On the sun drenched crests of tropical coral reefs and in the dim uncharted waters just below them live the most biologically productive and diverse communities on our planet. No ecosystem is more varied and beautiful. And none is in more danger of perishing in our lifetimes. Rushing to the aid of these robust yet fragile natural treasures are adventurous men and women eager to face the challenge of discovering, recording and preserving these imperiled ecosystems and the interesting creatures that call them home. *Living Mirrors: A Coral Reef Adventure* introduces us to Howard and Michele Hall, the husband-wife underwater cinematography team who have joined forces with biologists, conservationists and filmmakers to bring the rest of us the most intimate look at coral reefs and the lands, seas and peoples around them we may ever get. *Living Mirrors* is the companion volume to MacGillivray Freeman Film's documentary feature *Coral Reef Adventure* filmed exclusively for IMAX theatres and large format cinemas. A richly illustrated exploration of corals and the worlds they create, *Living Mirrors* reveals the secrets of the reef and reflects them above the waterline where we might appreciate the wider implications of a realm vital to the balance of the rest of our world and worthy of our efforts to preserve it now and for generations to come.
