D. Bernal, 1972-03-01 A history of physics up to the end of the classical era at the end of the 19th century just before the discoveries of the subatom and relativity were made [A History of Epidemiologic Methods and Concepts](#) Alfredo Morabia, 2013-11-11 Methods just as diseases or scientists have their own history It is important for scientists to be aware of the genesis of the methods they use and of the context in which they were developed A History of Epidemiologic Methods and Concepts is based on a collection of contributions which appeared in SPM International Journal of Public Health starting in January 2001 The contributions focus on the historical emergence of current epidemiological methods and their relative importance at different points in time rather than on specific achievements of epidemiology in controlling plagues such as cholera tuberculosis malaria typhoid fever or lung cancer The papers present the design of prospective and retrospective studies and the concepts of bias confounding and interaction The compilation of articles is complemented by an introduction and comments by Prof Alfredo Morabia which puts them in the context of current epidemiological research **Walther Nernst and the Transition to Modern Physical Science** Diana Kormos Barkan, Diana Kormos Buchwald, 2011-03-03 A 1999 biography of one of Germany's most important scientists active 1890-1933 and an historical examination of physics and chemistry *Thinkers of the Twentieth Century* Roland Turner, 1987 Major thinkers in various intellectual disciplines are featured in *Thinkers of the Twentieth Century* Your patrons will find this guide a perfect start to their studies on 450 intellectuals from philosophy theology literary criticism aesthetics history social sciences politics and the sciences Entries are divided into two parts Part One includes a biography complete bibliography and reading list of the major books and articles written about the entrant Part Two consists of an extended 1 000 to 3 000 word essay on the entrant These essays explain in clear comprehensible language the work of the entrant and his/her influence on the intellectual of the 20th century [It's Part of What We Are - Volumes 1 and 2 - Volume 1: Richard Boyle \(1566-1643\) to John Tyndall \(1820-1893\); Volume 2: Samuel Haughton \(1821-1897\) to John Stewart Bell \(1928-1990\)](#) Charles Mollan, 2007-11-15 Biographies of more than 100 Irish scientists or those with strong Irish connections in the disciplines of Chemistry and Physics including Astronomy Mathematics etc describing them in their Irish and international scientific social educational and political context Written in an attractive informal style for the hypothetical educated layman who does not need to have studied science Well received in Irish and international reviews **Thinkers of the Twentieth Century** Elizabeth Devine, 1983 **Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures** Helaine Selin, 2008-03-12 Here at last is the massively updated and augmented second edition of this landmark

encyclopedia It contains approximately 1000 entries dealing in depth with the history of the scientific technological and medical accomplishments of cultures outside of the United States and Europe The entries consist of fully updated articles together with hundreds of entirely new topics This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non Western Science such as rationality objectivity and method You ll also find material on religion and science East and West and magic and science

The British Imagination Peter Watson,2025-05-22 Before the 16th century Britain was a small out of the way backwater lagging far behind other global powers in terms of power and innovation This all changed when Queen Elizabeth I was crowned During her reign creative and intellectual life flourished as never before and Britain became one of the leading nations of the West It has remained a major power ever since What happened in the last five hundred years to bring about this change and to maintain it And what can it tell us about the unique nature of British identity and exceptionalism today The British Imagination is a masterful journey through 500 years of history from Shakespeare to Woolf the Royal Society to the industrial revolution and from the first New World colonies to the empire that by the 1920s had colonised a quarter of the world The key tenets of British history Peter Watson argues are religion empirical science commerce and empire Breathtaking in scope covering everything from astronomy to geology philosophy to literature The British Imagination is a spellbinding tour of the most influential ideas and the extraordinary people who made Britain what it is today
