worship the daily life style of these avid temple patrons differs little from their suburban neighbors Joanne Waghorne leads her readers on a journey through this new middle class Hindu diaspora focusing on their efforts to build and support places of worship She seeks to trace the changing religious sensibilities of the middle classes as written on their temples and on the faces of their gods She offers detailed comparisons of temples in Chennai formerly Madras London and Washington D C and interviews temple priests devotees and patrons In the process she illuminates the interrelationships between ritual worship and religious edifices the rise of the modern world economy and the ascendancy of the great middle class The result is a comprehensive portrait of Hinduism as lived today by so many both in India and throughout the world Lavishly illustrated with professional photographs by Dick Waghorne this book will appeal to art historians as well as urban anthropologists scholars of religion and those interested in diaspora transnationalism and trends in contemporary religion It should be especially appealing for course use because it introduces the modern Hinduism practiced by the friends and neighbors of students in the U S and Britain

A Nation of Peoples Elliott Robert Barkan, 1999-05-30 The debate over America's multiculturalism has been intense for nearly three decades dividing opponents into those insisting on such recognition and those fearing that such a formal acknowledgment will undermine the civic bonds created by a heterogeneous nation Facts have often been the victim in this dispute and few works have successfully attempted to present the broad spectrum of America's ethnic groups in a format that is readable current and authoritative The chapters in this reference book demonstrate that America has been far more than a nation of immigrants it has been a nation of peoples of virtually all races religions and nationalities inclusive of indigenous natives and peoples long present as well as myriad immigrant and refugee groups Not all groups have equally found America to be a land of opportunity and the successes of some groups have come at the expense of others To understand the American experience the reader must not just study the story of immigrants living on the East Coast but also the history of those living in the South Southwest West and even Alaska and Hawaii As a reference book this volume provides thorough coverage of more than two dozen racial ethnic and religious groups in the United States Each chapter is written by an expert contributor and overviews the experiences of one group or a cluster of related groups The chapters are arranged alphabetically and cover groups such as African Americans American Indians Filipinos Hawaiians Mexicans Mormons and Puerto Ricans To the extent possible each chapter discusses the initial arrival of the group in America the adaptation of the first generation of immigrants the economic political and cultural integration of the group and the status of the group in contemporary American society Each chapter closes with a bibliographical essay and the volume concludes with a review of the most important general works on America's multicultural heritage

New Cosmopolitanisms Gita Rajan, 2006-02-09 This book offers an in depth look at the ways in which technology travel and globalization have altered traditional patterns of immigration for South Asians who live and work in the United States and explains how their popular cultural practices and aesthetic desires are fulfilled They are presented as the twenty first century's new cosmopolitans flexible enough to adjust to globalization's economic political and cultural imperatives They are thus uniquely adaptable to the mainstream cultures of the United States but also vulnerable in a period when nationalism and security have become tools to maintain traditional power relations in a changing world

Sociology and Social Anthropology in India Yogesh Atal, 2009 The Indian Council of Social Science Research the premier organization for social science research in India conducts periodic surveys in the major

disciplines of the social sciences to assess disciplinary developments as well as to identify gaps in research in these disciplines Multiculturalism in the United States John D. Buenker, Lormen A. Ratner, 2005-03-30 Interest in ethnic studies and multiculturalism has grown considerably in the years since the 1992 publication of the first edition of this work Co editors Ratner and Buenker have revised and updated the first edition of Multiculturalism in the United States to reflect the changes patterns and shifts in immigration showing how American culture affects immigrants and is affected by them Common topics that helped determine the degree and pace of acculturation for each ethnic group are addressed in each of the 17 essays providing the reader with a comparative reference tool Seven new ethnic groups are included Arabs Haitians Vietnamese Koreans Filipinos Asian Indians and Dominicans New essays on the Irish Chinese and Mexicans are provided as are revised and updated essays on the remaining groups from the first edition The contribution to American culture by people of these diverse origins reflects differences in class occupation and religion The authors explain the tensions and conflicts between American culture and the traditions of newly arrived immigrants Changes over time that both of the cultures brought to America and of the culture that received them is also discussed Essays on representative ethnic groups include African Americans American Indians Arabs Asian Indians Chinese Dominicans Filipinos Germans Haitians Irish Italians Jews Koreans Mexicans Poles Scandinavians and the Vietnamese City of Strangers Andrew M. Gardner, 2011-05-02 In City of Strangers Andrew M Gardner explores the everyday experiences of workers from India who have migrated to the Kingdom of Bahrain Like all the petroleum rich states of the Persian Gulf Bahrain hosts an extraordinarily large population of transmigrant laborers Guest workers who make up nearly half of the country's population have long labored under a sponsorship system the kafala that organizes the flow of migrants from South Asia to the Gulf states and contractually links each laborer to a specific citizen or institution In order to remain in Bahrain the worker is almost entirely dependent on his sponsor's goodwill The nature of this relationship Gardner contends often leads to exploitation and sometimes violence Through extensive observation and interviews Gardner focuses on three groups in Bahrain the unskilled Indian laborers who make up the most substantial portion of the foreign workforce on the island the country's entrepreneurial and professional Indian middle class and Bahraini state and citizenry He contends that the social segregation and structural violence produced by Bahrain's kafala system result from a strategic arrangement by which the state insulates citizens from the global and neoliberal flows that paradoxically are central to the nation's intended path to the future City of Strangers contributes significantly to our understanding of politics and society among the states of the Arabian Peninsula and of the migrant labor phenomenon that is an increasingly important aspect of globalization
