Stanislav Grof

The Experience Of Dying A Spectrum:

Beyond the Brain Stanislav Grof, 1985-01-01 Beyond the Brain seriously challenges the existing neurophysiological models of the brain After three decades of extensive research on those non ordinary states of consciousness induced by psychedelic drugs and by other means Grof concludes that our present scientific world view is as inadequate as many of its historical predecessors In this pioneering work he proposes a new model of the human psyche that takes account of his findings Grof includes in his model the recollective level or the reliving of emotionally relevant memories a level at which the Freudian framework can be useful Beyond that is perinatal level in which the human unconscious may be activated to a reliving of biological birth and confrontation with death How birth experience influences an individual s later development is a central focus of the book The most serious challenge to contemporary psycho analytic theory comes from a delineation of the transpersonal level or the expansion of consciousness beyond the boundaries of time and space Grof makes a bold argument that understanding of the perinatal and transpersonal levels changes much of how we view both mental illness and mental health His reinterpretation of some of the most agonizing aspects of human behavior proves thought provoking for both laypersons and professional therapists

Dying: A Social Perspective on the End of Life Alex Broom, 2016-03-03 An inevitable and universal experience dying is experienced by individuals in different ways often related to the character of our relationships family structures gender identities cultural backgrounds and economic means Drawing on extensive qualitative fieldwork with patients carers and health professionals in Australia and the United Kingdom Dying A Social Perspective on the End of Life provides a critical examination of the different spheres of dying in social and cultural context Exploring complex issues such as the politics of assisted dying negotiating medical futility gender and dying the desire for redemption the moralities of the good fight and the lived experience of bodily disintegration this book links novel theoretical ideas within sociology to cutting edge empirical data collected in palliative and end of life care contexts A theoretically engaged understanding of the social mediation of the end of life Dying A Social Perspective on the End of Life also sheds light on the manner in which the end of life can be shaped by major economic cultural and socio cultural shifts including neo liberalism individualisation medicalisation professionalisation and detraditionalisation As such it will appeal to social science health and medical researchers interested in the end of life as well as those working in palliative and end of life care settings

H. Rick Jarow, 2012-02-01 *Tales for the Dying* explores the centrality of death and dying in the narrative of the Bhagavata Purana India's great text of devotional theism canonized as an integral part of the Vaishnava bhakti tradition The text grapples with death through an imaginative meditation one that works through the presence and power of narrative The story of the Bhagavata Purana is spoken to a king who is about to die and it enables him to come to terms with his own passing The work does not isolate dying as an issue it treats it on many levels This

book discusses how images of dying in the Bhagavata Purana relate to issues of language and love in the religious imagination of India Drawing on insights from studies in myth literary semiotics and depth psychology as well as from Indian commentarial and aesthetic traditions the author examines the power of myth and narrative storytelling or hari katha and shows how a detailed awareness of the Puranic imagination may lead to a revisioning of some long held presuppositions around Indian religious attitudes toward dying By casting Vaishnava bhakti traditions and Puranic narrative in a fresh light the mythic imagination of the Puranas takes its place on the stage of contemporary discourse on comparative mythology and literature

Journey's End Victoria Brewster, Julie Saeger Nierenberg, 2017-07-20 In *Journey's End* many and varied collaborators write about death dying and the end of life We attempt to describe real life issues and circumstances and we discuss ways to proactively deal with them Useful training resource and reference material is also included Death dying and end of life are topics many prefer to avoid This book suggests that we benefit from having frank discussions living life to the fullest and planning for our own journey's end whenever that may be Everyone who is born eventually will die whether or not we want to embrace that fact Though few of us know when we will die we and our family or friends can be well prepared We can have discussions and create written directives for what we want if we are unable to verbally state them ourselves Do we want life support Do we want interventions that may or may not have any benefit to our quality of life if we are in the hospital or in an accident Do we want to be involved in planning our funeral memorial or celebration of life The submissions within are from professionals in the field of death and bereavement support and from laypeople all of whom share stories of dying family members friends clients and patients Julie and Victoria the coauthors of this book also share stories from their personal and professional experiences *Journey's End* is a broadly comprehensive book about death dying and the end of life

Supporting Dying Children and their Families Paul Nash, 2011-01-20 This practical guide offers invaluable and sensitive advice for all who work alongside terminally ill children their families and families who have been bereaved Paul Nash helpfully describes the different types of care that are needed depending on the age of the child from baby to teenager and on the particular needs of the child's family He also provides resources to help with remembering and celebrating the life of a child including rituals that can be used in preparation for death at the time of death and at funeral or memorial services

To Die Or Not to Die? Arthur S. Berger, Joyce Berger, 1990-11-30 Dramatic advances in medical technology make it possible to keep an individual alive well after life would otherwise be untenable These medical advances raise complex and disturbing questions about the appropriateness of allowing or even helping a person to die This provocative new book provides guidelines for dealing with the sensitive legal and ethical issues surrounding an individual's right to die Designed to give a global perspective on these contemporary issues *To Die or Not to Die* integrates the ideas and experiences of ten authorities from different disciplines cultures and legal systems recognizing that no single discipline offers an insight that is broad enough to solve the problems caused by rapidly changing medical technology The book discusses the issues in a comprehensive manner integrating the attitudes of various cultures and investigates the approaches and solutions of several different legal systems Challenging many commonly held views on the issues surrounding an individual's right to die this

book builds a new foundation for thinking or rethinking these controversial questions It allows the reader to consider new and diverse perspectives side by side for the first time Valuable appendices supply references statutes judicial decisions and important forms for more detailed study To Die or Not to Die will prove stimulating reading for professionals in medicine nursing theology law public health and the disciplines of philosophy ethics psychology and sociology The Publishers Weekly ,1888 The Near-Death Experience Lee W. Bailey,Jenny Yates,2013-06-17 The Near Death Experience A Reader is the most comprehensive collection of NDE cases and interpretations ever assembled This book encompasses a broad range of disciplines psychological researchers discuss cognitive models and Jungian theories of meaningful archetypal phenomena the biological perspective describes how brains near death may produce soothing endorphins optical illusions and convincing hallucinations Philosophers present empirical analyses and images in archetypal theories and the symbolic language of comparative phenomenological theories Christian Jewish and Mormon responses to NDEs outline the religious perspective and the mystical and spiritual interpretations of NDEs are also explored *Tourism and Earthquakes* C. Michael Hall,Girish Prayag,2020-10-08 This book offers a comprehensive overview of the relationship between tourism and earthquakes through all stages of a disaster It discusses the measures available to manage tourism after earthquakes and examines the means to mitigate the potential impacts of earthquakes on tourism The chapters address important questions such as are tourists who come to earthquake regions immediately after an earthquake a benefit or a burden for recovery and should priority be given to evacuate tourists after an earthquake hits The volume provides insights into the ethical commercial and socioeconomic issues facing tourism after a major earthquake It will be useful to students and researchers in tourism studies tourism planning and marketing natural hazards and destination and disaster management
