**The End of the Russian Empire** Prof. Michael T. Florinsky,2017-07-31 THE RUSSIAN REVOLUTION FROM THE TSARS TO THE SOVIETS This economic political and social study by a distinguished Russian authority uses a wealth of contemporary evidence state documents memoirs correspondence statistics to analyze the forces which brought about the fall of the Tsars and paved the way for Bolshevism in the crucial years 1914 1917 Beginning with a survey of the state of the Russian Empire on the eve of World War I Professor Florinsky shows how the Imperial system failed to meet the challenges raised by that conflict and why the Bolsheviks were able to assume control of the national Revolution Every aspect of the collapse is scrutinized from the absolutist tradition inherited by Nicholas II to the estrangement of the

intelligentsia from the peasant masses whose only aims were peace and land The principals are strikingly portrayed Tsar Nicholas Tsaritsa Alexandra Grand Duke Nicholas Nikolaevich and Rasputin as are the breakdown of the ministerial bureaucracy the impotence of the Duma and Union of Zemstvos and the colossal losses of the army This richly documented account of the Provisional Government's failure to meet the nation's Revolutionary goals and of the Bolsheviks spectacular success in formulating and giving voice to Russian aspirations is basic to an understanding of the origins of today's Soviet state

**The Decline of Imperial Russia, 1855-1914** Prof. Hugh Seton-Watson, 2017-02-07 The last sixty years of Imperial Russia are not only of great historical interest but are significant for other countries and other periods The social economic and political conditions which gave Lenin his opportunity were similar to those now giving birth to various types of revolutionary movements in many parts of the world Dr Seton Watson's penetrating analysis of the mainstreams of the declining decades of pre Revolutionary Russia establishes clearly that the nation as a whole was trying to catch up with the advances made by Western Europe But these attempts at social and economic change were nullified by one immutable and decisive factor the dogma of autocracy The tragedy of Russia was caused by the Czars insistence on absolute powers which they were incompetent to wield The history of these years throws light on some of the problems that most urgently beset the statesmen of our own day and provides an impressive array of mistakes which they would do well to avoid in order to safeguard the survival of the free world Illustrated with 8 maps First rate history clear and readable an admirable survey of Russian development from the reign of Alexander II to the outbreak of the First World War The New Leader

The End of Empires Michael Gehler, Robert Rollinger, Philipp Strobl, 2022-11-21 The articles of this comprehensive edited volume offer a multidisciplinary global and comparative approach to the history of empires They analyze their ends over a long spectrum of humankind's history ranging from Ancient History through Modern Times As the main guiding question every author of this volume scrutinizes the reasons for the decline the erosion and the implosion of individual empires All contributions locate and highlight different factors that triggered or at least supported the ending or the implosion of empires This overall question makes all the contributions to this volume comparable and allows to detect similarities differences as well as inconsistencies of historical processes
