Handbook of Sociology and Human Rights David L. Brunsma, Keri E. Lyall Smith, Brian K. Gran, 2015-10-23 Long the province of international law human rights now enjoys a renaissance of studies and new perspectives from the social sciences This landmark book is the first to synthesize and comprehensively evaluate this body of work It fosters an interdisciplinary international and critical engagement both in the social study of human rights and the establishment of a human rights approach throughout the field of sociology Sociological perspectives bring new questions to the interdisciplinary study of human rights as amply illustrated in this book The Handbook is indispensable to any interdisciplinary collection on human rights or on sociology This text Brings new perspectives to the study of human rights in an interdisciplinary fashion Offers state of the art summaries critical discussions of established human rights paradigms and a host of new insights and further research directions Fosters a comprehensive human rights approach to sociology topically representing all 45 sections of the American Sociological Association

Where the Rivers Meet Carly A. Dokis, 2015-07-01 Oil and gas companies now recognize that industrial projects in the Canadian North can only succeed if Aboriginal communities are involved in decision making processes Are Aboriginal concerns appropriately addressed through current consultation and participatory processes Where the Rivers Meet is an ethnographic account of Sahtu Dene involvement in the environmental assessment of the Mackenzie Gas Project a massive pipeline that if completed would have unprecedented effects on Aboriginal communities in the North Carly A. Dokis reveals that while there has been some progress in establishing avenues for Dene participation in decision making the structure of participatory and consultation processes fails to meet the expectations of local people by requiring them to participate in ways that are incommensurable with their experiential knowledge and understandings of the environment Ultimately Dokis finds that the evaluation of such projects remains rooted in non local beliefs about the nature of the environment the commodification of land and the inevitability of a hydrocarbon based economy

The Scramble for the Poles Klaus Dodds, Mark Nuttall, 2016-01-11 In August 2007 a Russian flag was planted under the North Pole during a scientific expedition triggering speculation about a new scramble for resources beneath the thawing ice But is there really a global grab for Polar territory and resources Or are these activities vastly exaggerated In this rich and wide ranging book Klaus Dodds and Mark Nuttall look behind the headlines and hyperbole to reveal a complex picture of the so called scramble for the poles Whilst anxieties over the potential for conflict and the destruction of what is often perceived as the world's last wildernesses have come to dominate Polar debates and are to some

extent justified their study also highlights longer historical and geographical patterns and processes of human activity in these remote territories Over the past century Polar landscapes have been probed drilled fished tested on and dug up as their indigenous populations have struggled to protect their rights and interests No longer remote places or themselves poles apart from one another the contemporary geopolitics of the Polar regions has lessons for us all as we confront a warming world where access to resources is a concern for states big and small

Energy Law, Climate Change and the Environment Martha M. Roggenkamp, Kars J. de Graaf, Ruven C. Fleming, 2021-05-21 This comprehensive volume of the Elgar Encyclopedia of Environmental Law provides an overview of the major elements of energy law from a global perspective Based on an in depth analysis of the energy chain it offers insight into the impacts of climate change and environmental issues on energy law and the energy sector This timely reference work highlights the need for modern energy law to consider environmental impacts and promote the use of clean energy sources whilst also safeguarding a reliable and affordable energy supply

Movements for Human Rights David L. Brunσμα, Keri Iyall Smith, Brian Gran, 2016-09-07 How do people work together to advance human rights Do people form groups to prevent human rights from being enforced Why In what ways do circumstances matter to the work of individuals collectively working to shape human rights practices Human society is made of individuals within contexts tectonic plates not of the earth's crust but of groups and individuals who scrape and shift as we bump along competing for scarce resources and getting along These movements large and small are the products of actions individuals take in communities within families and legal structures These individuals are able to live longer yet continue to remain vulnerable to dangers arising from the environment substances struggles for power and a failure to understand that in most ways we are the same as our neighbors Yet it is because we live together in layers of diverse communities that we want our ability to speak to be unhindered by others use spirituality to help us understand ourselves and others possess a space and objects that are ours alone and join with groups that share our values and interests including circumstances where we do not know who our fellow neighbor is For this reason sociologists have identified the importance of movements and change in human societies When we collaborate in groups individuals can change the contours of their daily lives Within this book you will find the building blocks for human rights in our communities To understand why sometimes we enjoy human rights and other times we experience vulnerability and risk sociologists seek to understand the individual within her context Bringing together prominent sociologists to grapple with these questions **Movements for Human Rights Locally and Globally** offers insights into the ways that people move for and against human rights

Reculturing Museums Doris B. Ash, 2022-02-27 **Reculturing Museums** takes a unified sociocultural theoretical approach to analyze the many conflicts museums experience in the 21st century Embracing conflict Ash asks What can practitioners and researchers do to create the change they want to see when old systems remain stubbornly in place Using a unified sociocultural cultural historical activity theoretical approach to analyzing historically bound conflicts that plague museums each chapter is organized around a central contradiction including finances Who will pay for museums demographic shifts Who will come to museums the roles of narratives Whose story is it ownership of objects Who owns the artifact and learning and teaching What is learning and how can we teach equitably The reculturing stance taken by Ash promotes social justice and equity making change first within museums called inreach rather than outside the museum called outreach challenges existing norms is sensitive to neoliberal and deficit ideologies and pays attention to the structure agency dialectic **Reculturing Museums** will be essential reading for academics students museum practitioners educational researchers and others who care about museums and want to ensure that all people have equal

access to the activities objects and ideas residing in them Political Consumerism ,2005 *Institutions Unbound* David L. Brunisma,Keri E. Iyall Smith,Brian K. Gran,2016-03-02 Institutions like education family medicine culture and law are powerful social structures shaping how we live together As members of society we daily express our adherence to norms and values of institutions as we consciously and unconsciously reject and challenge them Our everyday experiences with institutions not only shape our connections with one another they can reinforce our binding to the status quo as we struggle to produce social change Institutions can help us do human rights Institutions that bridge nation states can offer resources including norms to advance human rights These institutions can serve as touch stones to changing minds and confronting human rights violations Institutions can also prevent us from doing human rights We create institutions but institutions can be difficult to change Institutions can weaken if not outright prevent human rights establishment and implementation To release human rights from their institutional bindings sociologists must solve riddles of how institutions work and determine social life This book is a step forward in identifying means by which we can loosen human rights from institutional constraints **Cumulative Book Index** ,1998 A world list of books in the English language **The Basics of Social Research** Earl R. Babbie,2002 A concise affordable paperback research methods text from Earl Babbie who defined how to teach the research methods course with the publication of THE PRACTICE OF SOCIAL RESEARCH The streamlined Second Edition of THE BASICS OF SOCIAL RESEARCH emphasizes the fundamental concepts of both quantitative and qualitative research methods Inductive chapter openings pose social research problems that are addressed and resolved in each chapter through the application of key chapter concepts Each chapter contains detailed examples and new sections on how to interpret the results of data analysis The second edition features increased technology integration as well SPSS MicroCase HyperResearch and NVIVO statistical software examples are given throughout the text Web icons indicate where practice exercises and tutorials are available on the companion web site The text provides students with the necessary tools for understanding the basics of social research methods and for applying these concepts both inside and outside the classroom
