The L Bruce Andrews, Charles Bernstein, 1984 L A N G U A G E started as a bimonthy magazine of infrmation and commentary a forum for discussion and interchange Throughout we have emphasized a spectrum of writing that places its attention primarily on language and ways of making meaning that takes for granted neither vocabulary grammar process shape syntax program or subject matter All of these remain an issue Focussing on this range of poetic exploration and on related aesthetic and political concerns we have tried to open things up beyond correspondence and conversation to break down some unnecessary encapsulation of writers person to person scene from scene and to develop more fully the latticework of those involved in aesthetically related activity Repossessing the word P IX The Latest Catastrophe Henry Rousso, 2016-07-06 The writing of recent history tends to be deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies Frequently today s historians can find themselves researching the same events that they themselves lived through This book reflects on the concept and practices of what is called contemporary history a history of the present time and identifies special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or memory an attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately The Latest Catastrophe shows how historians at times against their will have themselves become actors in a history still being made
