Leadership and Negotiation in the European Union Jonas Tallberg, 2006-08-24 In this 2006 book Jonas Tallberg offers a novel perspective on some of the most fundamental questions about international cooperation and European Union politics Offering the first systematic theoretical and empirical exploration of the influence wielded by chairmen of multilateral negotiations Tallberg develops a rationalist theory of formal leadership and demonstrates its explanatory power through carefully selected case studies of EU negotiations He shows that the rotating Presidency of the EU constitutes a power platform that grants governments unique opportunities to shape the outcomes of negotiations His provocative analysis establishes that Presidencies while performing vital functions for the EU simultaneously exploit their privileged political position to favour national interests Extending the scope of the analysis to international negotiations on trade security and the environment Tallberg further demonstrates that the influence of the EU Presidency is not an isolated occurrence but the expression of a general phenomenon in world politics the power of the chair **The Role of the Media in Criminal Justice Policy** Natalia Antolak-Saper, 2022-09-09 This book provides a socio legal examination of the media s influence on

the development and implementation of criminal justice policy This impact is often assumed And especially in the wake of high profile crimes the press is routinely observed calling for sentences to be harsher and for governments to be tougher on crime But how do we know that there is a connection To answer this question the book draws on a case study of the media reporting of the rape and murder of Jill Meagher in Melbourne Australia as well as other well known cases including those of James Bulger Sarah Payne Stephen Lawrence and Michael Brown among others Deploying a socio legal framework to examine how the media s often powerful and emotive narratives play a crucial role in the development and implementation of law the book provides a deep and critical reflection on its influence The book concludes with a number of suggestions for media reform both to moderate the media s influence and to incorporate a broader range of viewpoints This multi disciplinary book will appeal to scholars and students in sociological studies criminology and criminal law as well as those working in relevant areas in sociology and media studies
