**The Evolution Of God** Robert Wright,2010-11-04 For centuries faithful followers of Christianity Islam and Judaism have looked to their holy texts for spiritual guidance social and political mandates and answers to man s burning questions about the workings of the universe But what if these believers have been overlooking the most important message in their Scriptures In **THE EVOLUTION OF GOD** bestselling author Robert Wright finds a kind of hidden code in the Bible and the Koran Read closely he says these texts reveal the key to harmony among the Abrahamic faiths and thus to a peaceful world nothing less than the salvation of humankind **THE EVOLUTION OF GOD** explains why spirituality has a role today why science affirms the validity of the religious quest and why the future will hold harmony instead of religious extremism If there is an author capable of giving us a revolutionary enlightening re reading of the Scriptures it is Robert Wright He has written acclaimed and influential books on the evolution of our minds and our history Now he tackles the evolution of God **The**

**Evolution Of Gods : The Scientific Origin Of Divinity And Religion** Ajay Kansal,2012-04-23 Did gods create mankind or did mankind create gods Why when and how did mankind begin to worship gods Religious scriptures the world over claim that one or the other god made man but science has not yet identified any supernatural power that created and governed human beings Was it man who came up with the idea of gods to help him cope with his own fears Could it be that ancient people attributed natural phenomena unfathomable and frightening to them to the working of invisible gods What kind of sufferings or bewilderments made people bow before unseen powers or gods as we call them When were these gods created Who invented morals and methods of worship Who wrote the ancient scriptures such as the Bible and the Vedas Most crucially have gods and the scriptures shaped our responses to the world around us **The Evolution of Gods** seeks to answer these questions and explains scientifically how when and why religions and gods came into being Ajay Kansal marshals anthropological and historical facts about the development of religions in a simple and straightforward manner to assert that it was mankind that created gods and not the other way around **The Evolutionary God** Robert Dewitt Ivey,2003-04-01

This short autobiographical book gives a broad new look at the paradoxical wholeness of the ecosystem and the universe The author tells why believing in God as a natural principle instead of believing that he is a supernatural being provides a meaning to suffering that is based on reality instead of make believe **The Bearing of the Evolutionary Theory on the**

**Conception of God** - Ukichi Kawaguchi,1916 The God of Evolution Denis Edwards,1999 What does accepting the theory of evolution mean for Christian theology Does God create through a process of random mutation and natural selection In **The God of Evolution** Denis Edwards tackles hard questions about the relationship between contemporary science and Christian faith By examining traditional Christian concepts through the prism of evolutionary thought Edwards opens up new ways of thinking about the nature of God and the universe **BOOK JACKET** Title Summary field provided by Blackwell North America Inc All Rights Reserved **The Evolution of God** Robert Wright,2014-05-21 In this sweeping narrative that takes us from

the Stone Age to the Information Age Robert Wright unveils an astonishing discovery there is a hidden pattern that the great monotheistic faiths have followed as they have evolved Through the prisms of archaeology theology and evolutionary psychology Wright s findings overturn basic assumptions about Judaism Christianity and Islam and are sure to cause controversy He explains why spirituality has a role today and why science contrary to conventional wisdom affirms the validity of the religious quest And this previously unrecognized evolutionary logic points not toward continued religious extremism but future harmony Nearly a decade in the making *The Evolution of God* is a breathtaking re examination of the past and a visionary look forward

**Jewish Prayers to an Evolutionary God: Science in the Siddur** Joel Yehudah Rutman MD,2017-07-20 Why do we pray On the one hand prayer offers us a way to meditate on the knowledge of God and have intimate interaction with a personal creator And for many Jews it offers a sense of community and fulfils a need for daily connection with a venerable tradition and language Yet for many modern Jews prayer is at best old fashioned or at worst no longer necessary In *Jewish Prayers to an Evolutionary God Science in the Siddur* author Dr Joel Rutman provides a new way of understanding the existing language of Jewish prayer and he integrates science with Jewish liturgy all the while striving to preserve the passion that makes prayer matter The aim is to enable Jews to daven pray with kavanna intent trusting that science will not pull the rug out from under their prayer The poems also continue the ancient tradition of hazzanim cantors who author new prayer poems

**The Evolution of a Western God** Maurice Webster,2011 *The Evolution of a Western God 30 000 B C E to the Now* is the story of an exploration into the beliefs visualizations and perceptions of God over the millennia The story is limited to the influences affecting the dominant visions of God in Europe and the Americas The book is in three parts Part One looks at the many meanings together with the emotional and bias of critical words like spirit myth science and religion Part Two traces the visions of God s in the Middle East and Europe from the Neolithic through to the present It traces the way people thought of God from the Great EarthMother of Old Europe the beginning of the

patriarchy the single universal God to the present complex mixture of visions of God Part Three is an analysis of current philosophies and visualizations of God found in Europe and the United States It concludes with the hope that religions sciences politicians and academics can work together to produce a set of proposals for sustainable zero growth cultures on a stable planet Evolution of the God and Christ Ideas Hudson Tuttle, 1906 **THE EVOLUTION OF THE GOD**

**ILLUSION** Ir. Jim K K Wong, 2012-06-16 As one may have read Cicero in *The Nature Of The Gods* ancient people were vivid observers of the sky and the celestial bodies because of their livelihood they were mostly engaged in agriculture and animal husbandry The cycles of nature and seasons were the most important factors affecting farming civilizations The brilliant stars Jupiter Saturn Venus and the zodiac were also objects of great interest These heavenly bodies were regarded as deities even by learned philosophers Cicero and Socrates had a field day demolishing these strongly held prevailing ideas One popular god illusion of the West and Middle East began with patriarch Abraham who was an astronomer from Mesopotamia He studied Jupiter avidly and could predict its behavior which he used it to his advantage in his migration to the Fertile Crescent and in his encounters with hostile inhabitants Abraham had the delusion that Jupiter Yahweh was a deity who could be depended to assist him in troubled times The Yahweh Delusion was passed down from Abraham to son Isaac and grandson Jacob Jacob's 12 sons migrated to Egypt multiplied and eventually became slaves Moses a pariah Egyptian prince became the rebel leader of the Hebrew slaves when he discovered his roots At the opportune moment c 1450 BCE Venus erupted from unstable fast spinning Red Giant Jupiter and shot into the inner solar system like a billiard ball along a highly elliptical orbit It had several close encounters with Earth Moon and Mars and created stunning phenomena or miracles such as the much exaggerated Ten Plagues parting of the Red Sea the rain of manna apparent stopping of the Earth's rotation and even the destruction of the mighty army of Sennacherib near Jerusalem Moses and his successors apparently knew and could predict more or less unusual celestial phenomena and attributed them to a tribal deity Yahweh who was connected with their deliverance and survival Every successful prediction or expectation resulted in augmenting the god illusion The god illusion evolved through stupendous sagas cross fertilized by neighbors and reformers roughly from 1500 BCE to 500 BCE However the Hebrews had a confused idea of this savior deity and its feminine aspects such as the Celestial Cow giving manna milk In the evolutionary process Yahwist patriarchs literally wrote off the influential Goddess and made Yahweh a lone male god of Judaism and Christianity The underlying motive developing this god illusion is Moses and Israel's covetousness of the fertile Holy Land Moses needed a justification to commit genocide to rob loot destroy and drive out people inhabiting the land of milk and honey The justification is a tribal god of Israelites who gives mandate to his chosen race to rob and steal the Promise Land from evil worshippers of false gods The underlying theory for this god illusion evolution hypothesis is based on Immanuel Velikovsky's bestseller of the 1950s *Worlds in Collision* This hypothesis met fierce opposition in academia and Establishment Science The AAAS Symposium 1974 was convened to address the serious challenge Here the author produces

abstracts from various experts in various disciplines of sciences and arts to counter objections to the underlying theory The god illusion presented here is my own interpretation of the psychological impacts and aspects of these astounding celestial phenomena I am using appropriate knowledge in several disciplines to support my thesis such as radiation chemistry upper atmosphere chemistry and behavioral science My training as a stock analyst to read the underlying environment enables me to read in between the lines to speculate and connect the gaps and dots together and present a satisfying version of the god illusion

**Summary of Robert Wright's The Evolution of God** Everest Media,2022-05-16T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The idea of comparing the religions of primitive peoples to the religion of civilized people is offensive to many Europeans They believe that their religion is superior and that it is impossible to understand the motives behind the actions of primitive peoples 2 The Bible the oldest scripture in the Abrahamic tradition contains traces of its ancestry Monotheistic prayer didn't grow out of Chukchee rituals or beliefs but the logic of monotheistic prayer may have grown out of a kind of belief the Chukchee held that forces of nature are animated by minds or spirits that you can influence through negotiation 3 The theory of animism which was the dominant explanation of how religion began was based on the idea that humans attribute life to the inanimate It was promoted by Edward Tylor a hugely influential thinker who believed that the primordial form of religion was animism 4 The animist view of the world is that it is inhabited by spirits that can be found everywhere These spirits are what make up all of the things in the world and they all have a soul The animist view of the world began to evolve and eventually became polytheism

*God and Difference* Linn Marie Tonstad,2015-10-05 *God and Difference* interlaces Christian theology with queer and feminist theory for both critical and constructive ends Linn Marie Tonstad uses queer theory to show certain failures of Christian thinking about God gender and sexuality She employs queer theory to dissect trinitarian discourse and the resonances found in contemporary Christian thought between sexual difference and difference within the trinity Tonstad critiques a broad swath of prominent Christian theologians who either use queer theory in their work or affirm the validity of same sex relationships arguing that their work inadvertently promotes gendered hierarchy This volume contributes to central debates in Christianity over divine and human personhood gendered relationality and the trinity and provides original accounts of God sexual difference and Christian community that are both theologically rich and thoroughly queer

[The Evolutionary Argument against Naturalism](#) Jim Slagle,2021-06-17 Contemporary discussions in metaphysics epistemology and philosophy of mind are dominated by the presupposition of naturalism Arguing against this established convention Jim Slagle offers a thorough defence of Alvin Plantinga's Evolutionary Argument against Naturalism EAAN and in doing so reveals how it shows that evolution and naturalism are incompatible Charting the development of Plantinga's argument Slagle asserts that the probability of our cognitive faculties reliably producing true beliefs is low if ontological naturalism is true and therefore all

other beliefs produced by these faculties including naturalism itself are self defeating He critiques other well known epistemological approaches including those of Descartes and Quine and deftly counters the many objections against the EAAN to conclude that metaphysical naturalism should be rejected on the grounds of self defeat By situating Plantinga's argument within a wider context and showing that science and evolution cannot entail naturalism Slagle renders this most common metaphysical view irrational As such the book advocates an important reconsideration of contemporary thought at the intersection of philosophy science and religion
