemporary Africa** Godknows Boladei Igali,2014-04-15 The challenge of state formation and national integration is

evident and the need for a solution is even more demanding in places like Africa where nation states were formed under very special historical circumstances In Perspectives on Nation State Formation in Contemporary Africa author Godknows Boladei Igali presents a digest that examines the challenges of state formation and national integration in Africa and offers preferred solutions within the context of the symbolic diversities In this study Igali outlines the immediate context and challenges of national integration in Africa in its human dimension He reviews the political formations of ancient Africa which varied in size philosophical premise and organisational structures and discusses partition military invasions conquest and colonisation He then addresses colonial rule or administration African nationalism and decolonisation and analyses the process of nation state formation in post independent Africa from the perspective of the political systems and ideologies Reviewing a wide range of time from ancient times through the colonial period and since independence this survey discusses the processes of national integration and nation state formation in Africa providing perspectives that deepen the understanding of these nation building processes

The African Colonial State in Comparative Perspective Crawford Young, 1994-01-01 In this comprehensive and original study a distinguished specialist and scholar of African affairs argues that the current crisis in African development can be traced directly to European colonial rule which left the continent with a singularly difficult legacy that is unique in modern history Crawford Young proposes a new conception of the state weighing the different characteristics of earlier European empires including those of Holland Portugal England and Venice and distilling their common qualities He then presents a concise and wide ranging history of colonization in Africa from the era of construction through consolidation and decolonization Young argues that several qualities combined to make the European colonial experience in Africa distinctive The high number of nations competing for power around the continent and the necessity to achieve effective occupation swiftly yet make the colonies self financing drove colonial powers toward policies of ruthless extractive action The persistent virulent racism that established a distance between rulers and subjects was especially central to African colonial history Young concludes by turning his sights to other regions of the once colonized world comparing the fates of former African colonies to their counterparts elsewhere In tracing both the overarching traits and variations in African colonial states he makes a strong case that colonialism has played a critical role in shaping the fate of this troubled continent

white middle classes educated in the colonizer's language usually gained early elections but settler minorities resisted subsequent franchise expansion. Authoritarian metropolises blocked elections entirely. Countries with lengthy exposure to competitive colonial institutions tended to consolidate democracies after independence. By contrast, countries with shorter electoral episodes usually shed democratic institutions, and countries that were denied colonial elections consolidated stable dictatorships. Regime trajectories shaped by colonial rule persist to the present day.

Managing the British Empire David Sunderland, 2013-08-15. First in depth account of the role played by the Crown Agents in the growth of the colonies. The Crown Agents Office played a crucial role in colonial development. Acting in the United Kingdom as the commercial and financial agent for the crown colonies, the Agency supplied all non locally manufactured stores required by colonial governments, issued their London loans, managed their UK investments and supervised the construction of their railways, harbours and other public works. In addition, the Office supervised the award of colonial land and mineral concessions, monitored the colonial banking and currency system and performed a personnel role, paying colonial service salaries and pensions, recruiting technical officers and arranging the transport of officers, troops and Indian indentured labour. In this important book, the first in depth investigation of the Agency, David Sunderland examines each of these services in turn, determining in each case whether the Crown Agents' performance benefited their clients, the UK economy or themselves. His book is thus both an account of a remarkable and unique organisation and a fascinating examination of the nuts and bolts of nineteenth century development. David Sunderland is Reader in Business History, Greenwich University.

BOOK JACKET *Imperialism and Human Rights* Bonny Ibhawoh, 2008-01-03. 2007 CHOICE Outstanding Academic Title. In this seminal study, Bonny Ibhawoh investigates the links between European imperialism and human rights discourses in African history. Using British colonized Nigeria as a case study, he examines how diverse interest groups within colonial society deployed the language of rights and liberties to serve varied socioeconomic and political ends. Ibhawoh challenges the linear progressivism that dominates human rights scholarship by arguing that in the colonial African context, rights discourses were not simple monolithic or progressive narratives. They served both to insulate and legitimize power just as much as they facilitated transformative processes. Drawing extensively on archival material, this book shows how the language of rights like that of civilization and modernity became an important part of the discourses deployed to rationalize and legitimize empire.
