

Spring Eye Patterns

Bright, clear and warm colors (such as light brown, green and hazel)

Sunburst design with a golden or white ring surrounding the pupil.

May have flecks and orange/brown dots called jewels as well. (Some sources say this indicates an autumn influence, but other sources say it can either indicate a health issue or that it's just a genetic result of parents with different eye colors.)

A circular doughnut shape like structure called Halo may exist around the pupil.

- If a Warm undertone is dominant, your eye pattern may contain both a halo and speckles.
- If your dominant characteristic is Light, your eye pattern can have a halo and cloudiness.
- If your Bright features are dominant, your eye pattern can contain both spokes/streams and a halo.
- If you have only a halo and you have cool skin undertones, check with summer credentials.

Here are some spring eyes with influence of other season's eye patterns.

spring

More straightforward examples of different types of springs:

1/2 LIGHT

1/3 WARM

1/4 CLEAR/BRIGHT
