Excerpt from *The Religions of Mankind*: A small book was published in 1918 entitled *The Faiths of Mankind*. It belonged to a series of College Voluntary Study Courses and was prepared with that end in view. Since that time, the desire has been repeatedly expressed that the writer prepare a volume with a wider public in view. The needs of the general reader and ministers were to be kept in mind, as well as students in their college and seminary courses. Coming directly out of contact with students in the classroom, it is inevitable that the form of the present book and the selection and arrangement of material should be determined by that experience. The guiding principle has been not to overload the text with a multiplicity of facts, but to select and make use of such facts as are relevant to the main lines of development and to make clear their meaning and relationships. To interpret facts has been looked upon as important as to present them. One of the main problems with students is to prevent the confusion which results from presenting great quantities of material which they are not prepared to assimilate and make use of intelligently. An introductory chapter on *The Nature of Religion* has been included. No doubt such a subject can only be handled with satisfaction in a volume devoted to its consideration, but even a rapid survey as is presented here may introduce the student to the subject in such a manner as to make far more intelligible than would otherwise be possible the studies of

The Religions of Man Huston Smith, 1958 Here is a unique study of the world's great religions Hinduism Buddhism Confucianism Taoism Islam Judaism and Christianity It is not a history it is not a critique Instead it explains simply and sympathetically the basic tenets of each religion and the reasons why it attracts millions of devout followers As the author

writes in the first chapter This is a book about religion that exists not as a dull habit but as an acute fever It is about religion alive And whenever religion comes to life it displays a startling quality it takes over All else while not silenced becomes subdued and thrown without contest into a supporting role Thoroughly researched THE RELIGIONS OF MAN carries its scholarship lightly It is a dependable informative fascinating presentation of both the differences and similarities in the major religious traditions And it is essential for anyone who would understand peoples of other lands other cultures other religions
