

The Alien Probe

John Gertz

The Alien Probe:

The Alien Probe Victor Appleton, 1981-01-01 **The Alien Probe** Victor Appleton, 1981 An alien probe found wrecked on one of Jupiter's moons and containing insane intelligence is stole from a laboratory before its secret of stardrive is obtained

Von Neumann's War John Ringo, Travis S. Taylor, 2006-08 With the planet Mars rapidly changing from red to gray scientists send a probe to investigate the situation and discover that the planet is being used as a staging ground for an invasion of Earth by a robotic race intent on destroying human civilization

The Making of Yesterday's Enterprise Eric A. Stillwell, 2008 Yesterday's Enterprise consistently ranks as one of the all time fan favorite episodes of the Star Trek The Next Generation television series Stillwell chronicles the behind the scenes of this acclaimed episode from its inception to the final product and beyond

Kogi Brian Dalton, 2022-11-22 A thousand years from now Earth is a disaster The surface is nearly unlivable outside of domed cities with the more well off living in stations and colonies in space The task of reclaiming Earth is long and hard even with the available technology But now an alien armada has arrived to test human society in a game that will decide whether they join interstellar society or are destroyed for the good of the galaxy The problem is that no one on Earth has played any sports games in centuries Fortunately there is an experimental time travel machine that may allow them to bring forth some sports figures from Earth's past to play the alien game a game with a few similarities to basketball A fault in the machine however only allows one notable sports figure and his companions to be brought forth snatched moments before their reported deaths in a helicopter crash Now it's up to Kobe Bryant to play the game of his life and save the world and all of humankind

The Rings of Time Greg Cox, 2012-01-31 When a mining colony on an endangered moon is threatened it's a race against time for the Enterprise crew to find a solution in this original novel set in the universe of Star Trek The Original Series The USS Enterprise responds to a distress call from a vital dilithium mining colony in the Klondike system The colony is located on Skagway a moon orbiting Klondike 6 a gas giant not unlike Saturn For unknown reasons the planet's rings are coming apart threatening the colony and its inhabitants Kirk and his crew need to find a solution fast There are more than 3 000 colonists including hundreds of families on Skagway which is more than even the Enterprise can take on and there are no other rescue ships or habitable planets anywhere in the vicinity Meanwhile an approaching comet that may be the source of the crisis turns out to be a mysterious alien probe Sensors indicate that the probe is incredibly old and running low on power Suspecting that the probe may have something to do with the threat to Skagway Kirk has the probe beamed aboard the Enterprise Suddenly after a blinding flash Kirk suddenly finds himself floating in orbit above Saturn in our solar system drifting in space wearing a twenty first century NASA spacesuit What just happened

Reinventing SETI John Gertz, 2025 Reinventing SETI clears out the cobwebs of outdated or wrongheaded SETI paradigms such as Fermi's Paradox the Drake Equation and METI i.e proactively sending signals from Earth to putative aliens It argues that scientists should approach the pursuit of extraterrestrials ETs in a more effective manner Author John

Gertz states that ETs as biological lifeforms themselves cannot accomplish interstellar travel but have instead placed robotic probes throughout the universe perhaps even in our own Solar System Humorous and deeply informative this book takes the reader through the universe conventional SETI methods and ideas on future ET exploration **If** Roger Lee Vernon,2011-12-19 What IF time could be stopped What IF immortality was for sale What IF your space ship was captured and you travelers became pets of a more advanced civilization on an alien planet What IF an alien race tried to save earth from itself Would the people of earth cooperate In these science fiction stories Roger Lee Vernon touches on romance adventure suspense politics womens liberation and many possible futures **Open Through The Mindflow** John Reeves, Open Through The Mindflow is a collection of poetry lyrics drawings paintings and short stories created by John Reeves over the last decade This body of work is a labor of love and self expression These words and compilations of art were conceived while living in San Diego California Portland Oregon and New York New York Mostly spontaneous the art within the pages of this book are heartfelt comments on living and life as the author sees it John Reeves has spent most of his life traveling the world as a professional skateboarder With this and his many life experiences he has developed an acute and deep appreciation for the arts and everything creative Along with skateboarding music and painting writing has quickly become one of his greatest passions Waiting for Contact Lawrence Squeri,2016-08-31 A cogent engaging history of humanity s most ambitious quest seeking outward for other minds David Brin author of Existence A fascinating perspective on humankind s obsession for knowing if there is anyone else out there Gerrit L Verschuur author of The Invisible Universe The Story of Radio Astronomy Squeri has written what will likely be the definitive history of the early days of SETI that includes profiles of some of its leading characters Ben Zuckerman coeditor of Extraterrestrials Where Are They An insightful history that explores the scientific foundations of the modern day search for our place in the cosmos Waiting for Contact delivers unparalleled access to the inner history of SETI and invites us to ride along on the journey to answer one of science s ultimate questions Are we alone Douglas Vakoch president METI International Waiting for Contact is a balanced account telling the tale of the search for extraterrestrial intelligence without the overpromise usually trumpeted by enthusiastic proponents and the hyperventilation so commonly added by UFO enthusiasts If you are simply interested in the history unvarnished by an agenda you ll enjoy this book Don Lincoln author of Alien Universe Extraterrestrial Life in Our Minds and in the Cosmos Imagine a network of extraterrestrials in radio contact with each other across the universe superior beings who hail from advanced civilizations quadrillions of miles away just waiting for Earth to tune in Some people believe it s only a matter of time before we discover the right station Waiting for Contact tells the story of the Search for Extraterrestrial Intelligence SETI movement which emerged in 1959 as astronomers began using radio telescopes to listen for messages from space New technological developments turned what once was speculation into science Boosted by support from Frank Drake Philip Morrison Carl Sagan and the genre of science fiction the SETI movement gained followers and continues to capture

imaginations today In this one of a kind history Lawrence Squeri looks at the people reasons goals and mindsets behind SETI He shows how it started as an expression of the times a way out of Cold War angst with hope for a better world SETI s early advocates thought that with guidance from technically and ethically advanced outsiders humanity might learn how to avoid horrors like nuclear annihilation and societal collapse from overpopulation Some hoped that good news from outer space might reveal a cure for cancer or even the secret of immortality Squeri also describes the challenges SETI has faced over the years the struggle to be taken seriously by the scientific community and by NASA competition for access to radio telescopes perpetual lack of funding and opposition from influential politicians He covers the rise and fall of Soviet SETI and the few rare meetings between Soviet and American astronomers Despite many setbacks the movement pressed forward with the aid of private donations and developed outreach programs Volunteers can now help search for new civilizations on their personal computers by joining the SETI Home project Today SETI researchers continue to see themselves as explorers They often identify with Columbus and just as Columbus never realized the full implications of his discovery we cannot predict what will happen if contact is made This book points out that if against all expectations the embattled SETI movement finally succeeds the long awaited first signal picked up by its radio antennas will usher the greatest shift in human history A new adventure will begin Lawrence Squeri is professor emeritus of history at East Stroudsburg University
