Reading the Runes in Old English and Old Norse Poetry Thomas Birkett, 2017-03-27

Reading the Runes in Old English and Old Norse Poetry is the first book length study to compare responses to runic heritage in the literature of Anglo Saxon England and medieval Iceland The Anglo Saxon runic script had already become the preserve of antiquarians at the time the majority of Old English poetry was written down and the Icelanders recording the mythology associated with the script were at some remove from the centres of runic practice in medieval Scandinavia Both literary cultures thus inherited knowledge of the runic system and the traditions associated with it but viewed this literate past from the vantage point of a developed manuscript culture There has as yet been no comprehensive study of poetic responses to this scriptural heritage which include episodes in such canonical texts as Beowulf the Old English riddles and the poems of

the Poetic Edda By analysing the inflection of the script through shared literary traditions this study enhances our understanding of the burgeoning of literary self awareness in early medieval vernacular poetry and the construction of cultural memory and furthers our understanding of the relationship between Anglo Saxon and Norse textual cultures The introduction sets out in detail the rationale for examining runes in poetry as a literary motif and surveys the relevant critical debates The body of the volume is comprised of five linked case studies of runes in poetry viewing these representations through the paradigm of scriptural reconstruction and the validation of contemporary literary historical and religious sensibilities

Imag(in)ing Jesus in the Universal or Particular Victoria Olaide Omotoso,2025-09-04 This volume is a critical exploration of cross cultural Bible film reception presented through an analysis of the responses of UK and South African audiences to The Lumo Project The Gospel of Mark 2014 and Son of Man 2006 Victoria Olaide Omotoso places emphasis on audience reception and highlighting the non Western experience of biblical films by examining the responses of audiences from different cultural contexts to identical media with a cross cultural audience discourse facilitated by cultural dynamics fidelity to the biblical text ethnicity music and gender By examining historic and cinematic debates audience responses and filmmaker responses Omotoso explores the ethnicity of Jesus theological contexts and implications and the presentation of Jesus in an androcentric world Omotoso adopts the concepts of universality and particularity as frameworks to determine the ways through which the filmmakers attempt to identify their cinematic visions and locations She defines universality as a phenomenon through which the filmmaker seeks to place the narrative within a trans cultural frame for a global audience in contrast her definition of particularity is envisioning a unitary and specific cultural context for the narrative By exploring fidelity to the text the ethnic identity of Jesus musical contexts masculinity and female agency the universal and particular are shown as complex contested and shifting concepts within the process of cross cultural audience reception which frequently destabilizes the intentions of the filmmakers

Great Naval Battles of the Pacific War John Grehan,2023-07-07 This volume of U S Navy reports offers an authoritatively detailed refreshingly immediate perspective on the major battles of WWII in the Pacific Scores of historians have chronicled the naval battles fought against Imperial Japan during the Second World War But as we know hindsight gives us 20 20 vision The accounts collected in this volume were written during or immediately after the war before historians had begun to interpret these momentous events These accounts were never intended for the general public and are therefore unburdened by jingoistic bias or literary posturing The authors simply relate each battle accurately and dispassionately producing a document that reads like a running commentary Action follows action minute by minute Clear thorough and utterly impartial this is the permanent record of these five major battles each of which represents a dramatic turning point in the struggle for the Pacific

Department, 1864 **The Correspondence of Edward Lye** Edward Lye, Pontifical Institute of Mediaeval Studies, 2004

Edward Lye 1694–1767 was an important contributor to the advancement of our understanding of the structure of the English language, its vocabulary and its literature. Compared with the work of more celebrated pre-nineteenth century Anglo-Saxonists and antiquaries, Lye's was a scholarly output of less original talent and reach; the role he gave himself was to remove the rubbish out of the way as an underworkman, but in the course of editing, improving and publishing the hitherto unpublished work of others, he made genuine advances in scholarship, particularly in the areas of English lexicography and Gothic studies. The Lye correspondence, in the main, a collection of scholarly letters that are also sometimes the personal communications of friends, indicates how varied his interests were, how widely he read and how frequently he discussed texts, elucidated cruxes and established correct textual readings, often for the first time. This edition presents the 193 letters known to have passed between Edward Lye and forty-five correspondents between 1729 and Lye's death in 1767. English translations are provided for letters written in Latin, Greek and Swedish, as well as for words and passages in other languages, e.g. Old English, Gothic, Hebrew, discussed in the correspondence. The introduction provides a biography of Lye and a detailed examination of his major scholarly accomplishments: the edition of Franciscus Junius's *Etymologicum Anglicanum* published in 1743 with extensive improvements and additions by Lye; the publication in 1750 of Eric Benzelius's edition and Latin translation of the Gothic Gospels, *Sacrorum evangeliorum versio Gothica*, together with Lye's own contribution of corrections and notes; a preface and a Gothic grammar, the *Dictionarium Saxonico et Gothico-Latinum*, completed posthumously by Owen Manning and published in 1772; and an unfinished translation into Latin of the Old English poems of the Caedmon Manuscript (Oxford Bodl. MS Junius 11). Supporting materials, including biographical records and documents relevant to the edited letters and Lye's publications, are presented in several appendices; there are also biographical notes on Lye's correspondents and a bibliography of manuscripts and printed works. This book will be of value to all those interested in Germanic philology, the history of Old English and Gothic scholarship, and the work of the sixteenth to eighteenth century antiquaries in England and northern Europe. **BOOK JACKET**
